### SOMETHING **EVERY LADY OUGHT TO KNOW.**

There exists a means of securing a soft and brilliant Complexion, no matter how poor it may naturally be. Hagan's Magnolia Balm is a delicate and harmless article, which instantly removes Freckles, Tan, Redness, Roughness, Eruptions, Vul-gar Flushings, etc., etc. So delicate and natural are its effects that its use is not

suspected by anybody.

No lady has the right to present a disfigured face in society when the Magnolia Balm is sold by all druggists for 75 cents.

The Waters Gradually Receding and Destitution Increasing.

An Appeal for Aid for Ruised Farm ers Destructive Rain Storms in Pennsylvania.

Special Dispatches to The Bea. Sr. Louis, June 27. - Word comes from East St. Louis this morning that the river continues to fall slowly, and in all that section of country west of the Chicago & Alton railroad track at Newport, Nameo-ki and Mitchell, the water has fallen nearly, if not quite a feet, but in that part of the bottom east of the above named road. into which a steady stream is still pouring through a crevass near Newport.

Computation based upon information derived from well informed sources makes the number of acres of farm land overflowed in three townships in Madison county seven thousand acres. This land is covered with wheat, corn, oats and potatoes, which reckoned at \$30 per acre, a rather low estimate, makes the actual loss to crops about \$210,000 in that section of St. Clair county east and south of East Carondelet. So far as present known

Kansas City, June 27.—The river is on a stand since 7 o'clock last night. At St. Joseph it fell five inches during the night. No rains are reported in this region since Monday merning, and strong hopes are entertained that the season of excessive rains has ceased, in which case the present flood will most likely disappear to a great extent before the June

fallen five inches to-day, and the government gauge now marks thirty-four feet four inches. The water at East St. Louis is also declining quite satisfactorily, and the general feeling is that all danger is over. T. J. Richardson, agent of the Belt milway, at Venice, has been elected American bottom, north and east of that in print to discuss a subject about which place. He says the situation is growing he evidently knows but very little. worse daily, and that there are a great number of people out in the country who are surrounded by water and unable to communicate their distress to any one. The committee sent out four skiffs to-day to visit every house north and east of Venice, and bring to that place all those in a destitute condition. Besides these, Mr. Richardson says there are plenty of others who will not ask for food or beg for assistance. Those we must find out and help. To-day people come in from eight and ten miles above Venice asking for relief, and if we cannot get money any other way we will mortgage our houses and buy provisions with the proceeds. One family, continued Mr. Richardson, of eight, including six small children, who have been living on raw potatoes four days, were found to-day and relieved. At Brooklyn ninety families are known to require assistance and many more, no doubt, will be found. Most of the sufferers have sufficient clothing for present wants. Provisions and groceries; or money to buy them, are badly needed. The full committee at a meeting in Venice to-day issued a call for help. Money or provisions can be sent to Henry Robinson, chairman of the relief commit

no loss of life is feared. There will be a still further loss of property.

Portsville, Pa., June 27.—The damage to crops, mines and railroads by the storm throughout this region is widespread and heavy. Trains on all branches of the Philadelphia and Reading railroad have been delayed by washouts and land slides. The rainfall was the greatest in slides. The rainfall was the greatest in country. But that a relic of feudal barbarism may be maintained. These unfortunate people instead of being supported by the system which pretends to govern them are permitted by the government of "Her Most Christian Majesty" to die by the horrible means of starvation or are departed to these shores to become a burden upon the tax payers of America. Canadian Affairs.

Special Dispatches to THE BES. MONTREAL, June 27.—Sir Alexander Galt said yesterday: The right of Canada to make her own commercial treaties has been practically conceded by England. The modus operandi was that representatives of Canada should be associated with the British of Canada minister, and the proposed terms be sub-mitted for approval to the British government. In these conclusions England reserved the right of judgment especially in cases where treaties were considered objectionable or likely to produce na-tional complications. The independence question was not only a dead issue, but had never been a live one.
