# No Whiskey!

Brown's Iron BITTERS is one of the very few tonic medicines that are not composed mostly of alcohol or whiskey, thus becoming a fruitful source of intemperance by promoting a desire for rum.

Brown's Iron BITTERS is guaranteed to be a nonintoxicating stimulant, and it will, in nearly every case, take the place of all liquor, and at the same time absolutely kill the desire for whiskey and other intoxicating beverages.

Rev. G. W. RICE, editor of the American Christian Review, says of Brown's Iron Bitters:

Cin., O., Nov. 16, 1881. Gents:—The foolish wast-ing of vital force in business, pleasure, and vicious indulgence of our people, makes your preparation a necessity; and if applied, will save hundreds who resort to saloons for temporary recuperation.

Brown's Iron BITTERS has been thoroughly tested for dyspepsia, indigestion, biliousness, weakness, debility, overwork, rheumatism, neuralgia, consumption, liver complaints, kidney troubles, &c., and it never fails to render speedy and permanent relief.

A WOMAN'S WRATH.

An Assault in Which Vitriol is the Weapon.

A complaint was yesterday filed in Judge Beneke's court, in which the proceeding witness, a married woman, charged another woman with throwing vitriol on her. The names are suppressed by request, but the facts as they are given are of a nature that deserve to be published as well as the perpetrator punished.

The complainant is the wife of one of the heaviost firms in the city, and it is stated that her busband lest her some time ago for the accused. Last night, as the former was walking Thirteenth street, between Capital avenue and Davenport, she met her successful rival, and stopping said, "Let me alone and I won't hurt you." Then the other raised her hand and dehed some sort of hquid all over the face and shoulders of the wife and then went off and left her The married woman felt a burning sensation from the stuff thrown over her and went to Dr. Coffman who pronounced it to be vitriol. A veil worn had in some degree checked the deadly stuff, and that article as well as the glove and dress of the victim was saturated. Proper antidotes were applied and yesterday the only effect visible on the woman's face was a red stain over one side, which may or may not be permanent. The vial and glove were sent to Schroter and Beck to have the clerks, C. D. Sutphen, Ashton fluid absorbed by them, analyzed, and the result of the charge made in court will somewhat depend on the analyais.
