THE BOND CASE.

TAYLORVILLE, Ill., March 20.—In her rational moments Emma Bond has confessed that she and her two masked men carried her from her sick room. From other evidence her father and physician are convinced that the abduction theory is the true one to prevent her appearance before the grand jury.

THE DEVILISH DAKES.

HARRISBURG, March 20.—The rubicon of the house judiciary committee decided to recommend the expulsion of Nicholas L. Dakes without a hearing on the ground that seventy-eight days of the session have passed and he has not appeared to take the oath. There is much feeling against Dakes. It is said he passed through the evening for Philadelphia to consult counsel in reference to taking his seat.

PREPARING FOR WAR.

KANSAS CITY, March 20.—A prominent stock dealer of Eastern Creek Nation, who left there on the 18th, reports that General Porter was preparing to leave Eufaula this morning at the head of 500 men to attack Spiechs at his camp thirty-five miles west of Okmulgee on the edge of the Sac and Fox agency. Spiechs's force is said to be about 250. A determined fight is anticipated as both parties have been reconnoitering preparatory to the encounter.

DAKOTA TERRITORY AFFAIRS.

It is understood that the administration does not regard with favor the condition of affairs in the territory of Dakota. It is reported that the aggregate amount of bonded indebtedness voted by the legislature this winter is not less than three quarters of a million of dollars. It is not believed that the imposition of such a debt is warranted in a single session for the purposes for which it was voted, and that such proceedings will prove in the future to be an obstruction to dividing the territory. It is liable to lead to trouble and may encourage a resort to secession, such as resulted from the division of the Virginia. It is reported to the views of the administration that Dakota should take no steps which may interfere with the division of the territory into three or four states. Should the people allow the legislature to involve their affairs so as

ment may be demonstrated, but if this cannot be done and done quickly I think the public welfare demands the government should interfere without delay.

Agent Townsend refers to the fact that armed men from both sides are riding hither and thither all over the country, and from reliable information he believes them to be without discipline and in a demoralized condition.

In conclusion he says, "At best it is a disastrous state of affairs and had enough if confined to the limits of their own reservation, but when a portion of them carry their campaign into territory not their own I think it high time some one should interpose and compel them at least to limit their hostile operations to their own country and their own people. This state of affairs affords excellent opportunity for many desperadoes who infest the country to commit depredations on all sides, and there are indications that they are not slow to take advantage of it and charge it all to the Creeks."

A DEAD LAW.

During the closing hours of the last session of congress a bill passed authorizing the postmaster general to reduce the salaries of certain postmasters, but the bill makes no preliminary provision for carrying out its requirements. It is said at the post-office department that the law cannot be executed without an appropriation of an additional force of clerks. It is estimated that the readjustment of salaries directed by the bill will require the expenditure of at least \$2,000,000.

STEAMER AHORA.

DAMARISCOTTA, Me., March 20.—The steamer City Point, of the Annapolis & Boston line, is ashore at Fenwick Harbor. She put in there on account of a storm and being short of coal. Her cargo consists of fish. Fifty passengers are on board. She is entirely out of water, the tide being low.

INDIANAPOLIS, March 20.—Charles Soehner, Sr., a prominent citizen of Indianapolis, died this morning, aged 65. Soehner was at one time civil commissioner of the grand duchy of Baden, the highest elective office in the duchy. He became prominently identified in the revolution of 1849, but on the overthrow of the revolutionary government his property was confiscated and he fled to America. General Hecker and other prominent revolutionists, he came to America and settled in Indianapolis. His body will be taken to Washington, Penn., for cremation in the Lemay's furnace, according to his wishes.

ANOTHER DISASTER AT BRAIDWOOD.

BRAIDWOOD, Ill., March 20.—Report was received here this morning that the ferry boat which runs across the Kankakee river at Wilmington, five miles from here, had broken in two and sunk with twelve passengers on board, all of whom were reported lost. The boat had just been launched and was pulled across the river by means of a wire cable and tackle. The current is very swift at this time of ice and the frail craft was unable to withstand the strain, and parted. Nothing further has yet been heard. LATER.—The ferry boat that runs across the Kankakee at Wilmington sunk in the middle of the river this morning with 13 passengers on board. The current being swift it was with difficulty the passengers were rescued. Latest reports say no lives were lost.

THE NEW YORK HOMICIDE.

