Special Dispatches to The Bee.

FOREMAN DICKSON IN THE TOLLS

WASHINGTON, October 27.—A warrant was issued this evening for the arrest of William Dickson, on the affidavit of Juror McNally, for endeavoring to improperly influence the verdict of the Star route jury. Another warrant was issued for his arrest on the affidavit of Brewster Cameron, with the affidavits of Henry A. Bowen, and Judge Wilson W. Hoover, attached as exhibits, charging Dickson with conspiracy with George W. Driver and others to get money from the United States through Brewster Cameron, for the purpose of impeding justice.

DICKSON AT HOME.

Dickson at midnight stated he had not heard of the issuance of the warrant for his arrest until a late hour to-night. They have not yet been served and he could be found at home in the morning. It is understood the warrants were handed to the officers with instructions not to arrest until to-morrow. The most diligent search for F. C. Snow, charged with attempting to influence Juror Doniphan, failed to even furnish a clue to his whereabouts. It is thought Snow is in Washington endeavoring to arrange to furnish bail. Payne has not succeeded in procuring bondmen and is still in jail.

DICKSON AND THE JURY.

Special Counsel H. H. Wells, investigating the attempts to bribe jurors in the Star route trial, says, in his report to the attorney general, of Juror Dickson's sworn statement of August 23, that "It was to be used, not by his own protection against such assaults, (bribery by Bowen and Cameron), but as a means of persuading his fellow jurymen into a verdict of acquittal, and was accordingly so used, and the jury had returned and when they were considering their verdict, and in violation of the instructions of the court." The report continues: "The testimony of Judge Hoover confirming in vital particulars the account given by Cameron and Bowen of the interview with Dickson, seems to remove all reasonable doubt as to what this alleged bribery transaction really was, and appears to show the foreman of that jury was most active of all its members in the discussions and manipulations antecedent to the verdict. He was not bribed or attempted to be bribed by Bowen. It seems to show he entered into the discussions with that person in a manner plainly intended as an invitation to bribery; that he sought Cameron under the pretext but with the purpose of inviting discussion, suggestions or intimations which might afterwards be placed before the jury with the purpose of procuring a verdict of acquittal."

A ROBBERY OF DIAMONDS,

silk, lace, velvets, etc., to the extent of \$5,000 was committed at the house of Gen. Sturgis at the Soldiers' home, the remains of Joseph B. Brownard, French government, were found packed with the missing property; \$5,000 worth of diamonds have not been recovered.

COAST DEFENSES.

General H. G. Wright, chief of engineers, U. S. A., in his annual report gives a detailed account of the condition and needs of all fortifications. On the subject of seacoast defenses the report says: "The defense of the United States against maritime attack for many years must depend upon the finishing of the Barbette batteries designed long ago, but with such modifications as will adapt them to the reception of the twelve-inch rifled gun recently proposed, with its enlarged carriage, and at the same time give greater security to the magazines; also, that it will be necessary to make ready without delay to apply one system of tripod electrical operating rooms and deep masonry galleries extending therefrom to the low water line needed for the purpose. "Our unpreparedness" for war is shown, and it is stated that however powerful in numbers and value our army may be, with the aid of fortifications and their accessories they cannot prevent the destruction of our seaboard cities by ships of a moderate force, and that, while reliance can be had in no other mode of defense, a defense by fortifications and torpedoed is the most efficient, most enduring and least expensive."

THE PORTFOLIO DEPARTMENT DECIDES

that the privilege secured publishers of second-class matter, namely, to print upon the wrappers of the periodical the request, "If the same be not called for in a limited time, it may be delivered to any one of the class named," cannot be extended to senders of third-class matter.

TERRIBLE MINER'S EXPLOSION

Special Dispatch to The Bee.

WILKESBORO, Penn., October 27.—At Pipe Ridge shaft of the Delaware and Hudson coal company this afternoon, two miners, Govern Burt and Peter Lamb entered the abandoned portion to procure old iron. Upon their hats were naked lamps. The lights came in contact with gas and

there was a terrible explosion. In the new workings there were over one hundred men who all escaped. Burt and Lamb were blown into the dump hole and burned to death. The mine took fire but the flames were extinguished.

LEADING REFORMERS.

Windom on Party Issues

Special Dispatch to The Bee.

