BROWN CHEMICAL CO.

Gentlemen:—For years I have been great sufferer from Dyspepsia, and could get no relief (having tried everything which was recommended) until acting on the advice of a friend, who had been benefitted by BROWN'S IRON BITTERS, I tried a bootle with most surprising results. BROWN'S IMON BITTERS, I tried a bottle, with most surprising results. Previous to taking BROWN'S IMON BITTERS, everything I are distressed me, and I suffered greatly from a burning sensation in the stomach, which was unbearable. Since taking BROWN'S IRON BITTERS, all my troubles are at an end. Can eat any time without any disagreeable results. I am practically another person. Mrs. W. J. Flynn, 30 Mayerick St., E. Boston,

### TESTIMONIALS.

Council Blurps, Iowa, December 21, 1882. Prof. H. Samuels:

Dear Sir—Some two years and a half since you visited this city, and at that time I was troubled with my eyes, caused by excessive proof-reading and other office work to such an extent that I could at times hardly read, study or decipher plain print without frequently resting them. You adjusted a pair of glasses for me that are next to indispensable, and I have no hesitancy in recommending persons to you who may be troubled with weak eyes. Yours truly,

COUNCIL BLUFFS, February 14, 1850. Council Bluffs, February 14, 1830.

Prof. Samuels:

Dear Sir—I feel that I would be ungra'eful indeed if I did not in some manner express my gratitude to you for the wonderful benefits derived from the use of your glasses adjusted to my eyes by you. I have tried other glasses and means, but all to no purpose, and I had concluded myself doomed to go 'hr.ugh the world nearly sightles; but whereas I was nearly blind, now I see, and am able to read as I never could.

While on the Pacific coast years ago I became partially blind, and my right eye has never recovered. I have trie numbers of times to get glasses to help me, also other remedies, but it was ofno use, as no one could help me. When Frot. Sahue is came this time to Omaha I thought that it would do no harm in trying him and see what he would say. He examined my eyes and told my that he could nake me sie, not withone, but with both eyes. I told him to go on and make me see, as I had given up the idea of ever being able to see well again. To my surprise he made me a pair of glasses that enables me to see with my right eye as well as with the other. I will cheerfully recommend him to all those that have given up hopes. Yours, with good sight,

ilm to all those with good sight, GEO, E. GIBSON, Om ha, Nab., December 20, 1882.

I used to have very weak eyes and tried a great many things for relief, but it was all in vain. When Prof. Samuels was in the city a few years ago I was advised by one of my friends who was benefited by him to call on him. I done so, and am glad to state that he helped me wonderfully. He fitted me at that time with a pair of his glasses, and they gave me instant relief, and after using them for a short time my eyes invoved so that I had no use for the glasses at all. My sight is perfect, although I was advised not to put on glasses, for I woold have to wear them all the time; but Prof. Samuels' glasses work different. They improved my eyes, and I would advise all persons who have trouble with their eyes to call on him. Respectfully.