NEW YORK, March 20.—George Conkling, who killed Haverstick last night, was arraigned in the coroner's office. He is gentlemanly in appearance, and bore himself with calmness and composure. The coroner will begin the investigation this afternoon. Conkling's counsel claim the shooting was entirely justifiable, and that the prisoner did it in defense of his sister and in his efforts to remove her from vicious surroundings, and would be sustained by the moral sentiment of the community. The counsel maintained that if Haverstick had only used his fists in the assault on Conkling the weapon would not have been brought into play. Mrs. Uhler, the prisoner's sister, became so hysterical after the shooting that she had to be removed to the hospital, where she now lies in an exhausted condition. In the afternoon the coroner empaneled a jury who viewed the body in Paris place, heard the statement of the officer to whom Conkling surrendered, and the inquest adjourned. Haverstick's brother arrives to-morrow.

ROW AMONG MINERS.

HALIFAX, Cape Breton, says since January the Lincolns mines, after a protracted strike, have been operated by non-union men. Yesterday eighty union miners came here, took charge of the town, attacked non-unionists returning from work, badly kicked the manager, engineer, blacksmith and others, visited the houses, broke the doors and windows, and dragged the men out. Five men were brutally beaten. The manager telegraphed Sidney authorities to send constables.

THE QUEEN OPENS THE FISHERIES EXHIBITION.

LONDON, March 20.—The queen opens the fisheries exhibition in person on the second day of May. A large employer at Birkenhead discharged all Irish workmen, declaring he would no longer disgrace himself by paying people who foster assassins.

THE STANDARD STATES ON GOOD AUTHORITY.

LONDON, March 20.—The Standard states on good authority that the cabinet are divided on the question of the construction of a tunnel under the English channel. At a meeting in Glasgow last night O'Donnell, the member of parliament for Dungarvan, in an address, repudiated the charges made by Forster against Parnell and the land league. He advocated the organization of the Irish in England and America for the attainment of Irish demands.

IRELAND.

DUBLIN, March 19.—E. Dwyer Gray, member of parliament, contributed £10 to the fund to relieve the Parnell estate from encumbrances. Piggott, proprietor of the Irishman, repudiates the statement of Patrick Egan that he (Piggott) wrote him threatening unless Egan gave him £300 pounds he would accept £500 from the castle officials and publish an article charging the officers of the land league with misappropriating funds.

RUSSIA.

ST. PETERSBURG, March 20.—Two dynamite depots were discovered here. Forty persons have been arrested. The week's arrests number 200, including pupils of the military schools and railway officials. The government resolved to expel all Italians without permanent occupation. Lieutenant Hunt passed through from Irkutsk where he left the bodies of Commander D-Long and comrades for transportation to America in the spring. The autopsy on Gortchakoff showed he was not poisoned. The student who attempted suicide in Bath last month confessed that the pills he took were those of the czar at a banquet and fete given by the Finland regiment. The student was present at the banquet disguised as a waiter. His coroner failed him, and knowing his fate from the nihilists, resolved to commit suicide. ST. PETERSBURG, March 20.—The governor of Moscow has received a letter warning him that Kremlin, where the czar is to be crowned, will be blown up during the coronation ceremonies if the czar refuses to grant a constitution.

GENERAL FOREIGN NEWS.

BERLIN, March 20.—Bismarck has granted 20,000 marks to assist the German firms competing at the colonial exhibition at Amsterdam.

BY HER MAJESTY'S APPOINTMENT.

King Ostaway, whose case she presented so feelingly to the English people that his visit to London and subsequent restoration to his throne were the consequences of her intercession. Returning to England she took up the cause of Ireland made appeal for its starving inhabitants and published pamphlets showing that the accounts of the Land League were in a most unsatisfactory condition. She was bitterly attacked by the Irish agitators. One of her conflicts with the League was this, described in The Herald November 9, 1882: "It should be stated that for some months past Lady Florence has been hard at work among the poor people on the western coast of Ireland, endeavoring to distress for which the money toward the Land League distress fund were long ago solicited and subscribed, but never applied. She has been also busy with her pen,

FROM LONDON.

