A Large Variety of News From the Old World.

GENERAL FOREIGN NEWS IN Special Dispatches to This Day.

TERRIFIED KINGS.

LONDON, October 23.—The following dispatches were received:

BERGAMO, October 23.—A woman fired twice at King Milan in the Citadel to-day. The king was not hurt.

BERGAMO, October 23.—The king's assistant in the widow of Col. Jomard Markowitch, executed with several others in May, 1878, by order of Milan. It is expected the attempt is not merely a revenge, but partly to vindicate motives.

The Vienna Press says King Milan would be assassinated ever since the execution of her husband and she can scarcely be considered responsible for her actions. As King Milan entered the cathedral, between two rows of people, the woman Markowitch fired at him with a large revolver. The bullet wounded a female spectator. Bystanders beat the king's assailant until the minister of war interfered.

After the attempt to assassinate the king, Queen Natalie, who was with the king in the cathedral, fainted and was carried in an unconscious condition to the palace. The king accompanied her thither and then returned to the church unattended and remained until the end of the service. The crowd attempted to lynch the assassin.

BUDAPEST, October 23.—The object of the recent prolonged sojourn of the king of Servia in Romania was to defeat a conspiracy against his life. The king, while journeying from Rastchuk, received information at Sistova of a plot formed to blow up with a torpedo the royal boat while on the Danube, between Rastchuk and Belgrade.

ARABI'S TRIAL.

CAIRO, October 23.—The mode of procedure for the trial of Arabi Pasha allows the calling of witnesses from foreign countries, or the taking of their evidence by commission. Counsel for the prisoner have the right of final reply.

LONDON, October 23.—It is believed the government has concluded with the khedive for the discharge of the cost of the British army of occupation by the Egyptian government.

THE FESTIVAL OF BAHRAIN.

CONSTANTINOPLE, October 23.—On the opening of the festival of Bahrain the sultan received Turkish civil, military and religious authorities. Gen. Wallace, United States minister, was the only member of the diplomatic corps present. He informed the sultan he intended to take leave of absence for two months for the purpose of journeying to Austria. The sultan begged General Wallace to deter his departure.

THE TUNIS TROUBLE.

TRIPOLE, October 23.—Ali Ben Omer with thirty-two Tunisian Arab chiefs, started for the frontier. The French consul general has written a letter in their favor to the general commanding at Tunis.

THE SOCIALIST LAWS.

BERLIN, October 23.—The repeal of socialist laws is expected shortly. Even the North German Gazette favors the repeal on condition that the socialists abstain from interference in the higher grades of politics.

THE REVOLUTIONISTS.

LONDON, October 23.—The annual congress of the commonwealth revolution organization opened to-day. There was a large attendance of European delegates, also some from America. Resolutions were passed condemning the prosecution of Freheit, thanking Victor Hugo for this action in the good cause, and supporting the revolutionary movement in Ireland.

A LEAGUE VICTORY.

DUBLIN, October 23.—Thomas Judge, a land leaguer, was elected chairman of the town commissioners of Boyle by a majority of one vote, defeating Mr. King Hartman, who filled the post several years.

BRIGHT AND THE TRADES.

LONDON, October 23.—John Bright, replying to a resolution of the Birmingham trades council, writes: "The only fault with the procedure and resolutions is that they are not sufficiently stringent to be an efficient remedy for what they are intended to meet."

P. J. SMITH, ESQ.

DUBLIN, October 23.—P. J. Smith, member of parliament for Tipperary, a moderate Irish nationalist, has written a letter in which he says the recent national conference was not a representative one. He warns his countrymen against the new movement, which he describes as "a sham, deceit and fraud." Its only object, he declares, is to get money which will never be accounted for, to support Ireland's worst enemy.

HUGE FIRES IN RUSSIA.

ST. PETERSBURG, October 23.—Incendiary fires have broken out in seven different parts of Pawlowsk. The whole place is threatened with destruction. The loss by fire in the timber yards on River Neva is estimated at five million roubles. The forests and peat bogs are now on fire

for miles around St. Petersburg. The city has been covered some days with a dense smoke.

THE SOUDAN REBELLION.

CAIRO, October 23.—The ministry are industriously representing that the reports of a renewal of disturbances in Soudan are unfounded, while they have been in possession of messages in regard to disturbances for the last three days. The Soudan movement has no connection with Arabi's uprising. A false prophet announces his intention of invading the country, but has not advanced beyond Khartoum. He has several regiments of Nebbia. Prof. Schweinfurth has communicated the following from Soudan: "Last June six thousand Egyptian soldiers were surrounded by troops of the false prophet and massacred." Schweinfurth declares the situation in Soudan favors Arabi's revolt into insignificance.

SERRANO'S PROGRAMME.

MADRID, October 23.—At a meeting of the Alfonsist democrats, Ferrer announced that Serrano would shortly convene a meeting of his partisans, and communicate his programme.

DELEGATES AS A WITNESS.

CAIRO, October 23.—Arabi Pasha desires De Lesseps to be summoned as a witness at his trial.

CHILI AND PERU.

