

The Daily Bee.

OMAHA. Saturday Morning, Dec. 30.

Weather Report. (The following observations are taken at the same moment of time at all the stations named.)

WAR DEPARTMENT, U. S. SIGNAL SERVICE, VICTOR, OMAHA, Dec. 29, 1882, (1:45 p. m.)

Table with columns: STATIONS, Barometer, Thermometer, Direction, Wind, Clouds, Visibility.

From Omaha, from at Yankton, Mississippi from at St. Paul, from at Albuquerque, from at La Crosse.

LOCAL BREVITIES.

The Danish society held their Christmas entertainment on Wednesday evening at Turner hall. It was a very pleasant affair, all present having an enjoyable time. The number of serious fires which Omaha has been subjected has almost entirely been done away with since the water-works were constructed. The sixteenth birthday anniversary of Miss Eva Redfield, daughter of Mr. and Mrs. Chas. Redfield, was pleasantly celebrated at the family residence Thursday. Quite a large number of friends assembled to participate in the event. The Board of Trade has removed its headquarters from the hall in Lytle's block to rooms in Redick's new block, on Farnam street above Fifteenth. It is probable that some of our county officers will increase their facilities for transacting business by the purchase of Schlotz's new Index, for which book, the agent, D. W. Hux, is now in the city. The publishers are Clague, Wegman, Schlotz & Co., Rochester, N. Y. The president of the Board of Public Works has returned from a trip to Washington, Boston and other eastern cities, where he examined into the methods of paving adopted in the various places. He is well satisfied with the public improvements of all kinds made in Omaha during the past year, and gained some valuable ideas for the future. The city engineer is expected home in a day or two. Free Night School—Notice—I will meet all who are so situated that they can not attend our day schools, yet are in need of an education, at the Saunders street school house at 7 o'clock sharp, on the evening of December 30, Saturday. Remember that this school if opened will be under the supervision of the board of education and the superintendent of public schools. It is to your interest to be prompt. Addison Jones. Standing room for the Nilsson concert will not be sold. Business ought to be lively now if crowded streets are any indication. Bertha Welby appears at Boyd's opera house again to-night. The Pleasant Hours club gave their holiday party last evening. Don't forget to send in New Year open house notices early to-day. Immense variety of New Year Calling Cards at Fetter's printing office, corner Eleventh and Farnam. McNamara & Duncaen are making some improvements in the office of their wholesale house on Fourteenth street. The Omaha people are invited to go to Council Bluffs to-day on a sleighing tournament. Will start from the Paxton at 1:30 p. m. Sixteenth street is monopolized now by sleighs, cutters, and anything that will go on runners. It is the liveliest thoroughfare in the city. One of the sporting girls of the city got on a holiday spree yesterday and paid the usual \$10 and costs therefor, this morning. It is rumored that a cremation society is to be started in Omaha, who will erect a furnace and break up the business of undertakers generally. Cremation would no doubt find favor among many. It is proposed to have another sleighing tournament between Omaha and Council Bluffs, such as was enjoyed two years ago. The ice on the river is said to be thick enough if the enthusiasm can be aroused sufficiently. A little daughter of Mr. K. O. Gould, residing at No. 1113 South Eleventh street, fell from the second story porch last Saturday and is lying in a critical condition. Her injuries were mostly about the head. Kitchin Bros. have fitted up an excellent bowling alley in the building adjoining their hotel on the west and connected with it. Four alleys eighty feet long, finely equipped, are constructed, and the hall is elegantly decorated and lighted and heated with steam. It was opened yesterday. The private car of General Manager Clark of the U. P., was attached to the west-bound train Thursday, en route for Southern California. Among the passengers were S. H. H. Clark, Chas. H. Dewey, Dr. and Mrs. Grossmann and Mr. A. R. Dufrene. The capias in the Herstein case was not served yesterday, as Judge Benson found on examining into the case that the statutes did not admit of the imprisonment of any party without due process of law. A close watch will be kept on the fellow, and if any property ever turns up it will be confiscated in short order. For Sale—A stock of general merchandise that will inventory about \$4,000. Business well established and centrally located in a thriving town of about 2,000 inhabitants. Will lease or sell the real estate and take a good farm as part pay, if desired; balance cash. Address Lock Box 1, Blue Springs, Gage county, Neb. 225 cod 01

A CLOSE CALL.

A Railway Smash-up at Valley Station.

The Steam and Flames Get in Their Work.

