A Lonesome Journey to the Graveyard of Political Frauds.

His Hope of Election Entirely Dependent on Third Ward Tricks.

A Keg of McQuokin's Sour Mash Needed to Facilitate the Count.

Gov. Nance's Pet Candidate Defeated in Butler County.

Fragments of Tuesday's Cyclone in Other States.

Munger is Safe.

Fremont, November 10.—Best advices assure us of Munger's election by 400 to 500 majority. It will take the official count to certainly determine.

The Third District. Fremont, November 10.—Returns are in from all but two counties. On their face they seem to show a small plurality for Valentine. There is no doubt that the most high handed frauds have been perpetrated in the frontier counties, Knox and Holt especially. There will be a strong fight made to go behind the returns.

Merrick County. Central City, Neb., November 10.—Turner 401, Valentine 383, Munger 195. Sturdevant's majority is 287. The above is official.

Franklin County. Bloomington, November 9.—The official vote for Franklin county is: Governor, Dawes 459, Morton 258, Ingerson 107; lieutenant governor, Agee 459, Warner 255, Reynolds 109; secretary of state, Roggen 458; Bowley 244, Kirtly 128; treasurer, Clark 447, Sturdevant 402; auditor, Wallich 447, Leach 264, Beatty 108; attorney general, Powers 462, Crawford 251; Barad 108; superintendent, Jones 465, Speck 251, Point 101; land commissioner, Kendall 453, Grebe 253, Mabley 109; regent, Gere 467, Burks 321, Bell 21; congress, Laird 338, Harmon 304, Moore 165; district attorney, Webster S. Morlan 419, William S. Morlan 69, Abbott 331; senator, Twenty-third district, Gaster, rep., 399; Case, dem., 310; Willson, anti-monopolist, 110; representative, Fortsch district, De Clercq, rep., 293; Ashby, independent dem. endorsed by democrats and anti-monopolists, 517; representative F. T. first district, (Franklin and Webster) Chapin, rep., 394; Lohf, dem. and anti-monopolist, 416; county commissioner, Thomas Moore, rep., 451; W. E. Hadley, anti-monopolist, 344; for amendment 320, against 431.

Butler County. Davin City, Neb., November 10.—Jensen and Roberts, republican nominees for the lower house, are elected by a small majority. The strength of the anti-monopoly party, even in this stronghold of bossism, has been demonstrated beyond question in the election for senator of S. S. Reynolds over Dr. Mills, of Osceola. Reynolds received about 1,100 majority in the county, and nearly 900 majority in the district. Just before election day Messrs. Havens and Newman, U. P. officials, sent telegrams ahead to find out the whereabouts of Reynolds, and learning he was here came down to confer with him, but S. S. was too wary to be caught by any such chaff, and prudently kept out of the trap. This fact greatly strengthened his cause among the people, while it taught them one of the tricks of corporation management.

It remains now to be seen whether Jake Roberts will redeem his record at the evening session of the legislature. He has promised to stand consistent with the position he took in that affidavit against Carns and the railroads. He is now placed where he can regain all of his lost laurels, and by a bold and manly stand assure for himself a political future bright with success.

Jim Laird made a poor run in this county. The time is past when whisky and railroad money are good anti-septics in politics. The woman suffrage amendment in this county was snuffed under three to one. "Reform."

Indiana Returns. Indianapolis, November 10.—Additional returns from congressional districts confirm serious reports. Leaving the delegation 9 democrats and 4 republicans. The majority on the state ticket will be from 10,000 to 12,000.

A Republican Candidate. Miles City, Montana, November 10.—A large republican vote was given Batin, republican, for delegate and he is probably elected by a small majority.

Free Canals in New York. Albany, November 10.—The free canal amendment to the constitution was adopted by over 200,000.

A Candidate for Speaker. Louisville, November 10.—In an interview to-day with the Western Associated Press correspondent, Hon. J. M. G. Carlin stated he would be a candidate for speaker of the Forty-eighth congress.

The Result in Virginia. Richmond, November 10.—Wise, coalition candidate for congressman at large is elected, the democrats concede, by from 2,000 to 4,000 majority.

The coalitionists still claim for the First congressional district is in doubt. If the democrats secure it the congressional delegation will stand, democrats 5, coalition 5.

Richmond, Va., November 10.—Returns from the last counties to be heard from in the First congressional district, show gains for Mayo, coalitionist, which insures his election by about 300.

A Cheering Item. Yankton, November 10.—Returns received indicate that John B. Raymond, rep., for congress, has no less than a 600 majority in Dakota. Nineteen counties out of 51 give him 9,400 majority, and all the counties not reported are strictly republican. It is probable that the opposition candidate has not carried a county. The legislature will stand 29 republicans to 7 democrats.