PANAMA, October 23.—In an engagement between Chilean troops and Montoneros, near Parota, the Montoneros were completely dispersed. It is believed the Chileans made terms of peace with Garcia Calderon, but on what basis is not known. Ex-President Magdalena will soon leave for Peru, accompanied by Minister Lozano, to call a congress to ratify this treaty.

MANILLA DESTROYED.

HONG KONG, October 23.—The greater part of Manila has been destroyed by a typhoon.

LONDON, October 23.—A cablegram from Manila, Philippine Islands, says business is suspended here, owing to the terrible cyclone of October 20th, which caused great destruction of buildings and beached thirteen vessels.

FRANCE UNSEAS.

PARIS, October 23.—The troubles at Monticene Les Lignes, together with those at Lyons, yesterday, and the threatened strike of 20,000 employees in the furniture trade in the Faubourg stantoine of Paris, caused some uneasiness.

SAFE IN PORT.

PLYMOUTH, October 23.—Arrived, the Gallier, with the passengers of the wrecked steamer Herder.

NOTHING IN LYONS.

LYONS, October 24.—There was a riotous demonstration against the municipality here yesterday in consequence of their having suppressed the subscription to the opera. The police were unable to cope with the crowd. A body of gend d'armes cleared the streets. At two o'clock this morning there was an alarming explosion in a restaurant adjoining the theatre. Two reports were heard under one of the tables. There were 200 people in the restaurant who rushed hurriedly into the streets. A third and more formidable explosion then occurred, which shattered the tables, mirrors, and other articles, and seriously injured three persons. It is stated three men entered the restaurant ten minutes before the first explosion left small bombs under the table.

FRANCE OBTAINS TUNIS.

PARIS, October 23.—The bey of Tunis has made a treaty with France by which that power assumes the debt of Tunis, organizes an administration of justice and takes charge of all public property giving the bay a retiring allowance.

BAKER PASHA'S NEW PLAN.

CAIRO, October 23.—Baker Pasha has been officially appointed to the command of the new Egyptian army.

A LARGE FIRE.

CAIRO, October 23.—This morning in the large lumber yards by the river Neva and is still raging.

Special Dispatch to This Day.

REMOVAL OF OFFICES.

WASHINGTON, October 23.—The work of removing the money order office and the office of the auditor of the treasury for the postoffice department from temporary quarters on F street to the new building opposite the general postoffice began to-day. The work will probably consume the week. The transfer of \$1,000,000 gold certificates from New York to Philadelphia has been ordered. Requests for those certificates have been received from Cincinnati, St. Louis and Boston. During the week ended October 21 there were 953,000 silver dollars put in circulation by the mint; for the corresponding period last year \$454,497 were issued.

The Japan minister and suite and the minister to Vienna arrived in this city, after a journey of twenty-two days and nineteen hours, from Yokohama, the quickest time on record.

PAY OF CONGRESSMEN.

For the forty-eighth congress, 325 members and eight delegates, there has been asked \$1,165,000 for pay, \$25,000 for contingents; for mileage, \$125,000. It is estimated the total will be over \$1,800,000.

ABOUT CHINAMEN.

Acting Secretary of the Treasury French decides that a Chinaman having passed through Canada on the Grand Trunk railway, is entitled to admission into the United States without further evidence of his right than such ticket.

THE ARMY.

The quartermaster-general of the army submitted to the secretary of war his report for the fiscal year ending June 30, 1882. Amount available during the year, \$13,628,681; total disbursements, \$12,446,442; leaving balance on hand of \$1,182,239. The responsibilities and magnitude of the service are described, and an appeal made for additional force. It is also urged that the ranks be opened for promotion and appointment. The enlistment of post quartermaster sergeants is recommended. The quartermaster general renews the recommendation heretofore made that allowance of \$10 per month be made, in addition to pay, to every line officer who is detailed by proper authority as acting assistant quartermaster of a military post. The estimated demands upon the department during the year will exceed the amount available for purchase and manufacture of clothing, and camp and garrison equipment.

The commissary general of subsistence submitted to the secretary of war a report of operations of the subsistence department for the fiscal year ended June 30, 1882. The report shows total resources \$4,150,028; expenditures, \$3,739,296; balance unexpended, \$419,731; amount expended for subsistence stores, property contingencies during year, \$2,596,309. The price of beef throughout the country increased to such an extent that the price paid under contract for the current fiscal year is 23 per cent

greater than for the last year, and 36 per cent greater than the previous year.

The president to-day placed on the retired list, under special act of congress, Captain Joseph Conrad, Eleventh infantry. This will promote First Lieutenant William C. Kingsbury, to be captain of the Eleventh infantry. Second Lieutenant George Leroy Brown, to be first lieutenant.

DR. BOYNTON'S BILL.

In compliance with the request of the board appointed to examine and audit claims growing out of the illness and death of President Garfield, Dr. Boynton, to-day returned a properly filed bill of form of application recently forwarded him. The aggregate amount of the claim is \$4,500, being \$5,500 less than any claims for professional services yet received.

A DENIAL.

The attorney general denies the report that the star route cases were considered at the conference with the president Saturday.

PROMOTIONS.

Forty-eight employees of the census bureau have been recommended for promotion.

