EPPS'S COCOA. BREAKFAST.

"By a thorough knowledge of the natural law, which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-s-lected Cocca, hir. Epps has provided our breakfast tables with a delicately flavored beverage which may save as many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maiadies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.

journment, mayor and five councilmen Bitters are good or not. I know they being present.

Bitters are good for general debility and indi-

cial dancing-master, which is euphoniously styled the "dark-wal zrqueeza"
The seductive feature of this waltz is that it is performed at a critain stage of the dance when the lights are wholly extinguished. The professor, before venturing to introduce this trifling innovation, took a vote on the subject, on which occasion, and for the purposses of that time only, the ladies were vested with their "rights" and did all the voting themselves. The "dark-waltz squeeze" was adopted with considerable enthusiasm and the dance went on. At the appointed time the gas was turned off, and the make assurance doubly sure the supply pipe in the basement was closed. This, to quote an expressive phrase used on the coassion, was to make sure that there should be no "monkeying" with the sion, was to make sure that there should be no "monkeying" with the will of the people "expressed at a free and fair election." The dance was performed, but as to whether everything was conducted decorously the chronicler was unable to throw any light on the subject. Indeed, there was no light. Now Marshaltown is in the throes of a bitter controversy respecting this performance. One of the newspapers of the town has nailed the anti-dark waltz squeeze flag to its masthead and proclaims its purpose to stand by its colors to the bitter end and to the last extramity. Another journal, which evidently believes in the capacity of the people for self goverament, and especially in the right of women, takes irsue with its "loath-some, contemporary," and defends, as in dury board. in duty bound, the sacred privilege of its fair neighbors to waltz in the

pathameter of the section dark if they want to, and this, too, without having their motives questioned or their names draug d before the public. It does not believe that the accident of a constion of light in a hall where Marshaliton belles are dancing would endanger the good names of the revellers. It takes high ground in defence of the sex. The question has been referred to the society authorities of Chicago, and nothing short of the approval or condemna ion of the darkwaltz squeeze that high tribunal will allay the fierce spirit of scotal strife in
