Cur New Loan and Improvement Co Investigation into the matter convinces us that one of the most equitable, reasonable and feasible plans of building houses is that proposed and to operation by the Mercantile Loan, Trust and Improvement company of this city. By investing in shares in this institution, which is backed by some of our best and most reliable business men, it becomes possible and comparatively easy for a man of moderate means to secure a comfortable home for himself and family. In taking a certain number of shares, at a certain monthly payment, in a few years a man can own a house of his own for about the sams as he pays monthly for rent. We believe the Mercantile Loan and Trust company, by organizing and opening up for business, having filled a long felt want in Council Bluffs. Their dozen.
