

The Daily Bee. COUNCIL BLUFFS.

Thursday Morning, Feb. 8.

SUBSCRIPTION RATES: By Carrier, 20 cents per week. By Mail, \$10.00 per year.

Office: No. 7 Pearl Street, Near Broadway.

MINOR MENTIONS.

The street cars are again running as usual. There were only two cows in the pound yesterday, and the excitement is lessening.

It is decidedly amusing to see the aldermen sniff the candles to get light enough to read the city's gas bill for the month.

In the case of Jerman vs. Riley, tried in the superior court, the jury brought in a verdict for the plaintiff for \$77.

There are now eighteen prisoners in jail besides the colored baby, which the jailer don't know whether to count as an extra boarder or not.

A PARAGAN.—Any person desiring to purchase an elegant residence one block from Bayliss park, for \$6,500, part on time, should address W. box 1, 37.

St. Albans lodge No. 17, K. of P., is to celebrate the nineteenth anniversary of the order with a grand ball at the K. of P. hall, on the evening of the 20th.

The chief of police made a ripple pass over the monopoly of police headquarters yesterday by dragging in one drunk, too drunk to have a name and had to be registered therefore as the unknown.

Constable Fox made a success of his second trip to Panama, and not only captured his man Crandall but brought him back to stand an examination to-day for obtaining goods under false pretenses.

In the circuit court yesterday the jury in the case of Dimmock vs. C. B. & St. L. railroad brought in a verdict of \$600 in favor of the plaintiff. The case of Goff vs. the Hawkeye pump company, was then taken up.

The Denison fire brigade was called out the other day to put out a supposed blaze in J. Fred Meyer's residence. The smoke which filled the house was found to be caused by the cook dumping a pan of hot ashes under the edge of the sidewalk, and the smoke pouring through into the cellar.

The street rumor of a shooting scrape at Pat Lacy's saloon seems to have grown out of a fictitious report which sprung up there, in which one of two blows were exchanged by the belligerents, and one of them accidentally striking a pane of glass with his fist, caused the blood to flow. The participants were separated and skipped out before any officers arrived to make arrests.

The Germans of Council Bluffs are aroused and propose to respond to the call of their suffering friends at home. To put this sympathy in practical shape a grand concert is announced to take place at Turner hall on next Sunday evening, as an advertisement found elsewhere will explain. The best local talent has been engaged, and a feast of music is promised those who attend.

There is to be a rousing camp fire at Missouri Valley on the 15th, the good time to commence at 10 o'clock in the morning and continue all day, winding up with a dance in the evening. A number of the valiant veterans and their families here expect to attend the doings, and the arrangements now being made are so extensive that there is no doubt of the occasion being unusually enjoyable and amply attended.

Charles King, a man of color, was arrested yesterday on the charge of larceny, he having under his arm a roll of sole leather for which he could not well account. He finally admitted that he had stolen it, his excuse being that he was out of money and out of work, and being hungry, was tempted and fell. He will be lodged and boarded at the county jail for thirty days.

It is difficult to see what fun or consolation there can be in mutilating the registry lists, posted up in various places about the city in accordance with law. Last spring some one covered the lists with mud, and now that the boards are posted up again the malicious mischief begins again. One of the boards on Broadway has been broken, a piece taken out of its center. It is to be hoped that the malicious doers may be brought to justice, but it is doubtful.

William Stevenson, an old resident of the city, died yesterday at his home on Bloomer street, at the age of 70 years, and after an illness of only a week. Mr. Stevenson has for some time been in feeble health, and of late had to give up even the duties of janitor of the Methodist church, which he has performed for some time. He leaves a wife who is also well advanced in age. The funeral services are to be held this afternoon at 2 o'clock at the home.

Mr. Spencer, who has become known pretty well as the editor of The Macedonia Tribune, has purchased an interest in S. F. Walker & Co.'s establishment and is to take Mr. Chas. Fin's place as editor of The Advance, the latter being obliged on account of health to seek rest and a temporary change of climate. Mr. Spencer is a bright, active newspaper man and will be welcomed to Council Bluffs business and social circles.

The officers went on Tuesday night after a fellow named John Woods, for disorderly conduct in sneaking a window at McCarty & Bowles' saloon, on Broadway. Woods was tracked to the Mt. Pleasant house, but the proprietress would not let the officers take him out without a warrant, and as she promised to have him appear in court in the morning, they let him remain there. He failed to appear, however, and another hunt was made with a warrant yesterday, but to no effect.