Fistula and Politics. Dallas, Texas, November 10.—At Hearings, last night, O. M. Burgess, a defeated candidate for county judge, shot and instantly killed E. M. Donley, a young lawyer, who had spoken ill of him during the campaign.

A Kentucky District. Lexington, Ky., November 10.—Reports from the Tenth district, complete except one county, give White, republican, 96% majority. The missing county will increase his majority to 1,000.

The Result in Illinois. Chicago, November 10.—The result of the election in this state on state officers is still in doubt. Official returns from 85 of the 102 counties in the state give Smith, rep., for state treasurer, 7,807 majority over Orendorf, dem., and on the basis of former years, the remaining 17 counties will increase rather than diminish this majority. But results thus far have been so unusual that they cannot be counted on with any degree of certainty. Stratton, rep., for superintendent of public instruction, runs behind his ticket and the result as between him and Koob, dem., is entirely provisional.

Hale Squeezes Through. Concord, N. H., November 10.—Three hundred and thirty-three votes give Hale 38,063, Edgely 36,814; scattering, 915. Hale's plurality is 1,249; Hale's majority, 324. The three remaining towns in 1890 gave 60 democratic majority.

A Hint to Canada. London, November 11.—The Economist, commenting on the result of the elections in the United States, considers the return of the democrats to power cannot fail to be followed by large results, one of which may be to induce Canadians to enter the union; that many circumstances would tend, if Canada consented to enter the union, to make Canada democratic rather than republican.

Doubtful Districts. Raleigh, November 10.—Unofficial returns from 84 counties indicate the election of Bennett, democrat, congressman at large, by a small majority. The official count may be necessary to decide. The result in the Seventh district, between York, coalitionist, and Robbins, democrat, is in doubt.

Colorado's Senator. Lincoln, Neb., November 10.—A private telegram from Denver, received here to-day, states the Colorado legislature is republican, and that Jerome B. Chaffee, Judge Bowen, Lieutenant Governor Tabor, General Howell and Governor Pitkin will all be candidates for the United States senate, to succeed Chislett, but Governor Pitkin's chances for election are to-day far beyond any of those named.

Pattison's Plurality. Philadelphia, November 10.—Returns from every county in the state of which fifty-six are official, give Pattison, union states intem, 38,859 plurality over Beaver. Pattison has a plurality in forty-two counties, and Beaver in nineteen. It is not believed the estimate vote in the eleven counties not officially reported will be materially changed.

Folger's Fate. New York, November 10.—The Tribune's Washington special says: The opinion seems to be entertained by about half of the men on news in Washington that Judge Folger will tender his resignation as secretary of the treasury as soon as he has completed his annual reports. In the majority of cases this opinion is doubtless based upon nothing more than the notion that the man whose candidacy has been so overwhelmingly rejected, has lost his power for good in the administration of which he forms a part, and must henceforth be a dead weight upon it. There are men of high position and influence who share this opinion, and assert that it is based upon the evidence of an experienced politician, holding an official position of great responsibility. A friend of the administration and himself a stalwart republican, said to the Tribune correspondent to-day he had seen reason since last Tuesday to believe Folger's resignation was expected by the president, and that if it was not tendered the freezing out process was likely to be resorted to. The gentleman said numerous important changes in the treasury department were under consideration and will probably be made very speedily. If Judge Folger remained at the head of the department he might find his recommendations and appointments ignored, and that removals and appointments might be made without his previous knowledge or approval. The Herald's Washington special says Secretary Folger finds consolation in the large majority received by Cleveland and says that no matter how determined the republicans had

been he would have been defeated. His only solicitude now is as to who will be the victor in the party in 1894. Unless somebody can be found popular enough to quell the internecine war in the party he does not see what hope there is at the next election for perpetuation of the republican party.

Congressman J. G. Carlisle, of Kentucky, telegraphed here to-day to a personal friend that he would be a candidate for speaker of the Forty-eighth congress, representing the democratic party and the country for reduction of internal and tariff revenues.

German Opinion. Berlin, November 10.—Many journals in this city attribute the democratic victory in the late elections in America to the growing influence of the foreign element of the population.

Blaine's Declaration. Boston, November 10.—Blaine said to a personal friend in this city to-day: "I wish it distinctly understood that I am not a candidate for the presidency or any other political office, and nothing can induce me to become such."

The Wants of Ship Owners. New York, November 10.—A meeting of the ship owners of New York, New England and Philadelphia was held here to-day. The meeting decided to make the following recommendations to congress: Abolition of the three months' extra wages to seamen discharged with their own consent in foreign ports. All stores and rigging for vessels in foreign trade and to and from the Pacific to be imported free of duty. Abolition of all consular fees against vessels. Individual liability of ship owners to be limited to their proportion of ownership. Approval of the Claffin bill now before congress, providing that compensation for the passage of sick and destitute seamen be changed from the present rate of \$10 to 50 cents per day. Captains, on passing an examination, to be allowed to pilot their own ships.

