

The Daily Bee.

OMAHA.

Wednesday Morning, March 14.

Weather Report.

(The following observations were taken at the same moment of time at the stations mentioned.)

Table with columns: STATIONS, Barometer, Thermometer, Direction, Force of Wind, State of Sky.

LOCAL BRIEFS.

The roof of the U. P. depot is receiving a new coat of paint. The ice bridge at Blair has been abandoned and the transfer boats are running again.

20, and Alleman lodges, also all other Odd Fellows in the city are earnestly requested to join us. M. H. Carleton, secretary.

At the invitation of Dr. Mercer, the faculty of the Omaha Medical University, assembled at the Millard Monday to participate in a banquet given in honor of Dr. G. W. Broom, of St. Louis, who arrived in the city Monday morning.

—This weather will make the crop of snakes thrive and increase. —Little Minnie Mardden appears at Boyd's Friday and Saturday.

—On the first of April the assessors will get their books from the county clerk. —Superintendent Pierce, of the county farm, set his insane wards to gardening yesterday morning.

—The next attraction will be where to get the best Easter Cards. Just stop at Hoop's Art Gallery and see the best variety. m13 2t

—A general meeting of Divisions No. 1 and 2, of the Ancient Order of Hibernians will be held on Friday, the 16th inst., at 7:30 p. m. sharp.

—Mr. E. C. Erling, the Sixteenth street florist, left on the Bee reporter's desk today a beautiful specimen of the Cineraria, or Easter Flower, now in full bloom, its broad leaves and lovely purple flowers make it a beautiful ornament.

—M. O. Gruver, clerk in the office of superintendent of motive power and car departments of this city, and Miss Lizzie F. Brockway, of Laramie, are to be married at Laramie, at the residence of the bride's parents, today, Mr. Gruver left for Laramie on Sunday. They will make their home in this city.

—The county commissioners Monday opened the bids for the construction of the new bridge at Millard, and awarded the contract for the same to William Van Boren. Action on the bids for removing the Sixteenth street bridge to Florence is postponed to await the action of the city authorities.

—Charlie Godfrey, for many years prominently connected with the Omaha fire department, from which he was called to take the position of chief engineer of the Lincoln department, is up on a visit and will remain over until today. He is looking well and is warmly greeted by his many friends here. He has great faith in the future of his adopted city.

—A drunk man on south Eighteenth street yesterday fell from the sidewalk to the bottom of the ravine north of the Union Pacific track. Quite a number of people saw him take his inebriated tumble and set up a laugh, not caring evidently whether his neck were broken or not. Our good Samaritan, however, helped the somewhat sobered drunk out of the mud and led him away where whiskey is not sold and the laugh of the vulgar is not heard.

—Charles Jones broke jail at Plattsmouth, Neb., on the night of March 9, 1883. Five feet eight inches tall, weighs 135 to 140 pounds, black hair, whiskers three weeks' growth, small sandy mustache, twenty-two year old, narrow thin face, high forehead, black soft hat, narrow rim, grey coat and pants, dark vest, large, grey, sack overcoat, boots with tops cut off, also rubber boots, no money. Crime, horse stealing.

—There are still many desirable estates left for Emma Abbott to-night. —From Grand Worthy Chief Sibley, of the Good Templars, it is learned that the amendment association, organized a short time ago for the purpose of raising a fund of \$50,000 to carry a prohibition amendment, has sold 1,000 of its 10,000 shares, and the association feel confident that they will have no trouble in disposing of the whole number. Mr. Sibley has lately appointed a Scandinavian deputy to work among his countrymen, and the order has a movement on foot to place good temperance literature in the hands of the Germans of the state. A special effort will be made to affect this class, who have acted heretofore almost as a unit against prohibition.

Real Estate Transfers. The following deeds were filed for record in the county clerk's office March 12, reported for THE BEE by Ames's real estate agency: F. Schlutz and wife to H. Simonson, w. d., lots 1, 2, 3, Millard, \$175. J. Nelson and wife to Thos. M. Schacht, w. d., part lots 5 and 10, block 11, Millard, \$50.

U. P. R. R. to P. Steel, w. d., parcel section 9, 16, 9, \$200. J. H. Kilmer to U. W. Lane, w. d., \$200. J. H. Kilmer to U. W. Lane, w. d., \$200. J. H. Kilmer to U. W. Lane, w. d., \$200.

