PLAIN TRUTHS

The blood is the foundation of life, it circulates through every part of the body, and unless it is pure and rich, sood health is impossible. If disease has entered the system the only sure and quick way to drive it out is to purify and enrich the

These simple facts are well known, and the highes medical authorities agree that nothing but iron will restore the blood to its natural condition; and also that all the iron preparations hitherto made blacken the teeth, cause headache, and are otherwise injurious.

BROWN'S IRON BITTERS will thoroughly and quickly assimilate with the blood, purifying and strengthenis lit, and thus drive disease from any part of the system, and it will not blacken the teeth, cause headache or constipation, and is positively not injurious.

through a channel at the Tunislan coast and some cuts in the interior. was acknowledged by a commission appointed by the French Government last year. The commission also found that the work would be durable, if not

of Victoria, B. C, torward, and al-though a "boom," in the American sense of the term, is not in full blast, in value, new buildings are under erection or contracted for on the chief specialist engineers and experienced streets, and real estate of a desirable kind is changing hands quite frequently. As if to fan the fixine, one of the principal topics of street discussion is city and the promptness of their ab-sorption into local industries. The government dry dock at Esquimalt, which measures 400 feet in length by 200 feet in width, will, on completion, be a work of great utility. This desirable end cannot, however, be attained for eighteen months yet. on the north banks of the waters, There are 200 men at present emfrom Gabes to Biskra, could easly be ployed on the dock. Onderdonk's Canadian Pacific rall-

way contracts are now in full swing, giving employment to 4,00) Chinese and 2,000 white men, besides a number of Indians. Already \$3 000 000 has been expended on the sections under construction, which are being pushed forward with much vigor and great executive ability, embracing, as they do, some of the heaviest blasting, tunneling and bridging yet bar would offer little inconvenience, achieved on any American railway. and in compensation would furnigh The syndicate pledged themselves to have the road from the Atlantic to material for the construction of plers, the Pacific completed within four years, when it is expected that Eqropean emigration on a stupendous scale will begin to colonize the fertile wheat lands of the great Northwest and the cattle ranges of British Columbia. In fact, the complexi n of this and ought not to cost more than 150,latest transcontinental highway will either "break" or "make" the dominion for many a long year to encoursging. ome

There are 17,000 Celestials in Britsh Columbia-4,000 of them are at work on the Canadian Pacific railroad and the remainder are distributed among nearly all avocations, except law and divinity. They have appeared in every hamiet and town on Vanconver island and the mainland like a locust awarm, which, in fact, would be far less pernicious to the country. The outery against them is great, but this fair province is a veritable paradise for the beathen, as here he lives cheaper than in many other parts of the Pacific coast, besides getting better wagas. A single Chinese