Shortly before midnight on Thursday a serious accident occurred on the Union Pacific road at Valley station, which came near resulting in a loss of life as well as of property.

An east bound freight train, No. 20, was at the station doing some switching, being nearly ready to pull out for Omaha, when an extra, also east bound arrived at the station also. The latter was running at a moderate rate of speed and seeing the red signals of the train in advance of them, undertook to stop, but the track was slippery and although the engine was reversed and the sand box emptied on the rails, the wheels slid persistently forward and the engine went crashing into the caboose attached to No. 20, which it completely wrecked, while a refrigerator car next to the caboose telescoped with a car of bullion next to it, and both were badly smashed. The engine, No. 20, which was on its last trip, had its smoke stack and other fixtures on the boilers torn off, and the steam rushed out with a terrific noise, filling the caboose and sending the wreck from sight. In the caboose were Mrs. J. C. Paynter, of the Occidental hotel in this city, with her son, aged sixteen and her daughter, aged seven years, who were returning from a visit to Columbus. The caboose was thrown high in the air and turned a complete somersault, alighting on the ground to be filled with the escaping steam. Mrs. Paynter and her children were asleep on the seats in the caboose and the former was caught beneath the stove from which she was released by her son and, aided by other parties all made their escape from the car. Mrs. Paynter was quite seriously burned and scalded and was carried immediately to the hotel, where she received medical attention which somewhat relieved her. Will Paynter escaped unhurt, and Lottie was but slightly injured. Their baggage was entirely destroyed, as the caboose took fire from the stove and had to be drenched with water from the hose attached to the engine before the flames could be extinguished. It was a narrow escape for the Paynter family and they arrived at home yesterday with thankfulness that they escaped with their lives. Mrs. Paynter is confined to her bed but will probably be able to be about in a few days.

Opera House. Bertha Welby in "One Woman's Life." The talented emotional actress Miss Bertha Welby appeared at Boyd's opera house last night in Elliott Barnes' strong emotional drama, "One Woman's Life." Unfortunately the audience was not so large as it should have been, but that fact did not in the least diminish the brilliancy of the star and the excellent constellation which assist her. The play is an interesting one, in some parts absorbingly so, and Miss Welby has full scope in which to display her remarkable ability as an emotional actress. It may be truly said that her conception of the role in which she appears is as perfect as the most exacting author could desire and the company is exceptionally able in sustaining her. The evening's entertainment was highly satisfactory to the audience, and the matinee and evening performance will no doubt be given to full houses.

Miss Welby's wardrobe. Mr. H. D'Arcy, Miss Welby's efficient manager, brought to Trax Bar office yesterday afternoon the following gems and golden ornaments which have been presented to Miss Welby from time to time as a gerudon of her powers as an actress. There are 107 gems in all, and worth in the aggregate \$17,000:

- 1. Ring, two diamonds, one moonstone.
2. Ring, nine diamonds.
3. Ring, five diamonds.
4. Ring, seven diamonds.
5. Ring, six diamonds, six sapphires.
6. Ring, three diamonds.
7. Ring, three diamonds.
8. Ring, eight diamonds.
9. Bracelet, five diamonds.
10. Star and crescent bracelet, seven diamonds.
11. Solitaire earrings.
12. Bracelet, ten diamonds.
13. Bracelet, seven diamonds.
14. Bracelet, four diamonds, presented for playing Nancy Sykes.
15. Necklace, twenty-eight diamonds.
16. Bracelet, twenty-two diamonds.
17. Bracelet, seventeen diamonds.
18. Comb, seven diamonds.

MUSICAL AND DRAMATIC.

Salvini is 64. Janaschek is in Memphis. Joseph Murphy is in Chicago. Mme. Modjeska is in New York city. John T. Raymond is playing in Boston. Emmett will play all this week in Baltimore. Lawrence Barrett is doing New York steers. Fanny Davenport's jewels are valued at \$125,000. Minnie Maddern is traveling through New England. "The Hack Flig" will be given in Chicago for two weeks. Maggie Mitchell will spend the next two weeks in Cincinnati. The cast of producing the "Passion Play" will be about \$150,000. The three concerts of Miss Nilsson, at San Francisco, realized \$51,400. It is reported that Sara Bernhardt has signed a contract to play forty-two weeks in this country next season. Gen. and Mrs. Tom Thumb, Mr. and Mrs. Sylvester Bleeker, Miss E. Warren and Major Jewell, the midgots, are all at Chicago. The company engaged to play "The Corsican Brothers," at Pooth's, includes Charles H. Thorne, Jr., Frank O. Bangs, George Parks, Harry St. Maur, and others. Herr Barnay, the German tragedian, who he acted Mark Antony so well in London—will arrive here aboard the steamer Werra, and will emerge at the Theatre in January. There was great enthusiasm over Nilsson in Denver. Between 9 and 12 m.

