WIGGINS' almanacs are now at a discount, and the prophet has gone to meet Venner.

PARTIES may make their nominations but voters who refuse to be the slaves of party will elect the successful candidates.

THE woods are full of candidates for city offices, but it does not need a thirty-inch refracting telescope to see who will not be the people's choice for mayor.

Two hundred Irish girls have left Limerick for New Hampshire. This is a waste of valuable raw material.

PUBLIC improvements and local taxation are ventilated in an interview that appears on our local page. The Bee has long since called attention to the recklessness of assessors in undervaluing real property and the necessity of equalizing assessments on a uniform basis.

ACCORDING to Dr. Gere the associated monopoly that furnishes the Herald and Republican, of Omaha, and Journal, at Lincoln, with telegraphic reports, is a private club gotten up for mutual exchange of local news.

THE Bee is not in favor of high city and county taxes, but it is in favor of making those who own property pay their just proportion of taxes.

THE flood in the Mississippi valley has done an immense amount of damage, but the loss to property seems to have been exaggerated.

THE more Informer Carey's story is examined the more improbabilities are discovered in his assertions.

DR. MILLER, who ought to be authority on such subjects, says that "beautiful abortion," the new telegraph law, was referred to the committee of which Senator McShane is chairman.

REDUCING THEIR WAGES.

The iron and steel monopolists, who for over twenty years have flourished and grown fat from the national bounty in the shape of an exorbitant tariff protection, are about to celebrate their defeat in the last congress by a general reduction of the wages of their employees.

LABOR is always the first element in production to feel the effects of a depressed market and the last to experience the benefits of prosperous times.

With seven-tenths of the benefits of tariff protection accruing to their own interests, the average of wages paid to their employees, for whom the heavy duties were piously demanded, has been a trifle more than a dollar and a half a day.

THE cry that wages must be further reduced is intended for political effect. There is no reason to suppose that profits will be any less during the coming year than they have been during the depression of the past year.

THE Chicago Tribune claims that railroad regulation failed in the Nebraska legislature as it did in New York because the anti-monopolists attempted to go too far.

THE Tribune has been misled by its Nebraska correspondent. Railroad regulation on the Illinois plan was an impossibility.

DR. MILLER, who ought to be authority on such subjects, says that "beautiful abortion," the new telegraph law, was referred to the committee of which Senator McShane is chairman.

THE right of appeal was guaranteed to both shippers and corporations by the law. In this respect the Illinois law possessed no advantage over the measure which to anti-monopolists sought to enact in Nebraska.

THE people of Omaha are quite indignant over the fact that the board of public works of that city has been legitimated out of existence by the passage of an apparently innocent bill during the session of the legislature just closed.

LABOR is always the first element in production to feel the effects of a depressed market and the last to experience the benefits of prosperous times.

ACCORDING to the New York Tribune Kelfer, "being a republican mistake, is in no danger of being repeated."

Judge Post for collector. That takes us by surprise and who in this fore ordination business is to take Post's place.

IT is true that "the voice of the people is the voice of God," would it be impertinent or presumptuous to say, that in the appointment of Judge Morris, Governor Dawes had shaken his fist in the face of the Diet?

THE Chicago Tribune claims that railroad regulation failed in the Nebraska legislature as it did in New York because the anti-monopolists attempted to go too far.

THE Tribune has been misled by its Nebraska correspondent. Railroad regulation on the Illinois plan was an impossibility.

IT is a mistake to ask a precocious child to show off before company. A gentleman who was dining with his family at a friend's table, where a number of invited guests were present had a bright little daughter who, as soon as the host had asked grace, said:

ON the new nickel, the goddess of liberty has hair arranged in bangs. This effort on the part of the Government to make bangs a legal tender for all debts, public and private, will never be countenanced by the people.

THE sidewalks of Falls City are in a frightful condition, and the local papers are urging the city council to take some steps to repair them.

W. B. Bishop, an extensive stock dealer near Wynne, has sold his ranch land to some eastern parties for \$38,000.

A Chicago banker has bought a large tract of land in Saunders county, near Wahoo, and will place a large number of cattle on it.

THE 64th anniversary of Odd Fellowship in America will be appropriately observed in Pawnee City.

THE Swedish Lutheran church denomination have decided to build a college and it will be located at Wahoo.

A number of farmers in Illinois and Iowa have sent to Nebraska for seed corn, stating that it is the best.

A number of improvements are progressing at Atkinson and a number more are contemplated.

NEVER was such a rush made for any drug store as now at C. F. Goodman's for a Trial Bottle of Dr. King's New Discovery for Consumption, Coughs and Colds.

WHY Schoolma'ams Do Not Marry? A school officer the other day said to a New York correspondent of the Buffalo Courier: "Few teachers die, none resign and hardly any get married."