Violent Deaths. Knoxville, Tenn., November 10.—The Hodge brothers, negroes, were hung here to-day for the murder of James McFarland. The gallows was made of a beam and two posts. The condemned men were put in a wagon and driven under it, the ropes were attached to their necks and the wagon driven down. The men were pulled slowly off the wagon by the ropes and strangled gradually, their struggles being violent. The had chosen this primitive style of scaffold themselves. A large crowd was present, chiefly negroes.

Padding Their Own Canoes. Cincinnati, November 10.—Dr. S. D. Kendall and wife, of St. Johnsbury, Vermont, and Dr. C. A. Kneel, of Schuylerville, N. Y., reached here to-day by canoe, having left Lake George August 19th, going thence by water to Buffalo, thence to the Allegheny and down the Ohio. Mrs. Kendall will return home from here, but the others propose to continue their voyage to the gulf and thence along the coast to New York, and up the Hudson to the starting point, which they hope to reach next August.

Burning of Bierstadt's Home. New York, November 10.—The Bierstadt place at Irvington, on the Hudson river, owned by Albert Bierstadt, the artist, was destroyed by fire this morning. The house cost \$100,000. Five large pictures of Yosemite valley, valued at \$20,000, and many valuable trophies and curiosities which Bierstadt had collected in California, were destroyed. Their money value was about \$200,000.

Commissioner Raum. Columbus, O., November 10.—A Zanville letter says General Green B. Raum, Union States intem, 38,859 plurality over Beaver. Raum is dying of colic at that place.

The Cincinnati Gazette's Zanville special says Commissioner Raum has improved so as to resume his journey this evening.

Salvation and Several Husbands. New York, November 10.—Amodia Gilchrist, a member of the Salvation Army, confessed in court to-day to having three husbands. She expressed repentance, deserted the "Army" and returned to Philadelphia with the man who first won her affections.

The Golden Stair. Whitehall, N. Y., November 10.—Four tons of powder exploded at the Keenan lime works, Smith's basin, to-day. Two men, Dennis Golden and Joe Cameron, who had charge of the powder, were blown to atoms. Some parts of their bodies were found half a mile distant. It is supposed the men were smoking.

Missionary Work. New York, November 10.—The meeting of the Methodist Episcopalians continued to-day. Among the appropriations were the following: Oregon, \$9,000 for English special missions; California, \$5,500; Colorado, \$5,400, Columbia river, \$5,000.

Jugged in Jail. Alexis, Ill., November 10.—All those engaged in the raid on Colonel Holloway's stock yesterday were lodged in jail at Monmouth last night.

"Wise men say nothing in dangerous times." Wise men use nothing in dangerous diseases but the best and most approved remedies. Thus Kidney-Wort is employed universally in cases of diseased liver, kidney and bowels. It will cost you but a trifle to try it, and the result will be most delightful.

CAPITAL NOTES.

THE BRIBERS.

WASHINGTON, November 10.—F. H. Fall, charged with attempting to influence the vote of one of the jurors in the star route trial, and who was placed under \$4,000 bail to appear before the grand jury, completed the amount of bail this afternoon. Arthur Paine, another of the conspirators to corrupt the star route jury, who has been in jail awaiting the action of the grand jury, was also admitted to bail.

PERMANENT ARMY POSTS. Gen. Sherman has submitted to the secretary of war a special report upon the subject of military posts and forts, in which he says: "The time has now come for a radical change in the whole system of piece-meal work in quartering troops of the United States. For one hundred years we have been building a new line, building a post here, another there, to be abandoned next year for another line, and so on, and now we are across and have railroads everywhere, so that the whole problem is changed, and I advise the honorable secretary of war to go to congress with a plan that will approximate permanency instead as heretofore, for meeting specific temporary wants by a special appropriation, often in the interest of parties, for the enlargement and improvement of military posts." Gen. Sherman recommends the secretary of war to ask congress for \$1,000,000 per year for five years, to be expended by him at the discretion of the officers of the quartermaster's department. By that process he thinks the army will have abundance of good quarters for the next fifty years.

ABOUT HOWGATE. District Attorney Corkhill says he does not believe the report that Captain Howgate is concealed in New Orleans, nor does he believe he will surrender himself, his case is called for trial.

ARRIVED HERE THIS MORNING. An evening paper says he called upon Secretary Huntington, and in reply to an inquiry of the secretary whether he desired the government to take any steps in the matter of obtaining reparation from the English government for the treatment he had received while in Ireland, George said he did not; that as far as he was concerned he was perfectly satisfied with the apology England had made; that he would make no claim for damages.