SOLID AS ROCK.

The Omaha Savings Bank in Its New Quarters.

The Remarkable Success of One of Our Most Praiseworthy Institutions.

It has been but a few months since the Omaha savings bank was incorporated and opened up for business, in a department which had hitherto been entirely neglected. In fact it was a matter of wonder that with the advancement and growth of this city an enterprise so peculiarly important to a population like ours had never been inaugurated. On the 4th of December it opened up for business in the Millard block, and it has just moved into new and more commodious quarters, those formerly occupied by the Omaha National bank, on the southwest corner of Douglas and Thirteenth street. This property was purchased for the sum of \$18,000, and they have fitted up the banking rooms in a style as convenient as any in Omaha, and as elegant as any, with a single exception. The walls and ceilings have been frescoed in attractive designs; the joiners and railings have received a new dress of paint; the floor has been laid with heavy oil cloth; and new desks and other furniture have been supplied. The banking room throughout presents a neat, clean and attractive appearance. The main features of the bank accommodations are the fire-proof and burglar-proof safes—one on the first floor and one in the basement—they being the same as were used by the Omaha National, whose files and documents were destroyed in the fire. The Omaha Savings bank is the equal of any in this part of the country. This bank was started in September to supply a long felt want in our midst. Every city of this size and especially with a population made up of working men and salaried clerks is incomplete without such an institution, as all ought to "save up for a rainy day" and there were no capital funds offered for such a purpose. This bank started in with stockholders all of whom are numbered among our most solid and wealthy citizens and with officers known to every citizen as able in themselves to furnish security for the entire obligation to be incurred by the institution. With a capital stock of \$150,000, with liability upon stockholders of \$300,000, and no money invested except upon approved real estate or collateral security, no risk is had by those desiring a liberal interest upon savings. Then, again, a leading advantage over commercial banks is that deposits can be withdrawn at any time without the forfeiture of a penny of interest.

To accommodate the shop men and other workers who could not conveniently go to bank during working hours the bank is kept open on Saturdays from 6 to 8 p. m., its hours on other days being from 9 a. m. to 3:30 p. m. The growth of business proves the importance of the enterprise. It now has deposits amounting to \$190,000, and it is expected that the total deposits on the 1st of January will amount to over \$200,000. The capital stock is \$150,000, and the liability of the stockholders is \$300,000. That it is a safe institution is proven by a glance at the list of stockholders, among whom are some of our wealthiest and best known business men, whose aggregate wealth, at a hasty estimate, is considerably over \$1,500,000. The object of this bank is to afford a secure investment to persons of either sex who receive money in small sums, and are desirous of saving it; to assist and encourage the industrious and frugal to lay by such part of their earnings as they may be able to spare. Deposits of \$1 and upward are received, and interest is paid at the rate of 5 per cent. per annum, compounded semi-annually. Deposits need not be left for any specific time, but are payable on demand, in such sums as may be desired, and interest allowed on all sums to date of withdrawal.

The cashier of the bank, Mr. John E. Wilbur, is known to all as a man of experience in the business and in every respect well fitted for this position. He is always courteous and obliging and the other employees of the bank will be found the same. Another year is destined to see a marvellous growth in the business of this institution.

A WEDDING FEE.

The Cloth Gets Away With the Bride in Good Shape.

A pretty good joke is told on Judge Chadwick of the county court, who does not often get ruffled over anything, but did on one recent occasion. A few mornings ago a young couple walked into his room to obtain a marriage licence, and while he was filling it out a well known and popular man of the cloth, who has charge of one of our leading churches, came in to return the certificate for a couple whom he had a day or so previous joined in the holy bonds of wedlock. The minister, "on the rack" immediately, and his eyes shone with brilliancy in anticipation of a fine fat fee. Awaiting a suitable opportunity he slipped his card, with his profession and name of residence accompanying his name, into the hands of the groom. The result was that instead of being married by the judge they had the nuptial knot tied by the pastor who had introduced himself in so timely a manner. It was a pretty cool invasion of the territory of another, but it was successful, and the judge don't know whether to laugh or be angry.

