## No Whiskey!

BROWN'S IRON BITTERS is one of the very few tonic medicines that are not composed mostly of alcohol or whiskey, thus becoming a fruitful source of intemperance by promoting a desire for rum.

BROWN'S IRON BITTERS is guaranteed to be a nonintoxicating stimulant, and it will, in nearly every case, take the place of all liquor, and at the same time absolutely kill the desire for whiskey and other intoxicating beverages.

Rev. G. W. RICE, editor of the American Christian Review, says of Brown's Iron Bitters:

> Cin., O., Nov. 16, 1881. Gents :- The foolish wasting of vital force in business, pleasure, and vicious indul-gence of our people, makes your preparation a necessity; and if applied, will save hundreds who resort to saloons for temporary recuperation.

BROWN'S IRON BITTERS has been thoroughly tested for dyspepsia, indigestion, biliousness, weakness, debility, overwork, rheumatism, neuralgia, consumption, liver complaints, kidney troubles, &c., and it never fails to render speedy and permanent relief.

In your issue of Saturdsy evening I noticed a communication from Hon. Of the necessity or expedien-cy of such a defense, I know nothing, but as the article in question contains quite a number of manifest misstatements that should not be allowed to g to the public unrefuted, and as these misstatements are ualled "facts" by Mr. Barker, I beg leave to also make a few further statements which I also shall call "facts" because they are facts and are warranted by the record and such further evidence as may be neces.

are facts and are warranted by the record and such further evidence as may be neces-sary to their complete substantiation. Mr. Barker's first inaccuracy is in the state-ment that there were no bids presented for "granite" under the second advertisement. In order to refresh his memory I will merely refer him to the following, taken verbatim from the bids as presented. First in order is the bid of Turner & Drexel, viz: While the business in the police de GRANITE BLOCKS. The words "Sionx Falls stone" being used above to designate the quarry or point from whence the granite came, such as "Hollowell granite," "Gioux Falls granite," "Montillo granite," "Gioux Falls granite," atc., etc. Again we have the bid of Mack & Co., wherein the name of the granite is not mentioned. All of this coming under the head of granite and was read m the presence of Mr. Barker, and yet his memory signally fails him when he undertakes to make a statement of *facts* intended for the eye of the public. But let us go a little further and to show conclu-ively just what Mr. Barker understood the Sioux Falls stone to be, *i.l.etme* quote a section from our "modi-fied" specifications, which section Mr. Bar-ker aided and assisted in framing and voted for its insertion, as the record will show. This section reads as follows: Fred Hadens, a youth under the age of 16, was arrested for stealing a red lantern from the U. P. He was held for further action. Two colored boys, S. Bailey, and Frank Smith were arrested for carrying off a couple of pairs of alippera

ing off a couple of pairs of alippers from James Storr's shoe store. As both were under age they are held to await the action of the district court. A young man from Blair, went to M. Toft's store on Saturday to buy some cigars. When he left a pipe was noticed to be missing. The clerk f 1-lowed him and took the pipe from him. He was fined \$20 and costs, which he paid. On Saturday last an old lady, with was briefly this, "That Tenh street could be paved with no stone otherwise than granite usder the ordinance and in compli-ance with the wishes of the property owners along said street." This was the extent of his opinion, but he further ex-pressed the hope that no paving would be done on Tenth street this winter, became he wished to procure some necessary legi-lation in re. ard to the manner of making the levy. Mr. Barker further says, "We are very much in favor of rejecting the present one bid." This was no doubt an-other slip of his treacherous memory as the record shows that there were and are two bids for granite block now before this board, and I have quoted them above. Mr. Barker's entire argument drifts na-tural y and easily towards Colorad • sand stone, and he blandly suggests that the price might be limited to \$100, which, singularly enough, is just two cents higher than "Boss S outs" bid for laying this stone. It would seem to be Mr. Barker's idea of the prosperity of the occasion to limit the bidders also, and confine them to those who could bd on Colorado sand stone. N.w how many could bid on that stone? I hasten to answer just one. Mr. Harker has considerable to say about being "left to the mercy" of any one person or any one stone, but, Mr. Barker, may it not be that you (unintentionally of course) are going headlong in that di-rection. In fact, may we not be git there alreads? [Mr. Barker uses some very large rigures in his article in order to make certain contr sta more glaring; for instance, in dire to figure out a saving of \$10,000 he is obliged to say that there are 20,000 ya ds to be paved on Tenth street, but he *kaons* that the out-side limit is 15,000 yards, and that bids were invited for that amount, then why exagerate? and for what purpose? I have in this article refuted but a *free* of the many ministatements contained in Mr. Barker's, as space forting ma to more than be paved with no stone otherwise than granite under the ordinance and in compli hair bleached to snowy whiteness by the eighty odd winters which have passed over her head, appeared at the county clerk's office and asked for aid California to nominate an anti-railroad to reach Sau Francisco.