MILLER'S BOUNCE. District Commissioner West has informed Attorney General Brewster that Detective Miller, charged with betraying the government's interests in the star route trial, is specially invited to the control of Commissioner Morgan, who is now absent from the city, but that upon his return the matter of Miller's dismissal, called for by Mr. Brewster, will be promptly referred to him.

THE GARFIELD BOARD OF AUDIT met this afternoon, all the members present. Several preliminary measures were considered, and the cases of the White House claimants, and those of the surgeons, were briefly discussed, but no action reached. It was decided to employ a clerk to docket the various claims, and to proceed with the business immediately. The board will meet again to-morrow.

THREE CRANKS. Which Being Turned Grind Out Lots of Discard. The case of Frank Watkins and Lucy Ryan, the former charged with horse-stealing and the latter with adultery was taken up by Judge Benoka at 4 p. m. yesterday, Watkins acting as the attorney and doing so in a manner indicative of not too profound knowledge of the law.

The defendants were neither of them ready for trial, but as Mr. and Mrs. Wilcox, who keep the hotel at which they stopped in Papillion, were anxious to go home and not have to return again, their testimony was taken. It was in substance that the parties came to the Wilcox house and

registered as man and wife, occupying the same room, which contained but one bed, for two days. He saved Watkins if that was not an Omaha ivory pig he had with him, and Watkins said no, that it was his own. He also said that he was a lawyer, and was looking at the town with some idea of settling there.

Mrs. Ryan's husband was present during the examination, and got very much excited once or twice. He asserted his intention of getting a divorce and pushing the charge of adultery against his wife. He will probably drop that, as the offense is only punishable by six months' imprisonment or a fine. The case was continued till Tuesday next.

The officers think the whole trio belongs to the great army of cranks. Watkins is held under \$1,000 bail.

The Work People of Vienna Threaten the Royal Peace.

GENERAL FOREIGN NEWS.

DOINGS IN THE COMMONS. LONDON, November 10.—Duke contradicted the report that the Russians lately advanced to Sarakhs.

Gladstone, replying to some questions, promised the house an important statement Tuesday in relation to the Egyptian question, and also hoped to be able to state the strength of the army of occupation. He said the government had no idea of employing the queen's troops to aid in suppressing the rising in Sudan.

Duke said the government had received no documents in reference to the decision of the Spanish council, refusing to give up the Cuban refugees.

DEBATE ON CLOTURE was resumed. Joseph Cowen, member of Newcastle-on-Tyne, denounced the resolution as a revolution of parliamentary proceedings, which justified Irish obstruction to the passage of the bill of extension. Other speakers followed, and at 1 o'clock the house divided on Sir Stafford Northcote's motion that the government's cloture rule be rejected. The result of the vote was 260 in favor of the motion to 304 against; ministerial majority, 44. The Irish members did not vote.

This action is attributed to the influence of the home rule remarks in Gladstone's speech Wednesday. Great cheers in the house followed the announcement of the vote. The debate on cloture rules is now closed. The discussion of minor rules of procedure will occupy about two weeks, and the debate on the Egyptian question four nights. Parliament will be prorogued the first week in December.

SCURRING WOLESELEY. DUBLIN, November 10.—Some very lively scenes were enacted to-day at the second meeting of the corporation of Dublin on the motion to confer the freedom of the city on General Sir Garnet Wolesey. After a heated discussion F. D. Sullivan, who is a member of parliament as well as of the corporation, offered an amendment against presenting General Wolesey with the freedom of the city. The amendment was carried 27 to 21. The meeting then adjourned.

DISURBANCES IN VIENNA. VIENNA, November 10.—It is rumored that the working people intend storming the Museum of Arms and Town hall. As a precautionary measure, detachments of troops occupy both buildings. Arrests of working people are being made. Baron Conrad, governor of police, was shot while on parade to-day. The bullet pierced his clothes.

THE CUBAN REFUGEES. MADRID, November 10.—It is believed in diplomatic circles that the Cuban refugees question may be considered settled, as it is expected the British ministry, on receiving the result of the Gibraltar inquiry, will desist from making any offer of communication to Spain on the subject. Spain considers herself fully justified in not surrendering the refugees.

DOWN ON DUFFERIN. PARIS, November 10.—French journals are very much incensed at the Egyptian government in suppressing European control, and attribute it to Dufferin's influence.

MORE TROUBLE. LYONS, November 10.—Troops are confined to their barracks, because of fears that another outbreak may occur.

A FOREIGN REBUKE. LONDON, November 10.—The Standard this morning regards American elections as a rebuke to the republicans, almost amounting to disaster, and asks whether republicans will retain enough energy and cohesion to purge out the vicious element that has so long leavened their mass.