A PLATSMOUTH WEDDING.

The Journal of late date brings tidings of great joy in the railroad camp, particularly that portion surrounding Mr. George O'Neill, the popular B. & M. engineer. It seems George stole a march on the boys and captured a matrimonial prize in the person of Miss Lillie Caldwell, an Omaha young lady, who had become acquainted to a considerable extent in that city during the past few months, having resided much of that time at Mrs. C. M. Brown's. The nuptial ceremony was maintained in regard to the approaching nuptials, and but a very few of their friends were expecting it. The ceremony was performed last Tuesday evening by Rev. S. P. Wilson at Mrs. Brown's residence on Pearl street, in the presence of a number of the most intimate friends of the happy pair, and the usual jollification occurred after the ceremony, in which the average number of mortifying jokes and pranks were perpetrated upon them. This explains why George was always "willin'", even anxious, to make the Omaha run, and always responded with alacrity to the welcome call, no matter what the hour, for a trip to the metropolis. And the way he "triplished" the trains around the bend was a caution to the natives. It makes our teeth ache to think of it. Here's to you George and Lillie!

METROPOLITAN HOTEL, OMAHA, NEB.

Tables supplied with the best market affords. The traveling public claim they get better accommodations and more comfortable beds here than at any other house in Omaha. Rate, \$2 per day. aug21fm

AT LONG RANGE.

Completion of the Telephone Line to Lincoln.

The Inter-City Telephone company yesterday completed their line connecting Omaha and Lincoln and last night there was a lively interchange of compliments between the various representatives of the press in the two cities. The connection has been made for several days past by using a temporary switch of telegraph wire, but now the company has its own line exclusively. This brings Omaha in telephonic communication with the state capital, Fremont, Blair and Arlington in Nebraska and with Council Bluffs in Iowa, making a large territory already covered. Last evening the Lincoln Journal office was connected with an office in Blair and a conversation held with Mr. E. W. Crowell, of the latter city, which was very satisfactory. The distance between the two parsons talking was 118 miles, about the longest now practically in use. Omaha and Lincoln are but 71 miles apart and the sound of the voice is much more audible than in talking with Council Bluffs, only four miles away. There is no telling to what limit the ingenuity of man will carry this business, but we shall probably see the day not many years hence when a citizen of one city can converse at will with a friend at any city in any state in the union.

FLOUR.

Wholesale. Write for quotations to Valentine & Rapp, Omaha, Neb. 15 2m

SLEIGHING TOURNAMENT.

The Council Bluffs People Come Over in Fine Style.

The sleighing tournament of two years ago has been reopened by Council Bluffs, whose people came over yesterday afternoon with about fifty sleighs, headed by a brass band, and paraded the streets of Omaha in fine style. If Omaha responds with spirit to the challenge, some lively times may be looked for, if the sleighing continues good and the ice solid for a few days. It is a pleasant way of cementing the friendship between the two cities, and one that should meet with hearty encouragement.

Decline of Man.

Nervous Weakness, Dyspepsia, Impotence, Sexual Debility, cured by "Wells' Health Renewer." \$1.

THE EMPEROR'S UNCLE.

A Japanese Dignitary Doing the Grand Tour.

The Japanese prince Arisugawa, accompanied by his suite, left Chicago yesterday en route to San Francisco and will arrive in Omaha at noon to-day. The prince, who is uncle to the present emperor, left Japan in June last with his party to make a tour of the world, reversing the usual order of things by following the sun around instead of going toward it. He arrived in New York on the 16th of December and visited the principal cities in the east, including the national capital where he was treated with great consideration and visited Mr. Vermon and other points with the president and the Chinese embassy.

PERSONAL.

J. O. West, of Grand Island, came in on the Denver train yesterday, and left for home again at noon. Hon. James H. Kyner, the contractor for the Oregon Short Line, is at home for the holidays. Nat. Brown, of St. Joe, is in town. Mrs. J. M. Carey arrived on Thursday's train from the west, and will be the guest of Miss Nettie Collins for several days. Miss Carrie M. Hartley, of Kearney, who has been spending the last few days in the city, the guest of Mrs. T. W. Blackburn, returned home Thursday evening. W. H. Remington, of The Herald, left for the east Thursday in response to a telegram which brought the sad news of the death of his father, R. M. Remington, who died suddenly on Wednesday night at Hudson, N. Y. Alfred Burley, Esq., who has been confined to the house since his return from New Mexico a week ago, is reported convalescent. Mr. Wm. Lehner, who has been in Southern Colorado for two years, has returned to Omaha and will remain here until next spring. J. B. Sanley, who is now engaged in the mining business in the Seminoe country in Wyoming, returned to Omaha a few days ago and will remain here some weeks.

