NO LILLY HAND IN HIS.

It has been the constant theme of the moralist and public adviser to talk and write of the dignity of labor, and the statesman when he wishes to reach the sympathy of the people, confines his praises of humanity to those "horny handed" individuals who contribute to the general stock of wealth, by its production.

When, however, the poet or rhetorician seeks to arouse the ambition or please the minds of hearers or readers, he speaks of the lordly superiority of manner, in one case, or the delicate complexion or white soft hands, in the other. This disposition to rhetorical display displays shows itself in a most unfortunate manner in the insouciant manner in which the commander-in-chief of the Grand Army of the Republic brings in his marked allusion to "the white soft hands" of loyal women. The loyal women of '61-'65 were not distinguished by their "white, soft hands," if the memory of those days serves the subscriber worth the price of a hard bluenit, and if the poor, stricken ones, widowed or orphaned, by a confidant took the tolling husband, father or lover took his memento, in hands hardened by honorable toil, and went forth to interpose his bosom, a bulwark, between the rights of the people and the attack of big-winged tyranny and and the encroachments of privilege; upon the perpetuity of free institutions and the equality of all men before the law. I say if they as a class had "white, soft hands," or have blushed or softened them since, they are an entirely new style of loyal and patriotic women.

No, indeed, the loyal, patriotic women of America are working-women, the wives, daughters or mothers of working-men, and not persons particularly distinguished by their seductive display of charms better adapted to the harem than practical every day American life. The old soldiers of the war were practical men who had hard hands, gave hard knocks and rejoiced in hard won victories, or died hard at the front in their achievement, and their survivors will go on the 30th of May each year while life lasts, to the graves of their know how to appreciate and with the help of the graves and recent the deeds and practical virtues of those who died in vain, if the results of their martyrdom are to be frittered away in the rhetoric of sensuousness or its object lost sight of or mistaken.

Yours practically, VETERAN.

THE BAD AND WORTHLESS

Are never imitated or counterfeited. This is especially true of a family medicine, and it is positive proof that the remedy imitated is of the highest value. As soon as it had been tested and proved by the whole world that Hop Bitters was the purest, best and most valuable family medicine on earth many imitations sprung up and began to steal the notices in which the press and people of the country had expressed the merits of H. B. and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums pat on similar style to H. B., with various devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what the style, or name is used and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of these. Using nothing but genuine Hop Bitters with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits!

MEMORIAL FOR THE UNMARRIED

One of the most solid and substantial institutions in this country is the Marriage Fund and Mutual Trust Association, of Cedar Rapids, Iowa. They are organized under the laws of Iowa, and their officers and directors are among the leading and most prominent business men of Cedar Rapids. Every unmarried person should have a certificate in this association.

It is a splendid investment, as safe as government bonds. You can have a good sum of money to commence married life on as yet. A large number of members have been paid off, receiving over 300 per cent on their investment. Write for circulars for details of the plan, which is the finest known. Do not postpone it. Good agents wanted. Mention where you saw this notice.

PIMPLES. Beauty Blemishes, Disfiguring Humors, Skin Tortures, and Impure Blood, and the Cause.

How They May Be Cured.

From New Remedies.

Socrates called beauty a short-lived tyranny. Plato a privilege of nature. Theophrastus a delightful prejudice. Car. needs a solitary kingdom, Homer a glorious gift of nature, and a glorious gift of the gods. Aristotle affirmed that beauty was better than all the letters of recommendation in the world, and yet none of these distinguished authorities has left us even a hint of how beauty is to be perpetuated, or the ravages of age and disease defied. Time soon blurs the lily and the rose into the palor of age, disease dots the fair face with cutaneous disfigurements, crimson the Roman nose with unsightly flashes. Moth, if not rust, corrupts the glory of eyes, teeth and lips, yet beautiful, by defacing the complexion, and fills the sensitive soul with agony unspeakable.

If such be the unhappy condition of one afflicted with slight skin blemishes, what must be the feeling of those in whom torturing humors have for years run riot, covering the skin with scales and sores, and charging the blood with poisonous elements to become a part of the system until death? It is vain to attempt to portray such suffering. Death in many cases, which we have witnessed, might be considered a blessing. The blood and fluids seem to be impregnated with a fiery element which, when discharged through the pores upon the surface of the body, inflames and burns until in his efforts for relief, the patient tears the skin with his nails, and not until the blood flows does sufficient relief come to cause him to desist. Thus do complexional defects merge into torturing disease, and plucked vanity gives place to real suffering. A little wart on the nose or face or cheek grows to the all-devouring lupus, a patch of tetter on the palm of the hand or on the limbs suddenly develops the body in its fiery embrace, a bruise on the leg expands into a gnawing ulcer, which reaches out its fangs to the sufferer's heart, in every part of the body, a small kernel in the neck multiplies into a dozen, which eat away the vitality, great pearl-like scales grow from little warts like inflammations in such abundance as to pass credulity; and so on may we depict the suffering to which poor human nature is subject from cutaneous diseases, all of which involve great mental distress because of personal disfigurement.

