

INFIRMARY OF

DR. A. J. COOK,

COUNCIL BLUFFS,

IOWA.

CHRONIC DISEASES!

Diseases of Women and Diseases of the Rectum a Specialty.

The Dr. has been located in Council Bluffs nearly two years, and having been called professionally during that time into the best families in the city and surrounding country, takes pleasure in an announcement that he has come to stay.

SPECIALTIES.

It must be evident to every close observer that no one mind, however gifted, can grasp more than a mere smattering of medical sciences. The field is too large and the natural divisions too numerous for anything more than a cursory view of the vast obstacles to be encountered by the "general" practitioner.

CHRONIC DISEASES.

The Dr. does not pretend to cure ALL chronic diseases. He claims, however, that years of patient study and practice, in the hospitals and elsewhere, give him advantages in their treatment which no ordinary practitioner can possibly have; that he CAN CURE many cases now pronounced INCURABLE by them, and give relief to hundreds of others whose diseases come within the range of his SPECIALTIES.

DISEASES OF WOMEN.

This is one of the SPECIALTIES to which the Dr. has devoted the best years of his life, and hundreds of women, now living, are ready to testify that they found relief at his hands when others had failed to benefit them. The "family" physician cannot treat these diseases successfully, for many important reasons, chief among which is, that he has not the time to devote to their study, nor the patience to do them justice. Nor

EPILEPSY.

Many cases of Epilepsy, or "Fits," should be expected of him, in the absence, perhaps, of special training and experience, and in the hurry and excitement of general practice. The Dr. is prepared to treat all female diseases in a skillful and scientific manner, having devoted several years to their study and treatment, both in the hospital and in active practice.

TAPE WORMS.

These troublesome parasites can be removed in a few hours, with but little inconvenience to the patient. The Dr. will send medicines by express, with full directions for use, at any time they may be ordered. The Dr. makes no promises but what will be fulfilled to the letter. If he examines you and finds your disease incurable, he will tell you so in plain words; if he finds you can be benefited he will treat you for a moderate fee and give you the benefit of all that medical science can do for your case. This is all that any careful

practitioner should promise his patients—it is all he CAN promise them and he honest.

Parties visiting the city for the purpose of consulting the Dr. should come directly to his office, where the best references in the city will be furnished when desired, and where patients will also be assisted in procuring board and rooms at reasonable rates.

country are pretending to do so, to the cost and injury of their patients. LIGHT AND DARK. A glance by Gaslight at the Recreations of the American Metropolis—The Panel Game—Harry Hill's.

twinkling eyes take in every detail of the business, every move of the inmates, nothing escapes him, and those who would fool "Harry" have got to be sharp indeed. Probably no sporting man in the country enjoys a better reputation, among those who know him, than Harry Hill.

"Conqueror of all Life's Woes." Mrs. A. W. HOWLAND, of Providence, R. I., says: "Deeming it my duty to suffering humanity to inform all who are afflicted as I have been of the safe and sure Remedy which, by the blessing of a kind Providence, has restored me to health, with deep gratitude I wish to acknowledge the great benefits that I have received from the use of the most valuable medicine that I have ever seen."

Some thirty years ago there lived in Monticore, Ala., a young man who was terribly afflicted. After being treated for a long time by the best medical profession of his town with no benefit, he commenced taking S. S. S. After persistently taking it two months he was cured. Being so acquainted with him for the disease never made it return. J. W. Bissler, J. E., Hot Springs Ark.

REMARKABLE! KANSAS CITY, Mo., Sept. 20, 1882. I think it a duty I owe to humanity to say what your medicine has done for me. One year ago I contracted a bad case of Blood Disease, and not knowing the result of such troubles, I allowed it to run for some time, but finally applied to the best physician in this city, who treated me for six months. In that time I took over 600 pills of various kinds, but finally I was cured by S. S. S. I have never since had any return of the disease, and I can now take long walks without being tired, and am full of all those appetites, sleep well, and am rid of all those aches and pains from which I suffered so long. I most cheerfully recommend Hunt's Remedy as a safe and reliable cure for Kidney Disease, and it is the only medicine I have ever found that does exactly what it is advertised to do.

WORKING THE PANEL GAME. Passing through Houston street we notice on either side of the street cigar stores. There is nothing particularly noticeable in their appearance, but we betide the poor, unphilosophical wight who enters one of them and exhibits a roll of bills or any valuable. These places are really all kept by negroes. If a man worthy of attention appears, the proprietress calls from an inner room a white woman generally a woman of voluptuous figure and demure (hair), who sells the cigar and then by her wiles endeavors to induce her prospective victim to go into the back room with her. Should he do so he parts with his wealth.

PERSONAL. Parts of the human body can be developed to a surprising extent. It is an interesting advertisement long run in the paper. In reply to inquiries we will say that there is no evidence of humbug about this. On the contrary, the advertisements are very highly indorsed. Thousands of persons say they get such results by addressing Eric Medical Co., P. O. Box 515, Buffalo, N. Y.—Toloso Evening Bee, April 1, 1891.
