PERSONAL. A McKinney, of Hancock, Ia., died at the Pacific yesterday. W. H. Copson, the Shenandoah newspaper man, was in the city yesterday. J. Morris, of Decatur, Ill., is at the Pacific.

QUICK TIME. As will be seen by the card of the American Express Company in another column, that company, in order to push shipments through from New York and Boston at lightning speed, has secured a special train of its own, as will be seen by the time table.

DEKREK'S SALAD DRESSING is ready made, rich and delicious dressing for all salads of meat, fish or vegetables. Cheaper and infinitely better than home made. No sauce equal to it.

Bothered by Boys. Theo. Hessel, who keeps a fruit stand and confectionery store, claims that the boys bother him greatly, by knocking over his apples, stealing peanuts, blowing out the street light, etc.

Westward, Ho. D. N. Honn, agent of the Immigration and Naturalization Service, has this week forwarded from the U. P. transfer, 372 emigrants from the following named states and countries: Portugal, 53; France, 2; Ireland, 17; England, 14; Sweden, 5; Denmark, 25; Germany, 7; Madiera Islands, 11; Canada, 14; Illinois, 79; Iowa, 21; New York, 21; Maine, 14; Michigan, 10; Minnesota, 9; Wisconsin, 23; Ohio, 4; Pennsylvania, 6; Massachusetts, 6; Missouri, 11; Indiana, 4; Italy, 15; Manitoba, 1; New Brunswick, 3. The total number of immigrants who arrived in San Francisco in the past week is 2,155, by the two overlaid routes. A large part of them have settled on the government lands of the state.

At present, the prospects are that the most brilliant meeting for the season in Iowa, will be held at Council Bluffs. What reason is there to think otherwise? The officers of the association, aided by the citizens, are putting forth every effort possible, to secure a realization of their hopes, and in union, we know there is strength. A track that can not be equaled in the west, spacious and comfortable stables, plenty of water, hotel accommodations equal to any emergency, railroad facilities unequalled by any city west of the Mississippi, with an assurance that hundreds of speculative horsemen from the entire valley will be on hand to make the races interesting, taken on a whole, give assurance that the meeting will be a grand success. Let every horseman then, who contemplates going through the Iowa circuit, come to Council Bluffs and begin with the rest.

The Coming Orator. The people of Council Bluffs and vicinity are to be given a rare treat in oratory next Friday night at Dohany's hall as William J. Armstrong is on that evening to give his lecture on "London Society." He has about fifteen lectures with which he has thrilled audiences in all parts of the country, and this is one of the best. Henry Ward Beecher commends Mr. Armstrong in the highest terms, and many others of like prominence are enthusiastic in his praise as a thinker and speaker. The course of lectures recently given by him in New York city was in response to a call signed by such names as: Abram S. Hewitt, John Swinton, Hugh J. Hastings, M. F. McMahon, Oliver Johnson, Benjamin D. Peck, George H. Yeaman, J. C. Zuehls, David H. Chamberlain, William Wood, Vincenzo Botti, S. S. Cox, and others of equal national reputation. Mr. Armstrong, thus being

one of the foremost men upon the rostrum to day, cannot but give Council Bluffs a lecture unequalled by any for years past. First Come, First Served. Owing to the reduction of the cigar tax, May 1, Frank Levin, at 306 Broadway, offers to sell on and after that date his entire stock of choice cigars, now on hand, at a reduction of \$3 a thousand. This rare chance should be promptly improved, as on all cigars made after May 1 there will only be a reduction of \$2, the cigar-makers having agreed on an advance of \$1 per thousand after that date.

Drowned by Drink. Deputy United States Marshal M. Cray brought to this city Saturday night a young man named Ed. Shamp and lodged him in jail as a prisoner. It seems that Shamp, who has been a night operator at Menlo, a small station on the O. R. I. & P., while on a spree, broke into the postoffice and took a number of stamps. Some other property was taken, and when Shamp sobered up he made restitution so far as possible, but Uncle Sam knows nought but law, and so the young man is in duress vile. He will probably have a hearing before Commissioner Key to-day.

Eugene Croft denied that he was intoxicated. He said he was only drunk. His fine was the same \$9.00.