MINNEAPOLIS, October 27.—Senator Windom, in a speech at Spring Valley, outlined what he claimed to be the policy of the republican party of the country. The issue of tariff, he said, causes differences of opinion in both parties, but it does not create discord in the republican party. The luxuries of the nation should bear a larger share of the tariff and give benefit to the necessities. We must not tinker with the tariff by making it free trade. It is a question which should be carefully guarded. The democratic party charges republicans with failing to reduce the tariff, but do not show what they did not create discord in the republican party. They reduced the tariff on quinine, but it raised in price soon after and has always remained so. The republican party is charged with being in favor of monopoly; both parties are guilty of that. Congress has power to break down monopolies, not railroad directors, and people can and will demand it of congress. I am an anti-monopolist, and will vote for any bill that will prevent monopoly. As to the southern question, I am hopeful of a mere perfect union of the north and south. When the southern states get to work and stop whittling dry goods boxes and curbing Yankees, they will forget their antagonism, and that time is coming soon. Mr. Windom declared that the republican party had raised the credit of the nation to a standard above all other countries. Our national bank system is the best in the world. Referring to civil service reform, he says, "I am a civil service reformer to my boots, and will exert my utmost ability to promote it. We tax our officials for public purposes; from, we have, but will never do so again. My idea of civil service reform is to have each state entitled to a certain number of appointments, have a committee to examine the candidates, and let the most competent men be given positions of trust. The republican party is to inaugurate civil service reform. I believe it will do it, and give the United States the best civil service in the world."

THE BREWER'S CAMPAIGN

Special Dispatch to The Bee.

CHICAGO, October 27.—The Brewer's association of this city today sent circulars to nominating for congress and state legislatures, propounding questions as to their standing on the question of prohibition, with the understanding that silence will be construed as opposed to the tenets of the association, and would therefore be subject to its opposition at election.

CORNELL ON CORRUPTION

The Alarming Features of the Politics of To-day.

Special Dispatch to The Bee.

ALBANY, N. Y., October 27.—The following letter of Gov. Cornell was made public to-day: "Dear Sir:—Although personally respectful, will you permit me to offer my respectful and sincere congratulations on the many and honorable stand you have taken in declining to secure a seat in congress under conditions which require of you by local party manager? The tendency of recent years is to secure a political result by corrupting voters. The extravagant expenditures of money is one of the most alarming features of our time, and it is a wholesome demonstration when a high minded citizen rises to courage to disclose and condemn such practices. Your position, in the opinion of all good citizens, is far more honorable than a dozen terms in congress, as the result of bribery and corruption. With sincere respect and esteem, Yours very truly, ALBION B. CORNELL To Hon. L. W. Cronkette."

THE SCOTT'S LUNATICS.

Special Dispatch to The Bee.

CHICAGO, October 27.—In the Scottville insanity case to-day, Louis Saville, son of the alleged demented, testified he believed his mother insane because she persisted in the notion she could write books and lecture successfully, and because she ran a boarding house when she was losing money. Mrs. Saville Harper testified her mother had told her physician, Dr. Amerson, that he was the most honorable man that ever lived; that he died for love of her. While this witness was under cross examination, her husband, apparently under the influence of liquor, made a disturbance in court, saying he was wanted to protect his wife and was offered for two days for contempt. The closing evidence, and the attorney's made other arguments to the jury.

A Subject for Hemp

Special Dispatch to The Bee.

KANSAS CITY, October 27.—The Journal's Alibi (N. M.) special says: To-night in a trivial quarrel about a hat, Tom Lynch, a gambler, slugged C. S. Ferris over the head with a loaded cane, fracturing his skull. Ferris is now in a dying condition. Lynch was captured by the officers after a hot chase. He was formerly a member of the notorious gang of Conley Rustler, which had headquarters at Leadville. The leader of that gang was caught and hung, but Lynch escaped and came to New Mexico. If Ferris dies Lynch will be hanged before morning.

FRENCH CONSPIRATORS

Special Cable to The Associated Press.

THE ANARCHIST MOB.

LYONS, October 27.—The anarchist conspiracy has taken deeper root than was suspected, and this morning the situation is very critical. Citizens are panic stricken at the revelations being made yesterday of the local strength and far-reaching power of desperate men, who constitute the organization, and consider an outbreak almost inevitable. A mob formed in the streets and in addition to threats against the republican newspaper, now direct their venom against banks and public buildings, which are carefully guarded, but by an inadequate force, which would not be able to protect the property, if the rioters made anything like a determined attempt to overpower them. The condition of affairs here add new and unforeseen difficulties to Grovy's position. It is not unlikely a ministerial crisis will be precipitated at the resignation of the president himself will be considered advisable as soon as the chambers assemble. This feature of the case is being much discussed here, and advice from Paris indicates the same view is held in many quarters there.

A CHANCE FOR GAMBETTA.

BERLIN, October 27.—In German papers a lively discussion is going on among politicians of the various factions regarding the revolutionary movement which has so suddenly and unexpectedly developed in France. They concern in expressing the opinion that Gambetta will profit by the outbreak in Lyons and will seize the opportunity to step to the front and declare himself to be a savior of society and apostle of peace to his country.