THE NORTHERN PACIFIC.

The president accepted another twenty-five miles of the Northern Pacific railroad in Montana, coming eastward.

THE SATELETO TRIAL.

In the case of Augustus Sateleto, charged with murdering his brother, A. M. Sateleto, the trial of which is fixed for Monday next, his counsel to-day filed an order for subpoena duces tecum, on General J. R. West, commissioner of the district, to search diligently for, and if found to produce certain letters alleged to have been written by Clarence M. Barton, Arthur Shepherd, and Charles T. Sanderson, of this city, copies which are to have been carried by A. M. Sateleto to the Republican office on the night of his death.

The Star publishes this evening what purports to be copies of these letters. They exhibit a misappropriation of money by Barton and seem to show that the latter acknowledged this misappropriation and expressed regret and repentance and promised restitution. In a card to The Star Barton says the request by Sateleto's counsel relative to the papers concerning financial transactions long since closed can have no possible bearing in the coming trial of A. C. Sateleto, and that it is made to smother his character before the public.

BREWSTER ON GUTENAU.

The opinion of Attorney General Brewster upon the papers presented the president last June in support of the application for appointment of a commission to consider the mental condition of assassin Guttenau, asking for a respite pending such investigation, "was given out to-day. The opinion, addressed to the president, concludes: At the last hour you are asked to deprive this justly condemned man, to investigate in an unusual if not irregular way, a fact that has been solemnly determined by constituted authorities of the law. I submit it ought not to be done. It will establish a dangerous precedent. It will shake public confidence in the certainty and justice of the courts by substituting your will for the judgment of law and its terms at the instigation of a few who assert he was, and is, insane, who press their application contrary to a preponderance of the medical talent of this country, who believe the other way.

A Prosecutor in Jail.

BALTIMORE, October 23.—Rev. W. P. Woodruff, arrested on the charge of violation of United States law by "opening a letter sent by mail before it had been delivered to the person addressed," was held for the action of the grand jury and in default of bail sent to jail. Woodruff has been preaching in the Emanuel Reformed Episcopal church of this city, previous to which time he was a Congregationalist and for some time editor of The Baltimore Presbyterian.

DR. FISHBLATT,

OF THE DES MOINES MEDICAL DISPENSARY, ON ACCOUNT OF HIS Immense Practice In Omaha, Neb., WILL MAKE HIS NEXT VISIT ON

Tuesday, Nov. 7th, 1882, AND WILL REMAIN THREE DAYS

AT THE PAXTON HOTEL, WHERE HE CAN BE CONSULTED ON THE

Eye & Ear, Throat & Lungs, Catarrh, Kidneys AND Bladder and Female Diseases as Well as All Chronic and Nervous Diseases

DR. FISHBLATT

Has discovered the greatest cure in the world for weakness of the back and limbs, involuntary discharges, impotency, general debility, nervousness, languor, confusion of ideas, palpitation of the heart, trembling, dizziness of sight or giddiness, diseases of the head, throat, nose or skin, affections of the liver, lungs, stomach or bowels—these ten-fold disorders, arising from solitary habits of youth—and secret practices more fatal to the victim than the songs of Sirens, or the darts of Ulysses, blighting their most radiant hopes or anticipations, rendering marriage impossible. Those that are suffering from the evil practices, which destroy their mental and physical system, containing

NERVOUS DEBILITY.

The symptoms of which are a dull, distressed mind, which unites them for performing their business and social duties, makes happy marriages impossible, distresses the action of the heart, causing attacks of heart depression, of vertigo, faintings, palpitations, cardiac, face, dreams, restless nights, dizziness, loss of appetite, unnatural discharges, pain in the back and hips, short breathing, melancholy, tire easily of company and have preference to be alone, feeling as tired in the morning as when retiring, seminal weakness, lost manhood, white rice deposit in the urine, nervousness, trembling, constant in thought, watery and weak eyes, dyspepsia, constipation, paleness, pain and weakness in the limbs, etc., should consult me immediately and be restored to perfect health.

YOUNG MEN

Who have become victims of solitary vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of young men of exact talent and brilliant intellect who might otherwise enter the listening senators with the thunders of their eloquence or waken to young the living lyre, may call with confidence.

MARRIAGE.

Married persons or young men contemplating marriage beware of physical weakness. Loss of procreative power, impotency or any other disqualification speedily relieved. He who places himself under the care of Dr. Fishblatt may religiously confide in his honor as a gentleman, and confidently rely upon his skill as a physician.

ORGANIC WEAKNESS

Immediately cured and full vigor restored. This distressing affection, which renders life a burden and marriage impossible, is the penalty paid by the victim for improper indulgence. Young people are apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now who that understands this subject will deny that procreation is lost so near by those falling into improper habits than by the prudent. Besides being deprived of the pleasures of healthy offspring, the most serious and destructive symptoms of both mind and body arise. The system becomes deranged, the physical and mental powers weaken. Lost procreative powers, nervous irritability, dyspepsia, palpitation of the heart, indigestion, constitutional debility, wasting of the frame, cough, consumption and death.

A CURE WARRANTED.
