There are a 'ew cases of scarlet fever in the city. The board of health should be on the alert to take all needed measures to prevent any spread of the disease.

City Clerk Troutman yesterday turned over to the city treasurer \$5,342, the receipts from licenses and fines during the past five days. If the city could have such receipts the year around from these sources, there would b) little for the tax payers to raise.

One of the teachers in the Bloomer school while experimenting with gas before a class in chemistry met with an accident, one of the jars exploding, which he claimed to have expended scattering glass in all directions and giving some slight scratches and cuts to several pupils.

to her, and in paying her passage to this country, it being his intention to marry her. It seems that he was at work on a farm when he sent for her to come to this country, and after arriving here she secured employment on the same farm, and worked with her lover, husking corn and doing other labor. Hedrew the money for both.

Joseph McLean was the only drunk in the police court yesterday. His fine was only \$7.60, \$2 less than what fines have ranged at during the cold weather. Perhaps the drop is caused by the fact that it costs the city nothing now for coal te heat the calaboose during the summer season. Perhaps the saloon license being raised, it is desmed no more than just that those who get drunk should be allowed the bene-fit of increased city revenue, by having a little taken of the penalty for

getting drunk. There is now lying very ill at the Valley house an old man, who seems here. Mace Wise is showing much enterprise and public spirit by the energy with which he is circulating a subscription for the improvement of Fairmount park. About \$400 has already been raised. There is no city in the country which possesses such a beautiful natural park and yet our citizens seem to lack in appreciation of it. Strange as it may seem there are many here who have never even looked at the park, and yet every visitor from elsewhere expresses delight at what nature has done there, and astonishment that Council Bluffs does not expend a little more money in adding to the beauty and commerce of the place.

Now that Alderman James has co gracefully retracted the i siguations Bright's Disease. The unfortunate trouble lately arising out of a case of corporal punishment, in the Streetsville school, eads to the suggestion that there should be here, as in most cities, some regulations in regard to such matters. As it is, it is left wholly at the discretion of the teacher as to the particular modes of puntahment, the instructions being simply not to be hasty, but to be more deliberate than in any other matter of school government. In some cities the teachers provided for the purpose. They are not allowed to strike a pupil save on the hand, and are restricted to ten blows. In other cases they are not to inflict punishment until the day preventing punishment while the teacher is in anger or haste. It seems that some such regulations should be in force here.

AVOCA IN FLAMES.

Heavy Loss.

Eighteen Horses Burned in a Livery Stable.

Just before 1 o'clock yesterday morning an extensive fire broke out in Avoca, the origin being in Coat's livery stable, and the fismes spreading with such rapidity that for a time it seemed as if the whole town would be are restricted to the use of a strap, swept away. A man who was sleep ing in the stable had a narrow escape from death, he just getting out with his life and having no time to save even his clothing. Eighteen horses after the offense is committed, thus were burned in the stable. The fire spread quickly to Seifert & Weis' lumber yard, and soon that was enveloped in flames. A large amount of corn, stored in six large cribs, and belonging to Hancock's elevator, was also soon on fire, and it was only by hard work that the ele-vator itself was saved.

The fire department of Atlantic was telegraphed for, and arrived in time to do some good, though the fire was under control before they got there, and the flames destroyed little other

property but that named.

The total loss is estimated to reach \$35,000. Mr. Coats had an incurance of \$5,000, and Seifert & Weis, whose loss will be about \$15,000, had an insurance of \$7,000.

There seemed to be some difference of opinion as to how the fire origin-ated, some claiming that it was caused by lightning, others that it was incendiarism. Some suspicious c'rcumstances surrounded a colored man, and he has been arrested to await an investigation.