A Herald correspondent interviewed with Lady Florence Dixie at her charming little residence, "The Fisheries," on the Thames, near Windsor, where she is staying with her husband, Sir Beaumont Dixie, and her brother, Lord James Douglas. Your correspondent found Lady Florence in the road, surrounded by gentlemen, with whom she was conversing. Her ladyship was dressed in a cardinal red, they, her dress, animated appearance and manner showing no traces of the severe and terrible ordeal which she had gone through with not 24 hours before. Lady Florence gave your correspondent the following account with the utmost frankness: "I returned from Ireland six weeks ago and came here for the purpose of retirement and quiet, as I have a great deal of work to do, though at this period of the year I invariably stay at our seat in Leicestershire. On Saturday afternoon at a quarter to five I ascended into the plantation which adjoins The Fisheries with my Mr. Bernard dog, and had reached the gate opening into Windsor road, when my attention was first attracted to a slender woman passing by. While looking after them and mentally remarking the fine physique of the man, I was addressed by what appeared to be two tall women, dressed in long cloaks of dark stuff and wearing veils, who asked me to tell the time. I replied that

I HAD NO WATCH.

upon me, and then turned back again into the plantation. I was about crossing the stile when I noticed that the women had followed me. This aroused my suspicions, as the grounds were private, so I faced them to meet them. I had scarcely done so when one seized me by the throat and struck me violently on the head and threw me on the ground. I called loudly for help, when they pushed clay into my mouth. I then saw by their clean shaven chins that they were men in the disguise of women's apparel. While prostrate I saw the other man raise a knife and aim a savage blow at my right breast. The knife struck the steel ribs of my corset and glanced off. Without uttering a word he again made a stab which I caught in my left hand. I remember seeing him raise his hand to strike another blow, which I received in my right hand. I also remember hearing the noise of a cart in the road and seeing my dog fly at the man. I then saw another man come to my rescue an hour after and

FOUND MYSELF LYING.

in the same spot where I fell. I got up and walked back to the house, and told my husband and brother of the terrible outrage. They at once departed for Windsor to lay the account before the authorities." To the noble animal of the St. Bernard breed Lady Florence attributes her marvelous escape from the assassin's knife. It is presumed that the dog followed the would-be murderers for some distance, as it returned to the house after the arrival of Lady Florence. The queen has requested that a painting of the dog be done for her. Detectives have taken the corsets worn by Lady Florence, which suffered no injury beyond a slight scratch from one of the stabs, which, after glancing on her corset, just penetrated her chemise, and the London Bank of America and South America offered assistance, which was declined. To-day the clerks were paid and confidence restored.

A MONEY SCARE IN MEXICO.

MEXICO, March 20.—The money market is stringent. Last week the large hardware house of Martin & Sons suspended, causing some uneasiness. Saturday the government clerks were not paid. Rumor said it was owing to the embarrassment of the National bank. Yesterday there was a run on this bank and \$350,000 withdrawn. Commercial houses and some banks of Mexico and Central and South America offered assistance, which was declined. To-day the clerks were paid and confidence restored.

THE CHINESE IN LOUISVILLE.

LOUISVILLE, March 20.—Wah Lee, Chinese laundryman, and Dr. Roy Tallapoly, Hindoo physician, claiming to be of Brahmin caste, had a difficulty which led the two into court on cross warrants. The Hindoo swore the Chinaman kept an opium den and house of ill repute. The Courier-Journal and Commercial published accounts of the same which unique trial. The argument to-day when Wah Lee filed libel suits against each of said papers, claiming damages at \$3,000.

THE CANADIANS ANXIOUS.

OTTAWA, March 20.—In the common sense of a reciprocity treaty with the Hawaiian Islands, supporting it in a short speech. His principal grounds for advocating such a reciprocity was that formerly a large trading was done between British Columbia and the Sandwich Islands, but since the United States had established reciprocity trade relations with the islands British Columbia's trade had fallen off almost to nothing.

FIVE MEN DROWNED.

BALTIMORE, Md., March 20.—Last Thursday night the puffers Jasper and Industry collided and the Jasper sank. The night was so dark that no assistance could be given. In the morning the captain and two men were found lashed to the rigging and one of them frozen to death. Four others who were not lashed were drowned.

DENVER BANK BROKEN.

A CHALLENGE FOR A ROW.

TORONTO, March 20.—Hanlon declines to row Ross in maritime waters, but will meet him in the bay between Toronto and St. John. Hanlon rowed \$500 for expenses in a \$1,000 race out of all proportion, and proposes neither to give nor take. Hanlon calls upon Ross to cover the \$500 deposited.

