**FINANCE AND COMMERCE.****FINANCIAL**

NEW YORK, August 7.

Money—Good supply at 26½ per cent; closed at 25 per cent.

Prime Mercantile Paper—4½@6 per cent.

Sterling Exchange—Bankers' bill steady at 4½@5; demand, 4½@5.

Governments—Lower for 4's and 4½'s.

Stocks—There was an active selling movement in stocks in the forenoon, which at times was almost panicky, in the endeavor to get rid of stocks. The cause was apprehensions of the consequences of the telegraphers' strike. After 12:30 the market was less active, although there was a further decline of 1 to 2 per cent, in the general list. This was followed by a reaction of 4 to 4½ per cent, the latter in Wahab preferred and Pacific mail.

In the last hour there was a general advance in prices of 3 to 4 per cent on the general list. In the final dealings the market was strong and with few exceptions all stocks closed higher than last night.

\*Asked.

The Post says the price of Western Union to-day was more firmly maintained than of almost any other stock. It is generally believed the Western Union was sustained only by the purchases of Gould. There is good reason to believe the Gould is being manipulated to a larger extent and there is a large short interest outstanding, which will have to be covered as soon as there is a prospect of return. The settlement of the present telegraphic difficulties does not effect the general state of trade or finance in the country at large nor will it cause any considerable decline in prices.