The fire committee of the council expect to-day to take a trip down Main street to look up a site for a new engine house, in accordance with the late action of the council. There is a large amount of valuable property located in that part of the city, and more is centering there, and

there is now no sufficient protection from fire, the steamers being huddled together near the city building at a distance from the property in question. It is planned to have a temporary building on South Main street, and to transfer the Bluff City steamer to that, and to keep it there until the water works get in operation, at least, when the building can be used for a hose company. The move is one which has long been urged by property owners in that part of the city, and it will doubtless be effected.

—Officer J. W. Morse was arrested last evening on a charge of larceny, one C. W. Burns claiming that he had given Morse \$11 to get his gold watch out of a pawnshop, and that Morse refused to give up the watch. Morse claims that he got possession of the watch by an agreement in working up a case of stolen property, and that he was to keep it until he could investigate further. Morse gave \$300 bonds, and had the case set for this afternoon in Justice Vaughan's court. He also has Burns arrested, charged with larceny of the watch.

Dr. West, Dentist, 14 Pearl street. Don't fail to attend the Turners' masquerade ball on the 22d.

The finest lot of anthracite coal that has been received here this winter has just arrived at A. H. Mayne & Co.'s.

AN ANXIOUS SEARCH.

Mrs Peterson Hears No Tidings from Her Missing Husband.

Frank Peterson, the Swedish laborer mentioned of whose mysterious disappearance has already been made in THE BEE, is still unheard from, and his wife and friends are kept upon an anxious strain of mind, which threatens to drive the woman, at least, quite frantic, if not insane.

The poor woman walked from here to Plattsmouth, on one of the coldest days recently, in order to get some trace of him there, he having started with his team from here with the intention of crossing at Plattsmouth and thence going to his little bit of land located one and a half miles southwest of Sutton, Clay county, Neb.

At Plattsmouth the wife got further trace of him and followed him to Lincoln, but could trace him no further, he having left his team there in a livery stable. Peterson and his wife have both worked hard, not only to keep the wolf away but to get a little ahead for a rainy day, and were still struggling when he suddenly disappears, and for no apparent cause. He is a man about forty years old, of medium size, heavy set, with sandy hair and whiskers. The Nebraska and Colorado papers would do an act of mercy to a poor and worthy woman if they would aid in the search by republishing the description of the man.

When you want to get Iowa coal that is almost if not quite equal to Wyoming, call for the Frederick, at A. H. Mayne & Co.'s.

COUNCIL BLUFFS TO OMAHA.

Council Bluffs has two mills that will compare with any in the west, not for size, and yet they are extensive, but for quality of products. There are no breadstuffs made in any city, either in Minnesota or elsewhere, that will surpass our flour, because the roller system, the best in the world, is the one both of our mills are using. Omaha has no competition with Council Bluffs in this particular, and neighborhood feeling should give our manufacturers a fair chance over the river. These remarks have been called forth by the fact that our mill owners complain that while on prices they more than compete, and in quality they have the endorsement of the most critical experts, yet that inferior flour has the preference over the river, and there is absolutely no Council Bluffs flour in the Omaha market.

Now this is all wrong, unjust and anything but neighborly. Give Col. Hoffmayer and Mr. Evans a chance in your markets, and their goods will take care of themselves after that.

Council Bluffs buys the wheat for her mills in Nebraska and pays the highest prices for the best grades. Much of this money must eventually find its way to Omaha, thus keeping the cash in the country, instead of sending it far away from the channels of Missouri Valley trade.

Messrs. FRENCH, GLADSTONE, HEIMOLD, BRUNNER, GENTLEMAN, HANLEY, GUILD, NICHOLS, FLEMING, and all the far-seeing grocers of Omaha will appreciate the importance of this matter, and it is to you we appeal.

We are your neighbors, and have a claim that is prior to any asserted by manufacturers hundreds of miles away.

Don't fail to get your tickets for the next home entertainment of the season. The juvenile band will do the handsome thing on this occasion, as they always have in the past. Give the boys a benefit that will show that we appreciate them. Remember the date, Friday, February 16th, at Duhaney's opera house.