Down at the Water Works yesterday an additional sixteen inch pipe was being laid into the Missouri. There has been but one pipe to the river since some time before the ice broke up. The engineer informed us that the cause of the discoloration of the water for the past few days was the muddiness of the river, and the fact that the usual time for settling had not been given, as they had only one pipe to pump through.

Parties who called on last Friday to look at the beautiful Easter cards at Kuhn's drug store supposed that they had cards enough to supply the city of Omaha and two or three villages the size of Council Bluffs as well. Already they are out of some designs, which cannot be replaced, and all who desire their choice of this most elegant assortment will have to select their cards at once.

CITY COUNCIL.

The Oil Mills Side Track Still the Bone of Contention.

Appointment of Registrars for the Coming Campaign.

A Quantity of Unimportant Business Transacted.

The city council held its regular meeting last evening. The first roll call showed no quorum present, and after a second call the sergeant-at-arms was ordered to go for absentees.

A QUORUM was found to be present at the third roll call, as follows: Baker, Behm, Corby, Dallone, Herman, Leader, O'Keefe, Thrane and President Pro Tem. Kaufmann.

The journal of the last meeting was read and approved. PETITIONS AND COMMUNICATIONS. From the mayor: Approving certain ordinances. Filed.

From the mayor: Appointing the following registrars for the coming election: First ward, P. A. Desmond; Second ward, James D. Doherty, Sr.; Third ward, Henry M. Young; Fourth ward, D. C. Morrison; Fifth ward, Schuyler Wakefield; Sixth ward, Charles Perkins, Sr. Confirmed.

From the board of public works: In regard to the conditions of the curbing and guttering on Douglas street at various points. Referred with instructions to repair.

The plat of block 12 to Kuntz's third addition was approved. From the secretary of the board of trade: Requesting investigation as to the effect of the viaduct bill. Referred to the judiciary committee.

The report of cases in the police court for February was referred. Several bills were presented and referred.

From P. O'Malley and F. Fernandez: Requesting that grade of Cass street between Twenty-fourth and Twenty-sixth be established, etc. Granted.

The petition of A. L. Strang and 540 others, asking for the passage of the ordinance to build the track to the Woodman oil mills, was read and referred, and also the protest, several yards long, was taken from the table and referred.

From F. M. McDonagh: Asking that a 16 foot sidewalk be laid in front of No. 1412 Douglas street, "at our earliest convenience, as it is in a most scandalous condition and makes a most infernal racket whenever anybody walks on it." Referred.

From the city engineer: Reporting that he had made a survey of railway lines to ascertain the practicability of a railway under Sixteenth and Seventeenth streets, via the alley between Izard and Nicholas streets, to the Woodman oil mills.

To go under Seventeenth street it would be necessary to tunnel under the large sewer, the bottom of which is located about 21 feet above low water of the river. This would bring the track to an elevation of only six feet above low water mark, a depth at which it would constantly be under water. To bring the track under Sixteenth and rise to the grade of Seventeenth would involve a grade not less than 250 feet to the mile, which would be practically impossible.

In the opinion of the engineer there is no practical plan for a track to the oil mills except upon the established grade of the city. Filed.

The city engineer was instructed to employ a rodmán and ax-man for his work. Permission was given the republican city central committee to use the council chamber for a meeting this evening.

The complaint of Jane B. Dort as to the removal of sidewalk was referred to the judiciary committee. From E. D. Kitton and others requesting that no agreement be made with the county commissioners for the removal of the Sixteenth street bridge which may result in damage to property abutting on Sherman avenue. Referred.

The petition of H. W. Gray and others for side and crosswalks at the United States corral was referred. RESOLUTIONS. By Herman: Directing the construction of sidewalks on Fifteenth and Sixteenth streets. Referred.

O'Keefe: To grant the use of the council chamber to the new district judge for court purposes. Adopted. By Baker: Permitting S. T. Peterson to do some grading in Shin's addition. Adopted. By Baker: For street commissioner to put force at work to drain Saunders street near the bridge, one-half day's work. Adopted.

By Baker: City Engineer to make a profile and estimate of the cut and fill required to bring Sherman avenue to established grade. Adopted. By Behm: Requesting the Union Pacific company to widen Thirteenth street under their iron bridge to allow the construction of sidewalks there. Referred.

By Corby: To use some of the condemned pipe for drainage purposes on Farnam and Eighth streets. Referred. COMMITTEE REPORTS. On streets and grades: Recommending that N. J. Edholm be allowed to grade for sidewalk. Adopted. On streets and grades: Reporting an amended ordinance for the Woodman Oil Mills track, and recommending its passage. Adopted.

