

New Life

is given by using Brown's Iron Bitters. In the Winter it strengthens and warms the system; in the Spring it enriches the blood and conquers disease; in the Summer it gives tone to the nerves and digestive organs; in the Fall it enables the system to stand the shock of sudden changes.

In no way can disease be so surely prevented as by keeping the system in perfect condition. BROWN'S IRON BITTERS ensures perfect health through the changing seasons, it disarms the danger from impure water and miasmatic air, and it prevents Consumption, Kidney and Liver Disease, &c.

H. S. Berlin, Esq., of the well-known firm of H. S. Berlin & Co., Attorneys, Le Droit Building, Washington, D. C., writes, Dec. 5th, 1881:

Gentlemen: I take pleasure in stating that I have used Brown's Iron Bitters for malaria and nervous troubles, caused by overwork, with excellent results.

Beware of imitations. Ask for BROWN'S IRON BITTERS, and insist on having its "Don't be imposed on with something recommended as 'just as good.'" The genuine is made only by the Brown Chemical Co. Baltimore, Md.

BALL'S
Elastic Section
Corsets

ST. LOUIS MO.

WISCONSIN JOTTINGS.

DAKOTA.
Wash county has \$9,000 in its treasury. All the fine lakes in Central Dakota around in excellent fish.

Eisen claims to have one of the best water powers on the Sioux river. The Canton brick company has just declared a semi-annual dividend of 19 per cent.

Timber growers have good success with the willows in the northern part of the territory. The wheat market in the principal North Dakota markets has advanced three cents per bushel.

The Methodist, Presbyterians and Catholics are all prepared to build churches at Minn. The Black Hills papers have an idea that a boom will strike every town in the hills in the spring.

The Sturgis City townsite has been "scrapped" by a company of land sharks and those are the reasons. The First National bank at Huron recently received \$178,000 in new five dollar bills from the treasury department.

The Jamestown emigrant buildings will probably soon be enlarged in view of the prospective heavy immigration in the spring.

COLORADO.
Trinidad has a well formed lamb with a well developed child's head. Denver is to have a new hotel—the Albany—which will be five stories.

Water is delivered to the door of householders in Durango at five cents per barrel. One hundred and fifty thousand dollars worth of real estate changed hands in Denver last week.

The Theodore Thomas orchestra has concluded to hold a musical festival in Denver next May. The sum of \$1,000 was donated recently by the Colorado stock growers' association to the Denver orphan home.

Denver is soon to have an extensive match factory. It will be a branch of the extensive one now in operation in San Francisco. The wind storm which prevailed in Denver was the most damaging which ever occurred in that city. The loss will reach about \$25,000.

The remains of Josephine Meeker, who recently died in Washington and who was the heroine of the Ute massacre, were recently buried at Greeley. The Texas placer mine, six miles from the City, has been sold to a Pennsylvania company for \$10,000. The company intend doing some extensive work and will develop the mine by deep flume and hydraulic pressure.

During the past two years there were over 1,400 certificates of incorporation filed with the Secretary of State, one-half of which were those of mining companies. During the same time 650 Notaries Public and fifty-one Commissioners of Deeds were appointed by the Governor.

UTAH.
There are fifty-three persons confined in the Utah penitentiary. Logan has four cases of small pox, and the place is considerably alarmed.

The Utah & Northern has received three locomotives from the Nevada Central. Twenty cases of street robbery are reported from Salt Lake, as occurring in the past two weeks.

The number of applications for patents on mining property in Utah during 1882 was about twenty-five per cent in excess of 1881. The Utah Central carried 10,219,30 lbs. of salt to Ogden during the year 1882 for shipment to Park City, Colorado, Montana, etc.

The hide and wool merchants shipped 2,375,341 pounds of hides and wool over the Utah Central to Ogden for the east and west during 1882. Merchants of Salt Lake report that trade is opening well for the new year, and that last week's business was much better than was the first week in January, 1883.

A Mormon elder writing from Grouse Creek to the church organ, says it is a long distance for the first of the morning. During the week ending January 16th, there were shipped from Salt Lake nine tons of lead, 458,210 pounds; two cars copper matte, 40,700 pounds; and fifty-one cars bullion, 1,191,497 pounds; making a grand total of seventy-two cars, aggregating 1,650,469 pounds. This is a good beginning for the first week in the new year.