THE SIZE OF THE SOCIETY.

Special Dispatch to The Bee.

PARIS, October 27.—The semi-official Communiqué says the recent deplorable events at Montmartre, Les Minnes, and at Lyons, were after all only isolated occurrences, and proceeded from the instigation of an organized association which has its head and for its principal leaders men who reside outside this nation. This society has unfortunately extended its ramifications into and throughout France during the last four years. Notwithstanding the foothold it has gained, however, there is no ground for any alarm as to its effect on society, since the government is watching its proceedings and preparing to protect the public against any outbreak that may be contemplated.

THE LATEST FROM LYONS.

LYONS, October 27.—The anarchist prisoners are again under examination, but with the greatest obstinacy persist in their refusal to answer a single question put to them. The streets continue to be deserted after dark. Some of the theaters are

closed and cavalry are patrolling the streets. The police discovered a dynamite manufactory in the suburbs of the city.

MASTER CABINET MAKERS.

PARIS, October 26.—A meeting of the syndicate of chamber master cabinet makers has decided to close their workshops Monday unless workmen consent to raise the prohibition upon interdicted workshops and re-arrange a system of direct agreement between workmen and employes without the intervention of an executive commission of workmen. If the workmen refuse the terms, 20,000 will be promptly locked out, and the gravity of the crisis will thereby be greatly increased.

ADVANCE OF WAGES.

MANCHESTER, October 27.—A conference of miners recommended the acceptance of ten per cent advance where offered, in order to avoid a strike. Thirteen thousand miners at Wigan accepted ten per cent.

PROTECTING CABLES.

PARIS, October 27.—The cable conferences will submit to all governments represented, the draft of the international treaty for the protection of cables.

JOKES WORK.

PARIS, October 27.—Friends of the government now admit that the immense number of threatening letters which passed through the postoffice at Montecarlo, Les-Mines, Chalons and Lyons, are the work of practical jokers and enemies of the republic who wish to raise a scare.

GERMANY.

Special Dispatch to The Bee.

BISMARCK'S FRIENDLY POLICY.

BERLIN, October 27.—A leading editorial in the Norddeutsche Allgemeine Zeitung declares, in so many words, that the German government condemns the unfriendly attitude of the German press, and more particularly the Cologne Gazette, toward British government. The result of such hostility will be inevitably to frustrate the government's friendly policy and the attitude towards England throughout the troubles in Egypt.

THE ELECTIONS.

BERLIN, October 27.—The latest returns from 435 elections in Russia, held yesterday, show the following result: Conservatives returned 133, free conservatives 45, center party 42, radicals 93, national liberals 63, republicans 38, Poles 17, Danes 2, Gypsies 3; other liberals 5, democrats 1, doubtful 6.

COMMENTS ON THE ELECTION.

BERLIN, October 27.—The liberal press, commenting on the result of the elections, admit that the victory of the conservatives far exceeds the worst fears heretofore entertained. The conservative press, with the exception of the ultra organs, speak in a very reserved manner of the triumph of their party. The feeling throughout the country is manifested by a considerable degree of uneasiness in regard to the future.

TREATY WITH SERBIA.

BERLIN, October 27.—Prince Bismarck has given his approval to the draft of a treaty of commerce to be entered into between Serbia and Germany.

A SCHEME OF GREAT EXTENT

and involving a large outlay of money has been prepared, the purpose of which is to strengthen the defenses of the Baltic against any attack which could be made by Russia.

THE SILVER WEDDING

of Crown Prince Frederick William and his wife, Princess Victoria of England, will be celebrated the 20th of next January with universal bright festivities.

FULL RETURNS

of the elections have been received, and indicate the return of 136 conservatives, 47 free conservatives, 100 of

the center party, 18 Poles, 67 national liberals, 22 accessionists, 38 progressists. The center and conservatives united number 236, and as an absolute majority in the house is 217, they consequently have a good working majority, and will be enabled to pass all measures brought before the house. The United liberal party number 130, and the middle party 114. The emperor is reported to have signified his entire satisfaction with the results of the election. The government believes that it has a majority either by coalition with the conservatives or with the ultramontanes or moderate liberals.

EVENTS IN ENGLAND.

Special Dispatches to The Bee.

TREATMENT OF PRISONERS.

LONDON, October 27.—In the commons to-day Duke stated that Sir Charles Wilson informed the house that he had visited the political prisoners at Cairo and had found that while the prisons were too crowded there were no complaints of cruelty, and that on the whole there was no ground for the stories that had been set afloat about abuses to which the prisoners had been subjected in Cairo.