AND HAS PUT SOME QUESTIONS AS TO THE DISPOSITION OF

THOSE LAND LEAGUE FUNDS, to which the trustee and the treasurer, to use her own words, "dare not give her a candid, truthful or straightforward reply." She has also committed a grave offense against the language by audaciously writing and circulating an address to the tenant farmers and people of Ireland, with advice and warning, in which she denounces the land league and calls upon the people to demand a financial statement of its expenditures. Messrs. Parnell & Co. being unable, as Lady Florence contends, to give her a straightforward reply to her questions, have sought by a very cowardly means to discredit her in the eyes of the Irish people.

THE MILK WAR.

BOVINCLEA, Toddy On a Bender. Boston, March 20.—The New England Milk Producers' association discussed their grievances against the Boston contractors and inspectors, and charged adulteration by the middlemen. The price was fixed at 35 cents per can (3 1/2 quarts), on the cars. The contractors assert that 33 cents is all they can pay. A "milk war" is probable.

PORT JERVIS, N. Y., March 20.

The milk war is unabated. At Otisville, Eowalla, Middletown, Hampton, Gosheim, Chester, Oxford, Monroe and Farmers shipments are practically stopped. Crowds of farmers and others surround the stations. The first few took milk had it spilled. The remainder took it home. The supply on the branches is also greatly reduced. The total reaching Jersey City over the Erie was nearly 2,000 cans short. Fifteen hundred dollars was subscribed by Newburgh to aid the farmers, and \$5,000 promised. If wanted, the dealers surrender the milk supply will be further reduced to-morrow.

RELIEF FOR DISTRESSED IRISH.

NEW YORK, March 20.—Rev. Lawrence Walsh, treasurer of the Irish National Land League, to day cabled \$30,000 for the relief of the victims of the famine in the west of Ireland as follows: To Bishop of Meath, \$10,000; Ballaghaderreen, Mayo, \$1,000; Archbishop McEvilly, Tuam, Galway, \$500; Bishop Duggan, Loughrea, Galway, \$500; Bishop Lough, Letterkenny, Donegal, \$500; Bishop Conway, Ballina, Mayo, \$500. Two weeks ago Rev. Mr. Walsh cabled \$500 to Bishop Duggan, \$300 to Bishop Lough, and \$300 to Father Gallagher, Glen-colm, Donegal. Walsh cabled Parnell that his presence at the Philadelphia Land League convention, the 26th of April, was imperatively demanded.

THE SPRING CAMPAIGN.

The Municipal Contest in Chicago Growing Warmer Every Day.

Spread Eagle Harrison Calm and Serene With a Divided Opposition.

Rhode Island Democrats Shout for Bill Sprague.

A Merited Endorsement.

PROVIDENCE, March 20.—The democratic state convention this morning nominated Wm. Sprague for governor by a rising vote. He was appointed to confer with the committee of the independent or Sprague convention held last night relative to filling the remainder of the ticket. Committees were also appointed on resolutions to invite Sprague to accept the democratic nomination for governor. After recess the committee on resolutions reported it inexpedient to present a platform at this time. The convention then adjourned.

CHICAGO POLITICS.

CHICAGO, March 20.—The republican city primaries occur to-morrow, and the convention Thursday to nominate a candidate for mayor and other municipal officers. A mass meeting of citizens, without reference to political faith, was called and a committee appointed to nominate a full independent ticket. After L. J. Leiter and Judge Tuley, on the circuit bench, both democrats, declined, Richard T. Crane, a republican was named for mayor. The committee has failed to name the remainder of the ticket. A mass meeting held Saturday night to endorse Crane, was well attended and resolutions adopted in favor of the present city government. The Twelfth ward, the strongest republican ward in the city, declared for a straight party ticket. The opposition to Crane seems general. In the Third congressional district, where Crane has been prominent in supporting the democratic congressional nominee, republican papers are urging Crane upon the convention, but the opposition to him in the party is seeking to have E. B. Washburn or Ex-Mayor Heath head the regular republican ticket. Independent managers intimate that Crane will run whether endorsed by the party or not. Democrats are awaiting the action of the republican convention before placing a ticket in the field, but no one has been named for the head of the democratic ticket outside of Harrison.