The consumption of salt by the silver mills in Utah, Idaho and Montana supplied from Salt Lake, was 12,000 tons during the year 1882. This is all the time increasing. Butte uses twenty-five tons per day. The works of Wallace & Lyman, near Platte City, produce 7,000 tons per annum, and they keep two years' supply on hand. The salt interest will become much enhanced by the Denver & Rio Grande, which will extend to Colorado and open New Mexico.

WISCONSIN JOTTINGS.

Two brothers named F. and D. Millace found at Oceola, White Pine county, a gold nugget weighing 63.2100 ounces, valued at \$1,012. This makes the fourth nugget found in this county in a few weeks. The three previous finds are valued at \$6,000, \$1,050 and \$938 each.

OREGON.
The output of the King county coal mines during 1882 was about 170,000 tons. Mr. Foren, of Prineville, while engaged in shoeing a horse, was struck by the animal in the forehead, from the effects of which he died three days after.

Portland is indignant over the conduct of John Forrie, a Dr. yman, who compelled sixteen year-old daughter to lead a life of shame and give him the earnings. The Oregon Improvement Company has voted to increase the capital stock from \$5,000,000 to \$7,000,000, the increase to be expended in developing coal mines and building a steamship line.

WASHINGTON TERRITORY.
A new grist-mill is to be erected at Al-powa, Garfield county. A water pipe manufactory is contemplated at Seato, the purpose being to employ convict labor.

New settlers are going into the Skagit county, new logging camps being started, and great activity displayed all through the valley. **CALIFORNIA**

During the past year \$525,000 has been paid out for labor at the Mare Island navy yard. A large portion of the Cajon valley, in San Diego, is to be planted with raisin grape vines. The legislature of California is doing an immense amount of business, over 100 bills having been introduced.

Grading for the extension between Los Angeles and Colton, on the California Southern road, is actively progressing. On January 1st there were 44,439 tons of wheat stored in Stockton warehouses, against 45,700 tons December 1st. There are also 1,815 tons of barley, 215 tons of rye, and 30 tons of corn.

It is said that gold was first discovered in California, January 19, 1848 by James W. W. Marshall. The total yield of that metal up to June 30, 1881, amounted to the handsome sum of \$1,170,000,000. The town of Santa Ana, Los Angeles county, was laid out on 78 acres of land in 1869. It now covers 250 acres, is still expanding, and contains 2,000 inhabitants and five churches.

Sugar cane is grown by Chinese in Santa Ana valley, Los Angeles county. The Santa Ana Herald says that the culture of the cane in that valley is not an experiment, but that its success is a settled fact. On Monday, January 8th, there were 794 men employed on Mare Island, and 1,000 on the other side of the bay. 24; equipment, 57; navigation, 1; ordinance, 10; construction, 246; steam engineering, 120; provisions and clothing, 6.

The Los Angeles papers are jubilant over the prospect of the building of a narrow gauge railroad from Los Angeles to Pasadena, a distance of about nine miles. It is stated now that the immense building of the road is an assured fact. **ARIZONA.**

Two cowboys, while trying to rob a store at Leacock, last week, were fired upon, and one John Bennett, alias John Stewart, was killed. Teams are here, says the Calico Print, from the borax fields after the immense iron tanks to be used in the manufacture of borax; also a half mile of iron pipe to convey water from the artesian wells to the reduction works.

IDAHO.
Michael Mooney was hanged at Frank last Friday for the murder of Joel Hinckley at that place, on October 7, 1881. The murder was committed for money. A man at Boise City proposes that if he is given the exclusive right to sell spirituous liquors in that city, he will agree to pay the independence of the city school district, and forever keep up a first-class public school sufficient to educate all the children, pay a good salary to every teacher, and give every child in the city, and build a new church every five years.

NEW MEXICO.
The ice at Las Vegas is fourteen inches thick. A prominent Mexican military official was arrested at El Paso, Texas, and fined \$30 for carrying concealed weapons. There are 12,000,000 sheep in the territory of New Mexico. About half of this number average two pounds of wool to the head, 4,000,000 average one pound, and the remaining 2,000,000 average seven pounds of wool each.

