The Missouri and Mississippi Still Rising and Ravaging the Country.

St. Louis and Kansas City Monaced by the Flood-No Immediate Prospect of Relief.

Kansas Cirv, June 25.—The river shows 23 feet 4 inches on the signal sershows 23 feet 4 inches on the signal service guage and rising steadily. It has risen six inches since last midnight. Inhabitants of Weat Kansas City are preparing to leave, one or two families having changed quarters to-day. There is much apprehension regarding ice houses and other property along the river in that visibility. The water is now considerably to the water is now considerably.

higher than any time since 1881. Sr. Louis, June 25. The river is still rising slowly but the situation, both here and in East St. Louis, is practically un-changed. Bowman dyke still stands the pressure and that and other weak points are constantly being strengthened. Threats were made last night to cut what

is known as the Madison county dyke, which is a high embankment running eastwardly from the river a mile and a half, about midway between Brooklyn and Venice, but after a long and angry wrangle between a number angry wrangle between a number of inhabitants of the former place and and some people living north of the dyke, it was decided nothing should be done, as the cutting of the dyke would let more water into Brooklyn, and inundate that part of the town not now submerged. The people were very determined, and guarded all night with shot guns and other weapons.

The Chicago and Alton, in connection with the St. Louis and Wabash, are driving piles in the break in their track above Venice, and it is expected they will have a good trestle across the gap by Wednesday, and their trains be running again. A large number of farmers and land owners on the American bottom and residents of Venice and other towns between East St. Louis and Mitchell, held a meeting at Venice this afternoon, and after exchanging views on the situation, adopted the following:

Resolved, That inasmuch as many of

our people have been sufferers by floods for the past three years, and the present general overflow has rendered destitute a large number of people who, without assistance, will be unable to put in crops during the coming year, we deem it our duty to appeal to all who are able to assist those thus situated; that a description of the misery entailed upon our sec tion of the country would seem like exaggeration, so fearful in its nature is the truth, and that it will be at least thirteen months before another crop will be raised and in the meantime destitution in all its forms confronts the sufferers. In view of these facts, we feel justified in appealing for assistance, and request that all