IOWA ITEMS. The Ottumwa plow factory employs forty men. A new court house is discussed by Audubon county citizens.

The Catholics of Grinnell will erect a \$20,000 church this year. The police of Des Moines run in nineteen gamblers on last Friday. The capital stock of the Lyon county bank has been increased to \$50,000. Kookuk will try to get through with a 15 cent tax levy for city purposes this year. The Iowa pharmacists meet at Davenport April 20. A pharmacist is a drug man.

There is an active demand for Emmetsburg town lots, and the town is having a steady growth. A carload of land seekers will start from Leon early in May for the Northern Pacific country. The Capell Medicine company of Des Moines has been incorporated with a capital of \$20,000. At Sanborn a mammoth stock yard, to cover thirteen acres, is being made to facilitate cattle shipments. Paulson, of Correctionville, will build a \$7,000 flouring mill at Lucky Valley if citizens will put up half the money. The Cedar Rapids and Marine street railway company has issued bonds to the amount of \$25,000 on its franchise. The fish commission has stocked Eagle lake, in Emmet county, with 10,000 young whitefish and 5,000 infant salmon. It cost \$5,828 to supervise the building of the new Cass county court house. This was about 10 per cent of the cost of the building. Two additional cottages are to be added to the plant of the state asylum for feeble minded children at Glenwood, at a cost of \$25,000. The Dunlap Reporter estimates that \$50,000 per month is paid out for stock within a radius of twenty miles of that town. Assistant State Fish Commissioner Mather estimates that 400 tons of fish have been taken out of Lake Okoboji during the winter. The Iowa railroad land company offers 150,000 acres of city lots to Le Mars for park purposes if the town will improve the same. The Old Settlers association of Burlington will take charge of the semi-centennial celebration of the occupation of Iowa by the whites in that city June 1. Penn township, in Madison county, will have better roads, and its officers have ordered a carload of tiling which will be used as a commencement in the improvement. James Cousins, postmaster at Worthington, was arrested and taken to Dubuque on Saturday to answer for retaining registered letters in his possession undelivered for a month. There was a bad fire at Newton on the night of the 21st inst. Des Moines was telephoned for help, but before it could be sent word came that the fire was under control. No particulars. The academy of sciences at Davenport has a debt of \$1,700 hanging over it. On the evening of the 24th inst. a meeting was held at which \$1,250 of the amount was subscribed by private citizens. The Clinton abolitionists who had banded together to fight the license ordinance in that town gave up the fight on hearing of the reaffirming of the decision of the supreme court on the amendment. The meeting called to perfect organization was not held. Des Moines is a hive of industry. It possesses eleven lines of railway, a number of large manufacturing establishments, and a wholesale trade in the west. Its anti eastern capital is doing wonderfully well. Besides being the capital of Iowa, Des Moines has a commercial future which no other city in the state seems able to equal. The Western, the Midland and the Central telephone companies were consolidated at Davenport on Monday, and the whole goes under the direct control of the Bell Telephone Company. An exchange with headquarters at Davenport and lines connecting neighboring towns, is likely to go into the consolidated company. In Cedar Rapids on the night of the 22d inst. Charles Frager, a blacksmith in the Burlington, Cedar Rapids and Northern railway shops, became engaged in an altercation with Scott Kuschman, an employe of the Star Wagon company, in a low dive, and the latter struck Frager on the head with a stick, inflicting injuries from which he died the following forenoon. Frager was arrested and is now in jail. Cherokee wants a hall where public meetings can be held. The Linn county sheriff has handled over 400 prisoners in the past two and a half years. Nearly all of the \$1,500 subsidy needed to secure a flouring mill for Humboldt has been raised. It is claimed that the Des Moines capital invested in tenement houses returns 15 to 18 per cent on the investment. On the night of the 19th inst. the ticket office at Weston was broken open by burglars and a large amount of tickets and \$415 cash obtained. The tickets are not soot unless stamped. On the 19th inst. at Cedar Rapids, two professionals pocketed \$69 worth of gold rings while looking over the stock shown by a salesman. They were arrested as one of them was burying the plunder. Craig Shields, of Vinton, helped to carry Postmaster General Gresham out of danger after that gentleman had been disabled in a row with some men who were grey clothing at Atlanta twenty years ago. So far the home for fallen women at Des Moines has entertained fourteen inmates. These have given birth to six babies. Appliances for the lying-in hospital are needed. Of the women received there are yet in the home. The others are at work, dead or gone back to the world, in about equal numbers. The failure of the Monroe County bank, of Albia, is now believed to amount to \$210,000. The greatest many Monroe county farmers were reduced to poverty. Among the losers is a brother of Cashier Miller, who is out \$10,000. The cashier has far refused to make any statement. A person who is examining the books is as yet unable to untangle the accounts. A red haired clerk in Savannah, Slipped on a piece of banana, Greeted pain he endured, But St. Jacobs Oil cured, He now goes dandling with Hannah.