A detective is at Silver City on the track of a fugitive named Keating, from New Orleans. Keating murdered several men, and has a reward of \$3,500 hanging over his head. **A DAIRY IN A COFFIN.**

A girl's remarkable history of how she was saved from premature burial. New York Sun.

"Here is a young woman who has had as curious an experience, I think, as any you ever heard of," said a Greenpoint lady to the reporter. "Clara, show him the plate."

"Clara, show him the plate," said a Greenpoint lady to the reporter. "Clara, show him the plate," said a Greenpoint lady to the reporter. "Clara, show him the plate," said a Greenpoint lady to the reporter.

"Why, to whom does this refer?" asked the reporter. "It refers to me," replied Miss Mance quietly. "It was on my coffin—at least I suppose I may call it my coffin, though I was not buried in it. I accepted it, however, for some hours, and had it not been for the intelligence of a lady who came to attend my funeral I should have been in it now. My uncle took it to his home in Chicago, where he is fond of showing it to his friends and telling my story. I kept the plate, which I seldom allow any one to see, for the recollections it awakens are not pleasant."

ITEMS OF INTEREST.

The Virginia woman who tried to collect toll for Sheridan's whole army still lives near Winchester. A Missouri cure not only promises to cure nasal catarrh at once, but makes the astounding statement that he will "remove the catarrh and place it on a saucer."

The widow of the late General Carey will receive a pension of a little over \$2,000 a year from the French government. American claim agents would call this stingy treatment. The Courier-Journal comments on the remarkable growth of Nebraska, and states that while the young state had but 70,000 inhabitants when it came into the Union, it has already reached 650,000.

Mr. Abraham Lincoln told Dr. Miner, of Springfield, Ill., that when the fatal bullet struck the President he was talking about a journey to Palestine in rest after they should leave the White House. He said: "The day, a Chippewa Indian, son of the famous chief of that name, started out on a lecturing tour in Minnesota. His first audience yielded him \$2.50, and that ended the venture."

While Albert Robinson was before a police court in San Francisco, attempting to explain away a charge of vagrancy, he was handed a check for \$500 with which to pay his passage to England where a fortune of \$500,000 awaited him. A former clergyman at Methuen, Mass., now of Chicago, lately wrote a paper in the former town that he is "a man of means," and added: "I do not care for \$10 or \$100. I have a good bank account, and I loaned \$4,000 this week on 7 per cent, so that I am not as I was in Methuen—a poor clergyman, preaching on a stingy salary to men worth over \$25,000."

Lord Shelburne could say the most provocative things, and yet seem quite unconscious of their being so. In one of his speeches, alluding to Lord Carlisle, he said: "The noble lord has written a comedy." "No," interrupted Lord Carlisle. "Oh, beg pardon; I thought it was a comedy."

Tom Thumb celebrated his forty-sixth birthday in Chicago on the 4th instant. He says when Barnum first got hold of him he was only five years of age, and was so light a strong man could hold him in the palm of his hand, and was frequently carried by Barnum in his overcoat pocket. Tom says when he says: "Alas! how I have grown since then."

REMEMBER THIS.
If you are sick Hop Bitters will surely aid Nature in making you well when all else fails. If you are constipated or dyspeptic, or suffering from any of the numerous diseases of the stomach or bowels, it is your own fault if you remain ill, for Hop Bitters is a sovereign remedy in all such complaints.

If you are wasting away with any form of Kidney disease, stop tempting Death this moment, and turn for a cure to Hop Bitters. If you are sick with that terrible sickness Nervousness you will find a "Balm in Gilead" in the use of Hop Bitters.

If you are a frequenter or a resident of a miasmatic district, barricade your system against the scourge of all countries—malaria, epidemic, bilious and intermittent fevers—by the use of Hop Bitters.

If you have rough, pimply or scaly skin, bad breath, pains and aches, and feel miserable generally, Hop Bitters will give you fair skin, rich blood, and sweetest breath, health and comfort.

In short they cure all diseases of the stomach, bowels, blood, liver, Nerves, Kidneys, Bright's Disease. \$500 will be paid for a case they will not cure or help.

That poor, bedridden, invalid wife, sister mother, or daughter, can be made the picture of health, by a few bottles of Hop Bitters, costing but a trifle. Will you let us suffer?

STABLISHED 1858.
SIDE SPRING ATTACHMENT—NOT PATENT
