PLACING BONDS. The Annual Report of the City Mission Work, by Mrs. H. B. Fuller, for the six months ending December 26, 1882.

When eighteen hundred years ago, three women came, in the early morning, on the first day of the week, bringing spools to a tomb in Judea, they bore away again their useless gift, but they had found something vastly better than a sepulchred body.

Yet, after all, they may have been refused, because too carelessly prepared. But the past with its failures, mistakes, and sins, has gone up to God, and when I think how widely different would be that record from the one I bring here, I hesitate to write.

Well, the year seems to have been full of work of some sort, at least. I have given no report since June. Most of September and October were spent in vacation. Have been working the last two months. Think I have fallen a little short in hours of work, but comfort myself with the knowledge that there has been a good deal of overwork in months past.

They could not keep warm. In some instances these people are very kind to each other. One woman who supports her two children by washing, kept another poor woman and her child who came to her for several days (because they had no where else to go), although they had scarcely enough to eat, and but one bed, so that some one had to sit up with the others all night.

Our Mission School. suffering as usual during the winter months. He is still finding amusement in the toys which were sent him last summer.

An Important Decision. Special Dispatch to This Bureau. LOUISVILLE, January 2.—Vice Chancellor Simral decided an important suit to-day. Atkinson & Blakemore brought suit against the Western Union telegraph company to recover damages for error in transmission of a message sent in cipher form from St. Joseph, Mo., last June. The error was the substitution of St. Louis for St. Joseph. The translated message read, "Can buy 100,000 1 1/2 average winter shoulders at \$3.40. These are bottom figures. A change in the date line caused a delay and in the meantime prices of provision went up and prevented the transaction at the figures specified, the plaintiff thereby losing a commission. The defense set up was that the message was an unprepared one, therefore uncorrected and printed on every telegraph blank the defendant was liable only for the cost of transmission. The vice chancellor delivered a lengthy opinion in favor of the telegraph company.

An Exile Drives. Special Dispatch to This Bureau. MILWAUKEE, January 2.—Martin O'Sullivan, ex-convict, late of Bull-dog, County Kerry, Ireland, is confined to his home, 218 Detroit street, this city, suffering from lung disease contracted during confinement in Limerick jail under the coercion act. The doctors have little hope of his recovery.

Pine Bluff a Blast. Special Dispatch to This Bureau. PINE BLUFF, January 2.—This morning a fire broke out in the rear of the five story brick block occupied by Rosebaum & Ties, furniture dealers, and Sol Rosenberg, plantation supplies, and in less than two hours property of the value of \$125,000 was destroyed. It was the work of incendiary. The Garland Gray were holding a dance in the room over which the fire broke out. When the alarm was sounded, though all escaped, their wraps and clocks were lost.

Cutting Down Wages. Special Dispatch to This Bureau. PITTSBURGH, January 2.—The river coal operators of this district have decided against the four cent rate for digging, and will insist upon a reduction equal to that ruling with railroad rates, which is three and one-half cent per bushel. The operators say the condition of trade will not warrant a higher rate. The reduction will effect 5,000 miners employed in seventy-four pits. It is not thought that the miners will make any strong opposition but will quietly submit.

A Fatal Slide. Special Dispatch to This Bureau. AUBURN, N. Y., January 1.—Three laborers were killed by a caving in of earth upon them while cutting through the high land for a new street.