The New Iowa Capital. Work is progressing rapidly in the new capital. The senate chamber is well-nigh completed, except the flooring, seating and wood work. The walls are elegantly finished in fresco and marble work. Last week the commissioners decided upon plans for painting the ceiling of the house chamber. The panels will be filled with portraits of Washington, Lincoln, Robert Lucas, first territorial governor; James W. Ashley, first state governor; Charles Mason, chief justice of the territorial supreme court; Caleb Baldwin, chief justice of the state supreme court; J. P. Carlisle, speaker of the sixth territorial legislature, and judge of the fourth judicial district; Rush Clark, speaker of the ninth general assembly, and member of congress from the fifth district; Gen. M. M. Crocker, and Gen. S. R. Curtis. The curtains, carpets and furniture of the senate chamber have been selected, and are elegant. The desks and chairs will be plain walnut. Each member will have a separate desk. The furniture in the house will be like that in the senate, except the wood will be solid mahogany and the carpets and curtains with red colors predominant. In the senate they will be dark terra cotta color. Slenor Miragholi, who is doing the fresco work, has produced some most artistic work in velleiro, which baffles the most critical eye. Even experts will not believe it is not actual stucco work instead of plain wall. The other day Mr. Griffin the superintendent of stucco work, was passing through an arch way up skyward, when he discovered a rosette on the ceiling which he knew he had not directed to be placed there, and supposed some of his men who thought they knew more about ornamenting than he did had stuck it up there, and he instituted a search for the jealous decoration, but none of his men knew anything about it. He ordered it taken down, and a man clambered up to do it. The other day it discovered it was not there, and reported to Mr. Griffin that it was painted, not stucco. Mr. Griffin would not believe him, until he had climbed up and run his hand over the wall, so perfect was the deception of the Signor's brush. In one of the arches over a passage way is a bunch of wheat stalk fastened to the wall. In the senate hall are four corner panel pieces which are perfect imitations of carved work in metal.

Petroleum V. Nasby. D. R. Locke, Petroleum V. Nasby, (editor Toledo Blade) writes: I had on a forefinger of my right hand one of those pleasant pets, a "run round." The finger became inflamed to a degree unbearable and swollen to nearly twice its natural size. A friend gave me HENRY'S CARBOLIGOLINE, and in twenty minutes the pain had so much subsided as to give me a fair night's rest, which I had not had for a week. The inflammation left the finger in a day. I consider it a most valuable article for the household. Cures the Piles, Too. Edouard Reinhard, of New York, writes: It gives me great pleasure to say that a single box of HENRY'S CARBOLIGOLINE relieved me of hemorrhoids, with which I had been troubled for over a year, and which nothing else that I used would cure. The rage for painting plaques and flower pieces among the ladies is still at its height. If you cannot learn to paint decently, go to a more accomplished teacher, willing to do your painting for you. Then all you will have to do is to sign your name.