RAILWAY NEWS.

Meeting of the Colorado Pool in Omaha To-day.

The Warren Case Up in the District Court.

Union Pacific Grab Takes a Tumble.

The Colorado pool meets in Omaha today to transact certain routine business, none of which is of particular interest.

General Manager Potter, of the C. & N. P., arrived last evening and Vice President Touzalin and General Manager Dodge, of the Denver & Rio Grand, will come in to-day. Mr. Potter was met by a Bee reporter last evening, but was not particularly communicative on railroad subjects.

He was asked how soon the through business over the Q. and Rio Grand to Salt Lake would begin, but said he did not know and referred the reporter to Gen. Dodge for further information. This will be Mr. Touzalin's first visit to Omaha since his trip to Europe and he will meet many warm friends here.

THE WARREN CASE. The case of the State vs. W. W. Warren was begun in the district court yesterday, Judge Neville presiding. Danior, attorney for Warren and C. J. Green, appeared for the state and General Cowin and Mr. Webb for the defense. Warren is indicted on three counts, the first for swindling the B. & M. road out of \$225 under false pretenses; the second doing the U. P. out of the same amount and on the same game and the third for swindling Caldwell & Hamilton's bank out of \$815, all being on bogus road tax receipts.

Warren was brought back from California to be tried, and has been in jail for a long time. Yesterday was principally occupied in arguing a motion to quash the first indictment. In this it is alleged that he obtained money from the B. & M. railway under false pretenses, and the objection was that the indictment did not state that the B. & M. railway was "a corporation duly organized."

It was moved that further consideration of the ordinance be dispensed with and that it be made the special order for next Thursday evening. Carried.

A motion to adjourn was lost. An ordinance for grading Sherman avenue from Clark to Izard was read twice and referred.

An ordinance directing the curbing and guttering of certain streets was passed. Adjourned.

BRANARD'S BOOM.

Organization of a Presbyterian Church at That Place. On Monday evening, March 11th, Revs. Thos. C. Sexton, of Seward, J. H. Van Doren, of Raymond, and the Synodical Missionary for the State of Nebraska, Rev. Geo. T. Orisman, of Kearney, met the people of the live little town of Branard and proceeded to organize a Presbyterian church.

Rev. Thos. L. Sexton preached an able and interesting sermon from Galatians 2:20, to a large assembly gathered on that occasion. At the close of the sermon the synodical missionary proceeded to organize the church according to the form of this denomination. It is seldom that a new church starts off with the same vigor and promise of a grand success as the infant organization in Branard. The town is full of business and growing—its people intelligent and enterprising, and without claiming the merit of a Prophet we can speak assuredly of a good future for this new center of business.

SLAVEN'S YOSEMITE COLONGE Made from the wild flowers of the FAR FAMED YOSEMITE VALLEN it is the most fragrant of perfumes. Manufactured by H. B. Slaven, San Francisco. For sale in Omaha by W. J. Whitehouse and Kennard Bros. A Card.

OMAHA, Neb., March 13, 1882. To the Editor of THE BEE. We were informed this morning by Miss Fannie Washington that there was a colored man who went to Mrs. Ware's, corner of Nineteenth and Webster streets, collecting money for the A. M. E. church, and that Mrs. Ware gave him the sum of 50c., and he also said that others gave from 50c. to \$5. As we have said before there is no one authorized to solicit such subscription for the A. M. E. church of Omaha but the Rev. E. H. Mitchell, inside the city of Omaha and he has a receipt to give every person who pays cash, and we hope every one will take notice and see if the seal of the A. M. E. church is on the book of any one soliciting aid for our church in the city hereafter.

JOHN W. JOHNSON, THOMAS OMBRELL, E. S. OLENNANS, W. W. PORTER, PETER J. WILLIAMS, Secy. BENJ. MICHIEL, Pastor. [Please cut this out and keep it.]

BUSINESS CHANCE.

There is not a town in Nebraska which presents a better field for business men and capitalists than Bellwood, Butler county, as it has natural advantages with a very rich farming country around it. Extraordinary inducements are offered for a canning factory, also a creamery. m12 3me

METROPOLITAN HOTEL, OMAHA, NEB.

Tables supplied with the best of the market. The traveling public claim they get better accommodations and more general satisfaction here than at any other house in Omaha. Rates, 75c per day. aug21tfm
