ceased.

James Knight, vice P. Hinchey, Eugene Pickard, vice J. Burke term expired. The communication asking for the paving of Sixteenth street was referred The petition of P. M. Lee and 30 others, to have the washout on Twenty-Second, between Cuming and Izard

from which the steam or hot water escapes if the attachments are broken off. It was then suggested that an inviting field was open to inventors, in the opportunity to pro luce some system of boiler fittings which would overcome this langer and diminish the terrible suffering now so often inflicted and enlured, and the awful agony which none but the victims can ever even aintly realize. This article was read by Mr. Mackeion and he at once aet about to solve she problem, the result of his efforts Metropolitan. being a complete success, for a year ago he received his patent for an "improved safety plug and valve for boiler fitting" which will probably ank next to the Westinghouse air brake in the list of railway inventions. It is not the purpose to attempt a description of the invention, but the Millard. it is very simple, works automatically and acts like a charm. Parton. Engine No. 146 has been fitted out Paxton. with one of these safety plugs and valves and on Saturday afternoon : est was made at No. 1 engine house in the presence of Chief Engineer town. Butler and others which proved the Paxton, practical working of the device. One of the appliances was put on the en tine and steam raised to 95 pounds. Mr. Mackedon's claim was that he Monday. ould knock the cock off with a sledge in the city. ammer close up to the engine and that ot a particle of steam would es-Monday. ape. He turned the cock several times etting the steam and water fly out, is in the city. o show that it worked freely and hat the valve was open. He then ook the sledge hammer and with a powerful blow broke off the cock close up to the bollor, as clean as a whistle. Sure enough not a particle of steam or yesterday. water escaped and it was as if the Hon. Ge Hon. Geo. W. Cassiday, M. C., from vifice had been hermetically sealed. Nevads, was a west bound passenge a ordinary cases such a breakage jesterday. vould have resulted in a terrible Seth P. Mobley, of Grand Island, an olume of steam that would have alded any one who stoed near. Jas, Fox, of the same place, are in the Chief Butler was astonished at the city. noccess of the experiment and cannot H. N. Nichols and W. E. Beach and wife, of North Platte, were in the city ay enough in praise of the invention ad none, even the most ignorant yesterday. R. M. Pederson, representing the Hampon such matters, could fail to under. and the principle and admit that it burg-American steamship company, [was one of the greatest achievements of in the city yesterday. he day in the direction of saving Mrs. Emma VanSickle, who has been uman life and suffering. In fact an visiting Mrs. W. F. Sweesy, of this city ogine so fitted out might pass through for the past week returned to Lincoln yescollision that would trim her clean terday. f all attachments, but if the boiler D. W. Church, of St. Joe, and Arthur comained intact not a living soul S. Patten, of Nebraska City, who are rould ever be scalded members of the river commission, are at Mr. Mackedon has as yet taken no the Millard. teps to introduce his invention to Mr. A. M. Henry, formerly a well public use, but will probably form a known Omsha lawyer, but who is now sompany at no distant day, and there located at Detroit, is in the city on a visit. ! no doubt but it must come into ceneral use and result in a fortune to He is staying at the Paxton.
