Her adherents claim her presence means a demonstration to behalf of the name of the family of Na poleon. This, it is observed, is considered rather doubtful, owing to the well known coolness between the exempress and prince.

THE RESULT OF THE ELECTIONS in the bureau of the chamber of deputies for members of the committee on bills dealing with pretenders to the throne, is found in favor of the government bills, with certain restrictions. Six are in favor of Floquet's bill, and one in favor of Baliue's. Eighty votes were given for members favoring the government bills, and 120 for those favoring the bills of Floquet. It is understood that the minister of war refuses the adhesion, while it is affirmed that the other members of the cabinet favor Ballue's more stringent amendment decreeing immediate cashiering of the princes. The latter's harsh enactment is the stumbling block over which the ministry promises to break up before long.