Every school girl or boy who knows that a pore in the skin in his or her face becomes clogged, a black head appears, and surrounding it a little pimple. If a dozen pores become clogged, there are a dozen black heads and pimples. So it is with eczema. In salt rheum, or so it is technically called, eczema, the cause of the disease seems to be in the blood, from the fact that the preparatory fluids which pour out through the tubes are charged with a poisonous element that creates the most intense itching and violent inflammation, and rapidly destroys the outer or scurf skin. This dreadful form of skin disease attacks all ages, and may frequently be seen fully developed in young infants at birth. In such cases it is often called milk crust, scald head, etc., but there is no doubt of its real nature, and that it is an inherited humor. If there were not another external disease known, salt rheum would be a sufficient affliction on mankind, and descends imperially through generations. While sores are constantly enveloped in it, others have it confined to small patches in the ears, on the scalp, on the breast on the palms of the hands, on the limbs, etc., but everywhere its distinctive feature is a small watery blister, which discharges an acid fluid, causing heat, inflammation and intense itching. Ring worm tetter, scald head, dandruff, belong to this scaly and itching order of diseases. Psoriasis, our modern leprosy, with its motes and scales, is situated on the red denuded skin, which bleeds upon the removal of the scale, is to be dredged and avoided, as of old. Lupus, the all-devouring ulcer, impetigo, barber's itch, erysipelas, and scores of minor disorders make up the catalogue of external diseases of the skin. Thus far we have made no allusion to those afflictions which are manifestly impurities of the blood, viz: swelling of the glands of the throat, ulcers on the neck and limbs, tumors, skin cancer, mercurial poisons, because the whole line can be comprehended in the one word "scrofula."

The hereditary blood poison of scrofula develops in the delicate tissues of the brain mental weaknesses and infirmities, idiocy and insanity. It enlarges the glands of the throat, impairs the sense of smell and taste, or breaks into consuming ulcers on the neck. It destroys the lungs, or fills them with tuberculous secretions. It eats away the coating of the stomach, enlarges the liver, clogs the kidneys, creates constipation and induces piles. The muscles it contracts and renders powerless with rheumatism, while the secretions of the joints contaminated by it cause the painful gout. It loads the preparation with its virulent poison, setting on fire in its passage the little tubes or pores of the skin, causing the torturing disfigurement salt rheum, psoriasis, and other itching and scaly diseases which embitter life. It gathers at morbid centers into tumors, abscesses, and life-appealing ulcers. It slowly undermines the constitution, and is the cause of nearly all chronic diseases.

The treatment diseases of the skin and scalp has been for centuries based upon a theory which has entirely overlooked the important part the tubes and vessels of the skin play in the propagation and maintenance of disease by pouring out upon the surface of the body purisary fluids charged with the virus of disease germs of scrofulous, inherited and contagious humors. We are not unjust to the profession when we say that it is efforts in the permanent cure of skin, scalp

CURE THE PILES TOO.

Edouard Reintard, of New York, writes:

It gives me great pleasure to say that a single box of HENRY'S CARBOLIC SALVE effected a complete cure of Piles, which I had been troubled with for over a year, and which nothing else that I used would cure.

Lawrence Barrett is said to be educating in Washington, under the care of Mr. Mack, a young lady of most excellent family and education, to join his company next year. It is Mr. Barrett's idea to form a company entirely composed of educated ladies and gentlemen, or, to use Mr. Barrett's own language, "introducing a HENRY'S CARBOLIC SALVE to the American stage."

We present no Pretended Miracle—"Truth is Mighty and Must Prevail."—No Sophistry can withstand the Power of his honest utterance.

Editor of Evening Press: DEAR SIR—Feeling deeply grateful for the great benefits which I have received from the use of a very valuable article which has its origin and home in our beautiful city, and hoping that other who are afflicted as I have been may find like relief from its use, I beg the indulgence of a few lines in your valuable paper for the privilege of communicating to you a brief statement of facts, for the benefit of the multitude of sufferers to be met with on every side. Many of my friends well know that I have long been severely afflicted with heart disease for a number of years, and have suffered from it as only those who suffer who have that disease; it reduced my strength so low that I could scarcely walk across my room, and the least exertion rendered me so short-breathed that I dared scarcely move, and life seemed very burdensome. I was treated for my malady by the best physicians, and derived no benefit from their treatment or prescriptions until I was advised by my family physician to use Hunt's Remedy, as my trouble was caused by indigestion of my kidneys, which affected very seriously my general health. I commenced taking (having little faith in it or any other medicine), and I felt a great deal better. I have been over a year and a half in the use of Hunt's Remedy, and have benefited me so greatly. My breathing is easy, and I have gained in strength so much that I can now walk across my room, and I have been able to do my usual work. I cheerfully recommend Hunt's Remedy to all who are suffering from general debility and nervous prostration. Respectfully, HENRY A. BOWEN, Providence, R. I.