Our New Loan and Improvement Co. Investigation into the matter convinces us that one of the most equitable, reasonable and feasible plans of building houses is that proposed and in operation by the Mercantile Loan, Trust and Improvement company of this city. By investing in shares in this institution, which is backed by some of our best and most reliable business men, it becomes possible and comparatively easy for a man of moderate means to secure a comfortable home for himself and family. In taking a certain number of shares, a certain monthly payment, in a few years a man can own a house of his own for about the same as he pays monthly for rent. We believe the Mercantile Loan and Trust company, by organizing and opening up for business, having filled a long felt want in Council Bluffs. Their plans and system of loans will bear the most careful scrutiny and examination, and we have no hesitancy in pronouncing them reasonable and equitable, and backed by gentlemen of honor and integrity. As the company exists it becomes at once an institution of value and credit to our city and those who desire homes. Their president is T. A. Kirkland, vice president, Judge Penke; secretary, I. R. Byrnes; treasurer, Col. Beebe, and their office is in the basement of Shugart's and McMahon's new block, corner First avenue and Pearl street. jan27-ly

Young man or woman, if you want big money for a small amount, insure with Marriage Fund and Mutual Trust Association, Cedar Rapids, Iowa. 15-3m.

FEARFULLY FROZEN.

The Result of a Twenty-four Hours' Sleep in a Snow Bank.

The Victim May Live Yet.

A terrible case of freezing is reported as having occurred near Denison, a few days ago, the victim being a young man named Keller, a brother of Chris. Keller, who lives about five miles this side of that place. He arrived on the morning train from the east, and having no sleep the night previous, and no breakfast, the train being late, he was very much exhausted, and in this condition started out for his brother's house on foot. There was a blinding storm and the mercury was very low. On the way his strength gave out, the drifts making hard wading and his physical condition not being the best for such a hard tramp. He concluded to sit down for a few minutes rest, and exhausted nature gave way. He fell asleep and there remained until about noon the next day, when he awoke, thinking that he had slept but for a few minutes, on attempting to move he found that his feet, hands, nose and ears were badly frozen, the natural result of a twenty-four hours' sleep in ice and snow. The only marvel in that he awoke at all, and that he was not dead, he did not find himself worse frozen than he was. It was with great difficulty that he released himself from the icy fetters which bound him, crawled out of the snow, and on his hands managed to drag himself toward the nearest house, some of the inmates of which had their attention attracted so that they ran out and helped him in. He was then taken to his brother's residence and medical help called. It is thought that both feet and both hands will have to be amputated to save the man's life, and it is doubtful if, after the frozen exposure, his system has sufficient vitality to stand the operation.

When you want to get Iowa coal that is almost if not quite equal to Wyoming, call for the Frederick, at A. H. Mayne & Co.'s.

The Atlantic City papers are kicking at the increased rate of the assessment of property in that town. The fare bankers of Sioux City are running light at present. The suckers are not biting so well as usual.

The state board of health at Des Moines has received notice that small-pox has broken out at Ida Grove. The Des Moines papers are insisting that people come to the front and give their mite to the poor of that city.

Western Iowa is again infested with horse thieves. The number of horses stolen lately has been numerous. The sheriff of Iowa held a meeting in Des Moines last Thursday, and transacted considerable business of importance.

It is a rare case of furniture and gas fixtures of the City Hall at Des Moines were bought in Chicago and cost over \$2,000. The Atlantic gun club have just closed a successful tournament in that city. The prizes were awarded and everything was highly satisfactory.

Much complaint is being made of the inefficiency of the new postal clerks on the recently added night mail service to the Northwest. The number of parcels lost is increasing.

A. C. Taylor, a Cedar Rapids jeweler, was recently victimized by a clerk whom he had discharged to the extent of \$400 worth of goods. Most of the stolen property has been recovered.

Richard Brownson, for forty years a resident of Dubuque and a member of the state legislature from 1852 to 1854 and largely interested in state lead mines, died after a painful operation on the 1st inst.

The Iowa railroad commission recently decided that a long haul of freight should not be cheaper than a short haul. This decision affects nearly one thousand railroads in Iowa and will create a big controversy among the railroads.

A way car and reclining chair were burned on the Burlington, Cedar Rapids and Northern railroad at Cedar Rapids on Thursday night. The engine, which had built up a rousing fire in the way car stove.

The Iowa hotel keepers association holds its semi-annual convention in the parlors of the Morgan house in Des Moines, February 14. The convention will take action toward aiding the legislature to enact laws regarding fire protection.