DOES OMAHA WANT CHEAP GAS?

Apply to No. 101 a north street.

As considerable opposition is being manifested to the passage of an ordinance now before the city council granting to the United Gas Improvement Company, of Philadelphia, the right to lay mains, pipes, etc., in this city, to enable it to furnish consumers of gas with a cheap and brilliant light. I have to request that the public may be informed, through your paper, of what we claim to do. First. We offer to manufacture and send a gas of more than double the brilliancy and for less than half the cost, of that now furnished. Second. We furnish, at our own expense, all pipes to conduct gas from our street mains to the meters of consumers. Third. We offer to have works completed to do this before the first day of September 1883, works equal, at least, in capacity of these of the Omaha Gas Co. Fourth. We agree to furnish the street lamps of the city with this quality of gas, every night in the year, from twilight to daylight, for a sum not to exceed \$20 per lamp per year, we to light, extinguish and keep them in order. We also agree to furnish the city, for its buildings, this gas at \$1.25 per 1,000 feet. Fifth. We offer to give a good and solvent bond with sureties resident in Omaha, said bond to be in the sum of \$20,000 and subject to approval by the mayor, that we will carry out each and all of these provisions. Sixth. For the responsibility of our company to carry out any agreement it enters into we refer to Bradstreet's Mercantile Agency, office on Thirteenth street, Omaha, Neb. Seventh. That we have in operation works supplying gas such as we desire to introduce here we ask attention to the following copies of statements, all of which can be verified by any person in doubt of their authenticity. (Copy.) ROCHESTER, N. Y., Sept. 14, 1882. E. C. Briggs, City Council, Columbus, Ohio. The gas you speak of, manufactured by the Municipal Gas Light company of this city, is of superior quality and, I think, a decided success. (Signed) C. R. PARSONS, Mayor. NEW YORK, Sept. 14, 1882. E. C. Briggs, City Council, Columbus, Ohio. Water gas as made by the Municipal process is much better and cheaper, and gives more satisfaction than coal gas. No other kind of gas can be compared to it. (Signed) MITCHELL & KATZ, Proprietors of Hotel Brunswick. Prof. C. F. Chaudler, president New York health department, says: April 15, 1881.—This gas has been extensively used in the city of New York for years in public and private buildings. There are no facts which give any substantial foundation for the apprehension that this gas is in any way more dangerous than the coal gas previously in use. Hubert O. Thompson, commissioner of public works of New York, says: June 15, 1881.—Water gas is satisfactory to consumers and profitable to the companies. F. W. King, superintendent of lamps, Baltimore, says: June 14, 1881.—What is known as the Lower process of water gas is partially in use in Baltimore, and has been for two years. It appears to give universal satisfaction to all who use it. Charles B. Foy, proprietor Westminster hotel, New York, says: I saved in my hotel in sixteen weeks only \$450 by using water gas, instead of coal gas. Very Respectfully, H. S. JACKSON, For United Gas Improvement Co. SLAVEN'S YOSEMITE COLOGNE Made from the wild flowers of the FINE YOSEMITE VALLEY Is the most fragrant of perfum T Manufactured by H. B. Slaven, San Francisco. For sale in Omaha by W. J. Whitehouse and Kennard Bros., & Co. SPECIAL NOTICES. MONEY TO LOAN—Call at Law office of D. L. Thomas, room 8, Crighfield Block. MONEY TO LOAN—On chattel mortgage security. King, superintendent of lamps, Baltimore, says: June 14, 1881.—What is known as the Lower process of water gas is partially in use in Baltimore, and has been for two years. It appears to give universal satisfaction to all who use it. Charles B. Foy, proprietor Westminster hotel, New York, says: I saved in my hotel in sixteen weeks only \$450 by using water gas, instead of coal gas. Very Respectfully, H. S. JACKSON, For United Gas Improvement Co. SLAVEN'S YOSEMITE COLOGNE Made from the wild flowers of the FINE YOSEMITE VALLEY Is the most fragrant of perfum T Manufactured by H. B. Slaven, San Francisco.
