

The Omaha Bee.

Published every morning, except Sunday. The only Monday morning daily. TERMS BY MAIL-- One Year... \$10.00 | Three Months... \$3.00

CORRESPONDENCE--All Communications relating to News and Editorial matters should be addressed to the Editor of The Bee.

THE BEE PUBLISHING CO., Proprietors. E. ROSEWATER, Editor.

GENERAL CROOK still turns up missing. "The School for Scandal"--The United States Army.

An Augusta dispatch announces that the Maine prohibitionists are weaker than they have been at any time in three years.

The police were in sight of the jam and crash on the Brooklyn bridge, but as usual they didn't wake up until the disaster was all over.

GENERAL SHERMAN'S telegram ordering Crook to pursue the Apaches regardless of department or national lines has been published, and sets at rest all question as to who must bear the responsibility for the alleged violation of Mexican territory.

THE czar is very well pleased with his coronation and is distributing orders and titles with great profusion. The order of general amnesty to political exiles has, however, failed to put in an appearance, and the nihilists dynamic factories are starting up afresh.

BOTH houses of the Illinois legislature have passed a resolution for the submission to the people of a proposition to amend the constitution as to enable the governor to veto any item in an appropriation bill.

THE Buffalo Express notes that General Grant's railroad speculation with Jay Gould in Mexico converted him to the theory of government subsidies, which he did not believe in before.

THE amicable settlement of differences between the iron workers and iron masters at Pittsburgh averts the calamity of a strike, which would have thrown thousands of mechanics and laborers out of employment.

THERE is a good deal of alarm felt among Washington clerks over the examinations of the civil service commission. There are rumors that sinecures will be abolished and incompetent clerks discharged.

THE OMAHA BEE claims a larger circulation than all the other journals in Nebraska combined. The Bee is, in a mild and indifferent way, a liar.

THE trouble with the person who edits the Falls City paper is that he delights in misquoting The Bee. We never claimed to have a larger circulation than all the papers in Nebraska combined, but we did claim that the Daily Bee has a larger circulation than the combined circulations of all the other Nebraska dailies.

THERE are some complaints of the slowness with which paving is being carried on in Omaha, and numerous inquiries why work has not been begun on the cross streets. General Hazen and the weather bureau are chiefly responsible for the delays.

CALIFORNIA is happy over the exodus of her bonanza kings, who are now sucking in New York after having opened dry the orange of the Pacific slope. The departure of the Mackeys,

THE CHICAGO CONFERENCE.

The national anti-monopoly conference, which will meet in Chicago on the fourth of July, is destined to be one of the most important gatherings that has taken place in this country since the close of the war.

Under the call the conference will be composed of delegates from every state in the Union. Delegates have already been chosen in several states from the congressional districts, and conventions, to select delegates, have been called in others.

Omaha also has a bridge over which she enthused eleven years ago. That also broke down a ferry but in its place stands a toll gate for highwaymen. The old ferry monopoly charged ten cents for carrying passengers across the Missouri.

But the freight tolls over this bridge of sighs have been the most monstrous imposition on shippers that have ever been perpetrated in America, and not only in America but in any part of the world.

An obscure paper in the state takes The Bee to task for speaking of "the famous Herr Most" instead of the infamous communist.

And why not? What does the editor know of Most or of his doctrines? What, for that matter, do nine-tenths of the papers who abuse the German agitator know about his principles or the language in which he sets them forth.

THE Bee is no champion of half-brained agitators, nor of dynamitists, but it insists that every earnest man, who feels that he has something of value to society to say, shall be permitted to say it without being gagged, lampooned and vilified.

THE Philadelphia Press notes that Logan stock in the West is advancing. Where? Certainly not west of the Mississippi, where republican affection for Black Jack is below par.

Another Happy Family. James Dugger, living north of town, is the owner of a cat which has three kittens. Some few days ago he captured a flying squirrel, took it home, supposing that the cat would eat it, but to his surprise the cat took the squirrel and allowed it the same privileges that she did her kittens--that of nursing. A few days later Dugger

went out in the woods and shot a soon and took three young ones. These he placed in care of the old cat, who at once admitted them to her family, and to-day this remarkable old feline is nursing three kittens, three soon and a flying squirrel.

In the course of the interlopection before the state railway commission on Wednesday Commissioner Park is reported as saying: "The railroads have abandoned the plan of making their rates according to the cost of service, and put their tariff on commodities according to what they will bear."

Two Bridges. The completion of the East River bridge is regarded as an era in the history of New York city and Brooklyn. New York and Brooklyn both rejoice that the great Union Ferry monopoly is forever destroyed.

The United States has the largest military resources of any nation on the globe and every neatly the smallest military establishment. If we choose to put our strength to the work, we might, at an expense of about twice as great as the sum spent on pensions and our army together and which no one feels, raise an army as large as France and Germany combined and greatly superior to both in its personnel.

Use these circumstances every thinking man knows that what little army we have should be of the best in men, material and morals. If it is not, we must build from the bottom when war comes and in any civilized contests our defeat in the first year must equal the cost of a large military establishment for a decade, and may be disastrous.

Use these circumstances every thinking man knows that what little army we have should be of the best in men, material and morals. If it is not, we must build from the bottom when war comes and in any civilized contests our defeat in the first year must equal the cost of a large military establishment for a decade, and may be disastrous.
