Breese, of Council Bluffs, will preach the dedication sermon. Rev. E. is well known throughout the state as one of the most eloquent pulpits in Iowa, and the congregation is expected to be gratified upon securing his presence on that occasion.—State Line Leader.

—One of the most recherche social events of the season was the reception given last evening by Mrs. F. S. Pusey and Mrs. D. W. Bushnell at the residence of Gen. G. M. Dodge. It was a brilliant gathering, and the elaborate arrangements were carried out most successfully, so that all seemed to enjoy the occasion most heartily.

—Yesterday forenoon, Constable Fox created a little flurry by standing on the corner of Broadway and Pearl streets and shouting at the top of his voice. Some thought it was fire, but there was something heard about revolvers and guns, and as Fox started briskly down Pearl street, it was judged by several that a shooting scrape or a riot was on hand. The mystery was solved, and the sensation stopped on reaching Bowman, Rohrer & Co's warehouse, where Fox opened an auction sale of some guns and revolvers attached on some claim. Simply that and nothing more.

—You Can Depend on It.

—For severe toothache and neuralgia of the head I used Thomas' Electric Oil. This is certainly the best thing I ever knew for relief of pain of any kind. The house is never without it." Mrs. A. M. Frank, 177 West Tupper street, Buffalo, N. Y.

—Macomber's Death.

A letter was received yesterday by A. Lehigh, of Mosier's clothing store, written by a friend of his who was an eye witness to the suicide of Wm. H. Macomber at Miller, Neb. Macomber was prominently known as Carroll, and the incidents of the su-

stational ending of his career has caused quite a stir among his many acquaintances. It appears that he first killed a man named Wolfe, and on being arrested for the murder put a bullet through his own head.

THE RAILROAD CUTS.

No Change in the Situation Here as Regards Passenger Rates.

There was a rumor here yesterday that the Chicago, Milwaukee & St. Paul Railway company, which has so far been the only one to cut on fares, would resume the old rates to Minneapolis and St. Paul before sundown.

Up to last evening the office here had received no such orders, however, and hence the situation remains unchanged, that company continuing to sell tickets from here to St. Paul for \$1, the route being quite a long one, it being by way of Sabula, Janesville, Madison, Wis., and so covering a good many miles for a hundred cents.

None of the other roads leading from here have shaved a cent so far, and it is thought probable that they will not.

The Chicago Times says in regard to the resuming of the rates from Sioux City to Chicago:

The western railroad war continues unabated, and but few new features have been developed yesterday. The cut in rates has not yet extended to business west bound from Chicago.

It was learned yesterday that the Milwaukee & St. Paul had resumed rates from Sioux City to Chicago, which on the day before was \$1.25.

It is stated that the Milwaukee & St. Paul, in issuing its general order to cut rates Monday morning, unintentionally included passenger rates from Sioux City to Chicago. This elicited a vigorous protest on the part of the Illinois Central, and yesterday the Milwaukee & St. Paul ordered the \$15.00 rate resumed.

Messrs. Huggitt and Keop, of the Northwestern, have gone to New York, and it was reported that Alexander Mitchell, of the Milwaukee and St. Paul, had also gone east, where it is understood that the financial backers of these two roads and the gentlemen named will consider the situation and determine whether the war shall be carried on or whether negotiations in the interest of peace shall be instituted.

Mr. Cable, of the Rock Island, states that, while stock jobbers may take advantage of the present railroad complications to depress stocks, the war, so far as the Rock Island is concerned, means an irrevocable determination to secure an equitable division of the northwestern business, according to the Rock Island's view, which he alleged to be one-third of the Minneapolis and 20 per cent of St. Paul business.

"Grunt It Out."

The above is an old saw as savage as it is unseemly. You can't "grunt out" dyspepsia, nor liver complaint, nor nervousness if they once get a good hold. They don't remove themselves in that way. The taking a few doses of Burdock Blood-Bitters is better than "grunting it out." What we can cure let's not endure.

JIM IN THE JUG.

Snodderly at Last Called Upon to Serve His Sentence.

THE BEE has several times called attention to the fact that Jim Snodderly, who was fined \$50 at last spring's term of the district court, for assaulting a boy, had neither paid his fine nor served his time. Jim has, for some mysterious reason, been allowed to roam at large, and even when looked up on some mere petty offense has been let loose again, with no reference to his former serious offense. The other day a mittimus was issued, however, and Snodderly was taken in charge of by Sheriff Guitter and locked up to serve out the \$50 fine. The mittimus has been a long time coming, but better late than never. The assault on the boy was an outrageous one and Snodderly got off easily with a \$50 fine, and not to settle this was bringing contempt to the law and its execution.

