## CITY IMPROVEMENTS.

Views of City Engineer Rose water.

Embodying the Reasons Why the \$100,000 in Bonds for Sewer Purposes Should Mayor Boyd is right, and I am willing to concede that, all things considered, Be Issued.

Some Facts and Comparisons With Other Leading Oities.

A Prophecy That Did Not Come to was a suggestion as an additional Pass.

For the purpose of getting more fully at the reasons which have brought about the recommendations of the city engineer for certain improvements the coming year and their endorsement by the board of public works, a BEE reporter called upon City Engineer Rosswater and obtained from him the following explanation:

"In the first place," said the city engineer, "let us go back to the original proposition submitted to the people two years ago. Then there was Tais at present is \$7.200 000. Ten but one plan known to the public It per cent of this is \$720 000. This, was the construction of the storm \$233,005 that can be legally issued.

Water sewers in North and The \$100,000 of paving bonds now Omaha as originally deauthorized will reduce the available issue, under the present low valuasigned by Mr. Phillips in 1873. tion, to \$133 000 A possible modification of these plans was suggested by me then, as I thought we could economize by avoiding the construction of the large intercepting The comptroller's report of Kansas sewer along the east front line of the City for I881 showed a bonded debt of city, wiich was to connect the north \$1 300 000, and a taxable valuation of and south creeks near Jones street, about \$10,000,(0), or about 13 per and discharge them both through one cent, and a rate per head of popula outfall at or below the Union Pacific tion of about \$20. bridge. That plan would have cost a St. L uls has a bouded debt of over million dollars at least. In view of \$22 000 000 on an assessed taxable the indefinitences of any other-plan at value \$172,000 000, or 13 per cent, that time the proposition was and a rate or \$65 per head of papulaopposed by many who otherwise tion. Ceveland has a debt of over ould have favored the bonds \$8 000 000 on a valuation of about However, more than two thirds of the \$79,000,000, or a little over 10 per voters were willing to trust the mayor cont, and based upon population a formation and the coroner is left en- a degree of proficiency that would and city council with the execution of debt of about \$50 per head, now you tirely uninformed of the circumstances rank high even with the profession. this work on the most economical plan can see that Omaha's debt is about 5 and holds no inquest. If a little more then by economising time, without in care was exercised in this matter the the least neglecting his occupation as the advectors of the measure were say. ing of turther bridging expense in respect some of our people, have, in in the long run. north and south Omana, protection to my judgment, erroneous ideas on the life against zym tie disease, the im-influences that develop cities. east of Sixteenth street.

Reporter-You are opposed then upon it. I besteve if Mayor Boyd neat little parks, where persons can to the extension of the Waring sys City Engineer-No, not by any means; but everything has its time. as it was he was sick at his home when We have lived here for many years I left the plans and recommendations for the purpose except by such dona-without any kind of sewerageat all unit with him on the subject. Mayor thous of public spirited men, unless it finally scarcely a well could be found Boyd has always favored public imin central Omaha with fit water to provements. He pays over one, per drink. I personally know of one well cent of the entire texes of the city near the postoffice to which could and has more money proportionately be traced half a dozen cases of invested in large enterprises than any typhoid fever and one death. Now other one man in Omaha. The interwe have done away with all this by ests of Omaha in a large sense are sawering all that part of the city from his own. I am very much in-Casa to Howard street, east of the debted to his hearty co operation in bluffs. In doing this we have pro- the furtherance of public works gentected the thickly settled part of the erally. I believe if I had a fair op-city from the effects incident to foul portunity to present in detail all the water and sewerage accumulation, features of the work proposed as I and given them the much needed did to the board of public works he conduit facilities for discharge of would have given the large part of it of waste water of elevators, etc. The his support. The recommendations property back of the hills, and more as to paving, of course, I concede to remote from the business center is in his views, and if we issue the \$100, no special need of sewerage accommo-000 for sewerage we can at best only dations. In time they ought to have these tacilities extended, and, in fact, issue \$33,000 more for paving this season, as the present assessed valuation will admit of no further issue. I do not know but even now an extension of the Waring system to the extent of say \$15,000 worth might be

PUBLIC IMPROVEMENTS.

What is in Contemplation for the Coming Spring.

Much activity in building is looked for this spring among other "prospect

work" being the following: The Union Pacific additional head quarters building, ground for which will be broke early in the spring.

The Lutheran church, Harney and the base of bluffs through sewers in

Sixteenth streets. The Garneau cracker factory.

order to better proportion gutters L. V. Morse's three brick store, 44x 50 feet, on Fifteenth street, adjoining of the north and south a wers the Capitol avenue. These will be three estimates show that only \$40,000 will stories high each. The second and be needed for them and when that is third floors are designed for French done we will practically need no more flats.

bridges in north and south Omsha, Roswell Smith's two brick stores have street facilities full width and as two stories high each, on Fifteenth I believe, the work will enhance the street and Capitol avenue. The second value of property in those districts floors of these will be built for French sufficient to raise the assessment list flats or for offices.

in itself so that the tax on the advanced John D. Creighton and John A values will pay the interest of the McShane, the two brick stores, two additional bonds to be issued. Out stories high each, on Forteenth side of all this I consider the work street, opposite the Paxton hotel. proposed ought to be done if for no
