Oh, My Back!

That's a common expres-sion and has a world of meaning. How much suffering is summed up in it.

The singular thing about it is, that pain in the back is occasioned by so many things. May be caused by kidney disease, liver complaint, consumption, cold, rheumatism, dyspepsia, over-work, nervous debility, &c.

Whatever the cause, don't neglect it. Something is wrong and needs prompt attention. No medicine has yet been discovered that will so quickly and surely cure such diseases as Brown's Iron Bitters, and it does this by commencing at the foundation, and making the blood pure and rich.

Logansport, Ind. Dec. 1, 1880.

For a long time I have been a sufferer from stomach and kidney disease. My appetite was very poor and the very small amount I did eat disagreed with me. I was annoyed very much from non-retention of urine. I tried many remedies with no success, until I used Brown's Iron Bitters. Since I used that my stomach does not bother me any. My appetite is simply immense. My kidney trouble is no more, and my general health is auch, that I feel like a new man. After the use of Brown's Iron Bitters for one month, I have gained twenty pounds in weight.

O. B. SARGENT.

Leading physicians and clergymen use and recommend Brown's Iron Bit-TERS. It has cured others suffering as you are, and it will cure you.

Remarkable Improvement Samuel J. Tilden's Health.

An Allegiance Between Sammy and Roscoe Conkling.

The Old Man Ready and Anxious For the Battle-Curious Political Rumors.

New York, March 24 .- A special to The Times from Albany says: Reports have reached Albany within the last few days that fall upon the democratic ear like a voice from the tomb. cratic ear like a voice from the tomb. The fluttering among the party leaders who have heard the welcome or unwelcome news is an indication of the joy or the trepidation that will selze upon the rank and file of the democracy when the facts become more generally known. The tidings are that Samuel J. Tilden, the whilom sage of Gramercy park, but more recently known as the Hermit of Greystone, has got a new lease of life, and proposes to re-enter the political arena. Gentlemen who have visited Greystone during the last mouth are surprised and delighted at the marked and rapid improvement in Mr. Tilden's bodily condition and health. They say his voice is fully restored and is now clear and firm, his eye is brilliant and penetrating, his nerves are steady, his carriage erect, his tread almost O'Conor, and which has been wouch safed to so many deltingulahed men so tit he stributes his restoration to the stributes his restoration to the scaping from the jaws of death, dismissed his doctors, "threw physic to the dogs," and, retiring from the active duties and cares of the world, lived a regular methodical life, and allowed nature to recuperate.

MR. TIDEN
fully understood what he was about when he retired to his country home at Greystone and allowed it to be given out that he was no longer in the field of politics and might not much longer be in the land of the living. He desired to escape for a time from the politicians, and he succeeded. Many of them were foolish enough to interpret him literally, as they did at Cincinnati. These are the men who have been running around telling everybody for the last eight/months that "Tilden was no longer a factor in politics," that he "was little better than a corpse, and would nover be heard of any more." Some of them really believed it, but with more the "wish was lather to the theoreth". The heart of the politic of the corps and he was born. The hermit of Greystone heard their voices through his telephone, and was grieved to detect among the jubliant the tones of some who had always professed to be his warmest friends, but he allowed the jabber to go on while he smiled and regained his health. How quick these fellows will change their tone and swear they never said so when they behold Sammy's head looming up again above the political horizon.

They will find that the surviving "factors of the democratic narrhy hears and kicked you twice. Now what did the democratic narrhy hears and kicked you twice. Now what did the democratic narrhy hears are pludical offices in the United King-dom. His position on the bench be-terminated to the thought." The hermit dom. His position on the bench be-terminated at once and he was regarded as the greatest equity lawyer. The people of this place were astonished at an early hour this morning by the unusual sight of a crowd of small boys, numbering in all fifteen or twenty, parading the streets in a body, saluting each passer-by with the inquiry, 'Black your boots, bess?'' The boys claim that they left their homes in San Francisco four days ago, and have beat their way thus far on rail-road brake-beams. They also state that their destination is New York. and swear they never said so when they behold Sammy's head looming up again above the political horizon. They will find that the surviving "factors" of the democratic party have a lively "corpse" on their hands when the next presidential campaign opens. have understoo! the situation all the while, and have known the motives OCJECT OF HIS RETIREMENT, but the public generally have accepted the reports of the politicians as true, and have come to regard the "Sage of Gramercy Park" as a defunct politician, and almost a dead man. And yet there have been some misgivings about it when they read in the newspapers that Mr. Tilden was expending \$40,000 on a banquet hall in the Gramercy Park residence. Such extravagance appeared to the common mind uncalled for in the corpse of a bachelor and not in accordance with the usual prudence and foresight of Tilden if he was so near his end as reported. But the public will learn in due time that the \$40.

What he was willing to do in 1876 for republicanism he is said to be anxious to do now for revenge.

In any event it cannot be less than he has a right to expect from his own party in the future. Mr. Tilden is reported to have been led to the idea of re-entering the political arena not more by reason of his improved health than his great disgust at seeing the democratic party frittering away the great opportunities gained by the long than a great deal more humanity in the direction above stated.

Improved Farm Stock.

Western Agricultur'st. It is by improving the quality of the farm stock that the best results of the farm stock that the best results of feed, shelter, care and management of stock are to be obtained. Improved blood will give better and quicker profits than feed and care, but both should go hand in hand together. Therein lies the success of the present enthusiasm in stock breeding throughout the west. Only full-blood males are used by successful farmers, and the rapid grading up of the farm stock is being assisted by the quite general introduction of full-blood females, as men see and prove for themselves the men see and prove for themselves the practical benefits of improved blood.