Fraud.

Tens of thousands of dollars are squandered yearly on traveling quacks, who go from town to town professing to cure all the ills that our poor humanity is heir to. Why will the public not learn common sense, and if they are suffering from dyspepsia or liver complaint, invest a dollar in Serravallo's Compound, sold by all druggists and taken as directed by the faculty. See testimonials. Price 50 cents, trial bottle 10 cents.

A QUERY.

To the Editor of The Bee:

On the new tax books at the treasurer's office, it appears there is levied \$18 640 for contingent fund for city school, in addition to what they have on hand. This money is supposed to be for coal, chalk, window glass, putty, etc., and the board were in the habit heretofore to take part of it to pay for insurance on their buildings. They have just discovered they can't do this, and now the question arises, What do they want of all that money? It amounts to over \$18,640 a year, for each of the twelve buildings, or \$1,550 a month for fuel, etc., on all.

Given Away.

We cannot help noticing the liberal offer made to all invalids and sufferers by Dr. King's New Discovery for consumption. You are requested to call at C. F. Goodman's Drug Store, and get a Trial Bottle free of cost, if you are suffering with consumption, Severe Coughs, Colds, Asthma, Bronchitis, Hay Fever, Loss of Voice, Hoarseness, or any affection of the Throat or Lungs. It will positively cure you.

Loss to the Party.

The course of The Nonpareil during the recent campaign has greatly injured the influence of that paper. This is not only a loss to its proprietors, but is a serious loss to the republican party of this district. That paper has in past years wielded a most inconceivable influence in this part of the state, but the hold it has had upon the public mind is broken, and when the party in the future shall need assistance The Nonpareil will be found powerless for good. This gives the democratic party a great advantage which it has never before enjoyed in this district, and seems to us from a republican standpoint to

be the most serious result of the campaign. It will require years for that paper to regain the prestige and power it has so ruthlessly thrown away, but it is to be hoped for the interest of the party, if for no other reason, that its future course will be such that it may regain the ground it has lost. We fail to understand how the managers of that paper could have been so unwisely as to attempt to secure the election of their candidate by sacrificing themselves on the altar of public opinion.

Horsford's Acid Phosphate.

FOR NERVOUSNESS.

Says H. N. D. PARKER, Chicago, Ill.: "I have thoroughly tested it in nervous diseases, dyspepsia and general debility, and in every case could see great benefit from its use."

PERSONAL.

The Dubuque Times says the new oatmeal mills in that place are turning out extra good meal, and will soon run day and night; that the Novelty Iron works have put in a mammoth iron planer weighing fifteen tons, and that electric power have been ordered for the establishment; that the brass works have added a building of six stories, 150 feet in size, containing six blast furnaces; that the Faculty Loeschner Manufacturing company have added \$40,000 worth of improvements this season; that the paper mill company has added six new machines and is still crowded with work; and that the leased oil-mills shipped five car-loads of oil cake to Europe last week.

The exact loss of the Preston bank by the recent robbery was \$6,800. The bank is paying all demands against it and offers \$500 reward for the arrest of the burglars, to which the sheriff of Jackson county has added \$300. The details of the robbery are thus told by the Maquoketa Excelsior of the 18th: "The job of opening the safe was done in a scientific manner by a professional crackman. The safe was a so-called burglar proof, made of alternate layers of steel and iron, and was supposed to be drilled through or to break by heavy blows. It was inclosed in a vault of solid masonry on three sides and at the top and bottom. The fourth side was guarded by two heavy iron doors, which apparently offered but little resistance to the burglars. The safe was not calculated to be fire proof, the vault being dependant on for protection against fire, and when the door was shut a small crack was left around it. This crack the burglars filled with putty, except along the hinges and below. To the upper opening an air pump was applied and the air inside exhausted. A suction was thus created which drew in an explosive with which the lower opening was fed. A tremendous charge of fine powder probably, was drawn inside, and was exploded with terrific force. The door was blown clean off, the safe completely wrecked, a four-ton stone lying on top broken in pieces, and the concussion carried out the front of the building, some twenty feet away. The glass was broken from the time-lock, but the faithful chronometer was still running. The door was blown clean until it ran down."

Baby's Appeal.

"What makes I cry and folks say I'm naughty?" Cause stomach ache, and sour in my moufey; Cause too, can't sleep, and worms bites me belly; "Fever," say, feel like I was jelly. Guess your babies likes, Dick and Victoria, When mamma's gone, and don't have Castoria.

"You're right, they fairly yell," There, Uncle Frank; Cousin Frank have CASTORIA, he don't cry.