If You Are Rained in health from any cause, especially from the use of any of the thousand nostrums that promise so largely, with long fictitious testimonials, have no fear. Resort to Hop Bitters at once, and in a short time you will have the most robust and blooming health. This is the season for shopping. Thirty cents for luncheon is enough capital to work on, and a lady can have just as too dreadfully awfully a good time pulling over the entire stock of a dozen or so stores without money as with it. Bright's Disease, Diabetes, Kidney Liver or Urinary Disease. Have no fear of any of these diseases if you use Hop Bitters, as they will prevent and cure the worst cases, even when you have been made worse by some great puffed-up pretended cure. A tasteless ball costume of point lace, over candlelight-on-the-frog-pond colored silk, may be gotten up at a cost of from five to eight hundred dollars. Of course a lady of fashion will

not appear in the stone ball dress a second time. An Extended Popularity. Brown's BORNCHIAL TROCHES have been before the public many years. They are pronounced superior to all other articles used for similar purposes. For Relieving Coughs, Colds and Throat Diseases, they have been proved reliable. The fashionable theater hat is now built two feet tall, and it should be decorated on either side with a dozen or two of good sized ostrich plumes. This style of hat is always sure to create a sensation—in the seat behind you. Reliable help for the weak, nervous and debilitated dyspeptic sufferer found in Brown's Iron Bitters. Breath of promise suits are quite fashionable this season with the fair sex. They are rather expensive. An elaborate suit of this style, recently gotten up, cost \$75.00. THAT HUSBAND OF MINE. Is three times the man he was before he began using "Wells' Health Renewer." \$1 Druggists. The latest brood in ladies' pet dogs is called the dudu. He is not an improvement on the pug, and falls far behind the terrier, as he possesses neither beauty nor pluck. We Present no Pretended Miracle. "Truth is mighty and shall prevail." No sophistry can withstand the power of its honest utterance. Editor of Evening Press: DEAR SIR—Feeling deeply grateful for the great benefits which I have received from the use of a very valuable article which has its origin and home in our beautiful city, and hoping that others who are afflicted as I have been may find like relief from its use, I beg the indulgence of a few lines in your valuable paper for the privilege of communicating to you a brief statement of facts, for the benefit of the multitude of sufferers to be met with on every side. Many of my friends well know that I have been severely afflicted with heart disease for a number of years, and have suffered from it as only you can suffer who have this disease; it reduced my strength so low that I could scarcely walk across my room, and the least exertion rendered me so short-breathed that I dared scarcely move, and life seemed very burdensome. I was treated for my malady by the best physicians, and derived no benefit from their treatment or prescriptions until I was advised by my family physician to use Hunt's Remedy, as my trouble was caused by inaction of my kidneys, which affected very seriously my heart. I commenced taking it (having little faith in it or any other medicine), and I helped me wonderfully, and I am now a great deal better, and have been ever since I began its use. In fact I have taken no medicine that has benefited me so greatly. My breathing is easy, and I have gained in strength so much that I am able to do my household work cheerfully and with ease. I cheerfully recommend Hunt's Remedy to all who may be afflicted as I have been, or who are suffering from general debility and nervous prostration. Respectfully, MRS. A. O. ROCKWELL, Pearl St., Providence, R. I.

Death of a Wife. DEAR SIR—Feeling deeply grateful for the great benefits which I have received from the use of a very valuable article which has its origin and home in our beautiful city, and hoping that others who are afflicted as I have been may find like relief from its use, I beg the indulgence of a few lines in your valuable paper for the privilege of communicating to you a brief statement of facts, for the benefit of the multitude of sufferers to be met with on every side. Many of my friends well know that I have been severely afflicted with heart disease for a number of years, and have suffered from it as only you can suffer who have this disease; it reduced my strength so low that I could scarcely walk across my room, and the least exertion rendered me so short-breathed that I dared scarcely move, and life seemed very burdensome. I was treated for my malady by the best physicians, and derived no benefit from their treatment or prescriptions until I was advised by my family physician to use Hunt's Remedy, as my trouble was caused by inaction of my kidneys, which affected very seriously my heart. I commenced taking it (having little faith in it or any other medicine), and I helped me wonderfully, and I am now a great deal better, and have been ever since I began its use. In fact I have taken no medicine that has benefited me so greatly. My breathing is easy, and I have gained in strength so much that I am able to do my household work cheerfully and with ease. I cheerfully recommend Hunt's Remedy to all who may be afflicted as I have been, or who are suffering from general debility and nervous prostration. Respectfully, MRS. A. O. ROCKWELL, Pearl St., Providence, R. I.