A standard medicine for curing Bright's disease, Dropsy, Kidney, Bladder and Glandular Maladies is Hunt's Remedy. Female Weakness, Pain the back and loins, Gravel, Diabetes, Intemperance, Excess, and Prostration of the nervous system are cured by Hunt's Remedy. Hunt's Remedy imparts health and vigor to the constitution when it has become debilitated. Hunt's Remedy restores the invalid to health.

MAVEBICK NATIONAL BANK.

Cor. Water and Congress Streets. BOSTON.

CAPITAL - - - \$400,000 SURPLUS - - - \$400,000

Transacts a general Banking business. Receives the accounts of Banks, Bankers and others. Draws Foreign Exchange and makes Cable Transfers in Europe and Telegraphic Transfers of Money throughout the United States. Buys and sells Government and other Investment Securities, and executes any business for its Correspondents in the line of Banking.

ASA P. POTTER, President. J. J. EDDY, Cashier. J. W. WORK, Ass't Cashier.

and blood diseases have been a failure.

With mistaken theories, mineral poisons, and blind reverence for dogmas and superstitious humors, lamellar disfigurements, itching tortures and scrofula, the parent of all humors, flourish and increase upon systems shattered by mercury, arsenic, zinc and lead. Nor have the senseless "sarsaparilla," "dook," and dandelion blood purifiers (?) of quacks and patent medicine vendors been any better or much worse.

We know that every word we now write will awaken hope in the breast of many a lifelong sufferer. Can we in a broad and generous spirit, without reservation, say to those afflicted, "Have in the Cuticura remedies which may be had of any druggist less than the cost of a physician's visit, is a speedy and permanent cure for diseases of the skin, scalp, and blood, which have defied all known remedies, and the highest medical skill," with a just sense of the responsibilities we assume? We say we can.

Thousands of letters in the possession of the originators repeat this story: I have been a terrible sufferer for years with blood and skin humors; have been obliged to shun public places by reason of my disfiguring humors; have spent hundreds of dollars and got no real relief until I used the Cuticura remedies, which have cured me and left my skin and blood as pure as a child's.

Cuticura Resolvent, the new blood purifier, cleanses the blood and perspiration of poisonous elements and impurities, and thus removes the cause.

Cuticura, the great skin cure, instantly alleviates itching and inflammation, cleanses the skin and scalp of disfiguring humors and itching tortures, heals ulcers and sores, purifies and beautifies the skin. Cuticura Soap, an exquisite skin beautifier, prepared from Cuticura, is indispensable in treating skin diseases and for rough, chapped, or greasy skin, sunburn, black heads, blotches and baby humors. Cuticura remedies are the only infallible blood purifiers and skin beautifiers. They are absolutely free from mineral or vegetable poisons, and may be prescribed for every species of skin, scalp, and blood disease, with the certainty of speedy relief and a permanent cure when all other remedies and the best physicians entirely fail.

Mrs. Etelka Barry, who is described as a very bright actress and a beautiful woman, and about whom many romantic stories are now told by ingenious managers, will come to the Fifth Avenue theatre at the end of Mrs. Lantry's engagement there. Mrs. Barry is a Hungarian, and a pupil of Hermann Yasin. She performs chiefly Comedies and Actresses. Her characters which are tolerably known to suffering patrons of theatres.

Petroleum V. Naaby.

D. R. Locke, Petroleum V. Naaby, (editor Toledo Blade) writes:

I had on a forefinger of my right hand one of those pleasant pets, a "run-round." The finger became inflamed to a degree unbearable and swollen to nearly twice its normal size. A friend gave me HENRY'S CARBOLIC SALVE, and in twenty minutes the pain had so much subsided as to give me a fair night's rest, which I had not had before for a week. The inflammation left the finger in a day. I consider it a most valuable article for the household.

Cures the Piles Too.

Edouard Reintard, of New York, writes:

It gives me great pleasure to say that a single box of HENRY'S CARBOLIC SALVE effected a complete cure of Piles, which I had been troubled with for over a year, and which nothing else that I used would cure.

GRATITUDE.

Denver, Col., August 29, 1882.

GENTS—I cannot find words with which to express my gratitude to you for the cure your SSS has effected in my case. I was afflicted with the horrible disease for three years, and after spending some time at the Hot Springs I used only one dozen small bottles of S. S. S. and there is not a sign of the disease remaining. My sores are all healed, my throat is entirely well, my complexion is clear, and my health is restored. I am truly, your grateful patient, J. H. RAFF.

DR. WHITTIER.

676 1/2 Charles St. ST. LOUIS MO. A REGULAR GRADUATE of two medical colleges, has been long engaged in the treatment of CHRONIC, NERVOUS, SKIN AND BLOOD Diseases than any other physician in St. Louis as city papers show, and is well known. Consultation free and invited. When it is inconvenient to visit the city for treatment, I will send you a full course of treatment, where, Curable cases guaranteed; where doubt exists it is frankly stated. Call or write.

DR. WENDERSON.
