KNIGHTS OF LABOR.

What They Are and What They Propose to Do.

An Interview With a Member.

A member of the Knights of Labor

in this city called on us a day or two

ago. In talking with him we learned

very much of this comparatively new

organization. It was started in the

east but a few years ago, by some

workingmen who thought that the

time had come for a labor organization

not so much to resist the encroach-

ments of capital directly, as to advance

educational, social and moral growth

in their ranks. Their number is al-

ready over 200,000 in America, and

the increase is more rapid now than

ever before. In Council Bluffs they

are more than 100 strong from a

nucleus of a dozen a year ago last

November. While they are not a political

organization and do not allow candidates

to be personally discussed in their meet-

ings, yet to consider and debate mes-

sages and issues of a political character

is one of the chief objects of their

gatherings. Education in its broadest

most catholic sense is their watchword.

To elevate labor and the laboring peo-

ple is their legitimate work and aim.

Their form of government as simple

and democratic. Each separate asso-

ciation has the administration of its

own affairs almost entirely in its hands

saving very low dues to the state and

district organizations—enough for

economic running expenses—the

amount of money to be raised and the

manner of its expenditure is deter-

mined by each individual society. It is

not a secret society—Roman catholics

and do belong to its ranks without

violation of church vows or, so far as

can be ascertained, opposition from

their clergy. Nevertheless, members

do not reveal their officers, their pro-

posed line of action, or the minutiae of

their constitution and by-laws to those

outside their membership. None but

those connected are present at the

meetings. Three fourths of the mem-

bers must be actual wage workers,

the other fourths may belong to other

classes. Women as well as men can

and do belong, and our informant told

us that at Ottumwa was an exclusively

women's organization. In the asso-

ciation in this city women and men

are included. Over \$400 has been

spent by this society in fitting up

conveniently and neatly their hall, and

\$100 has been paid for lectures.

Practical temperance is upheld and

assistance in obtaining employment

rendered.

We were informed that sharp

opposition from employers had been met

in many places. In Ohio, at the time

of the inception of the league, the orga-

nizers were in many instances dis-

charged for no other reason than their

participation in the matter. Even

here in Council Bluffs coercion has

not been entirely wanting, but the

steady increase of the order goes on,

and "it is only a question of time,"

said the member from whom we ob-

tained these facts, "when all laborers

will be anxious to share the benefits

of the organization."

question takes in the cemetery and rail-

road depot.

A bed of red ochre five feet thick is re-

ported from five miles northwest of Du-

buque. An expert pronounces it worth 25

cents per pound.

The Des Moines Register sees a building

boom coming. It gives a list of new build-

ings projected or under contract, that

total up \$835,000.

A saloon license costs \$600 per year in

Burlington, and the ordinance further

provides that the saloonist shall be a person

of good moral character.

The Burlington Hawkeye points with

pride to the fact that since September

there have been seven failures in Keokuk,

aggregating \$191,000.

The coal fields along the line of the

Wahash below Des Moines are to be de-

veloped during the coming season. Suf-

ficient capital is assured.

During the thunder storm on the morn-

ing of the 20th the court house at Cory-

don was struck by lightning, doing con-

siderable damage to the building.

The Des Moines board of education has

decided it has no right to submit the ques-

tion as to whether German shall be taught

in the schools to a vote of the electors.

The Eagle Iron works at Des Moines

has been sued by H. W. Putnam, a Ver-

mont man, for infringing on his patented

wire machines. He lays damages at \$30,-

000.

Audubon county folks think of building

a court-house. The county building now

in use is leased from private parties at

\$1,800 per year, and isn't much of a build-

ing.

The Cramer house at Albia burned on

the 18th. An engine sent from Ottumwa

arrived too late to be of service. The hotel

was valued at \$7,000. Mostly covered by

insurance.

Saved from the Grave.

Mrs. Nancy J. Smith, of Eastland, Tex., writes

—"I was terribly afflicted with Kidney Disease

and Dropsy, having suffered for over three years.

I employed the best physicians in this country,

and obtained no relief, but was getting rapidly

worse. My family and friends had lost all hope.

My son happened to read your advertisement of

Hunt's Kidney, and procured the medicine for

me. I began to take it, and it worked like a

charm. After taking several bottles, I became

entirely well. I am indebted to Hunt's Kidney

for saving my life; and it had not been for

your medicine, I am truly would have been in my

grave to-day."

Internal Revenue Department, Washington,

D. C.

Mr. Stephen A. Allyn, Washington, D. C., says:

—"I am a member of my family having been troubled

for several years with Kidney Disease, and, after

trying numerous remedies and in those of treat-

ment with a declining relief, the was induced

to use your Hunt's Kidney, and after a rough

trial the fact became completely known. Knowing

the facts in this case, I cheerfully recommend it

to any one afflicted with disease of the above

nature."

Acts Like a Charm.

"I have used Hunt's Kidney for Kidney trou-

bles, and recovered it to its normal state, and found

it to act like a charm."
