

THIRTEENTH YEAR.

HER MAJESTY'S MINISTERS

Gladstone Reviews the Progress of Civilization in Ireland and Egypt.

The Tamatave Trouble Amicably Settled—The Canon Bernard Scandal in Belgium—Progress of the Cholera, and Other Matters.

GENERAL FOREIGN NEWS.

A SPEECH BY GLADSTONE.

LONDON, August 8.—The Lord Mayor's banquet to ministers took place at the Mansion house this evening. Gladstone rising to respond to the toast "Her Majesty's ministers," was greeted with prolonged cheering. After expressing thanks, Gladstone sketched recent public events. He said the government had gone to Egypt in an unselfish spirit and desired simply to accelerate reform there. It was felt too much haste might spoil the work. When the views of the government in this respect were accomplished the British would disappear from the country. He said nothing would be more grateful to every one of the ministers than to the early and successful accomplishment of the great movement towards reform in Egypt. In regard to the Tamatave affair Gladstone said the government had received fuller advice from Madagascar confirming the hope that no difficulty existed, which could not be solved by generous and honorable dispositions, which should always exist, especially between France and England. He now felt even sanguinely confident that nothing would arise which would disturb their long accord. Gladstone, continuing, said he was thankful to be able to record a great change in the condition of affairs in Ireland. The authority of law, he said, had been restored there and peace and security prevailed. The dark days of assassination had been effectually suppressed and confidence which had united their unhappy frequenters and enabled them to execute their deadly purposes had been in a large degree destroyed. Deep gratitude is due the Almighty, and secondarily the Lord lieutenant and chief secretary. He believed the end of the season would show a fair amount of work had been achieved. The government hoped much in the future from its new system of grand committees.

THE CANON BERNARD SCANDAL.

BRUSSELS, August 8.—In the trial of Canon Bernard, charged with abstracting several million francs from the Episcopal palace of the diocese of Tournay, counsel for defendant declared his client had a document from the pope which empowered him to take measures he deemed best to conceal the treasure. He could not have supposed such order meant he was only to conceal it in Tournay. Canon Bernard, he said, had been the scapegoat of a bishop who had written him while he was in New York virtually ordering him to continue to conceal the funds. Bishop Roussaux believed he could avoid meeting in the court of claims, the manager of Dumont, former bishop of the diocese, by sending the funds beyond the reach of judicial power. If he had been successful he would have indemnified Canon Bernard, who had merely attempted evasion of the civil law and had not committed a criminal offense. The case has caused very painful feeling in religious circles.

THE ZULU KING.

LONDON, August 8.—Persistent reports are current that Cetewayo is alive. The son of the late Bishop Colenso, telegraphs from Maritzburg that Cetewayo demands inquiry into his treatment by the government. The British agent at Maritzburg discredits the reports.

THE CHOLERA.

CAIRO, August 8.—Native officials here are much alarmed concerning the condition of patients in the mad-house. It has been discovered, despite strenuous denials, that there has been in four days thirty-two deaths from cholera there, while the number of inmates was but 270. English doctors on becoming aware of the condition of affairs at the institution endeavored to remedy it, but even yesterday the place was in a filthy condition, a number of bodies of victims lying around, besides hundreds suffering from the disease.

THE EMPERORS.

of Germany and Austria arrived at Ischel at noon. The former was met by the latter at Ebeneze, where very cordial greetings were exchanged.

Thirteen deaths from cholera occurred at Alexandria yesterday.

Gov. Crittenden and the Fords.

SAN FRANCISCO, August 8.—Governor Crittenden, in an interview, emphatically denied the statement telegraphed from Kansas City that he promised Bob Ford \$40,000 reward if he brought in Jesse alive; \$10,000 if dead. He says he did not know Charley Ford had any connection with the Blue Cut robbery until after the robbery. It is absolutely untrue that protection was offered Ford prior to the robbery. He frequently saw Bob Ford, but refused to make any arrangement other than announcing a proclamation offering \$10,000 for the arrest and conviction of each of the James boys. Judge Phillips, attorney for the James boys, is in the city, but declined to converse on the subject.

THE CENTENNIAL EXHIBITION.

NEW ORLEANS, August 8.—Major E. A. Barac, manager of the Times-Democrat, was appointed and confirmed Director general of the World's Industrial and Cotton Centennial Exposition, which will open in New Orleans in December, 1884. Major Barac had twice declined the appointment, although tendered a salary of \$20,000. He however finally deferred to the wishes of the public, but upon his suggestion the salary was reduced to \$10,000 a year. In accepting the appointment he subscribed the amount of the salary to the stock of the exposition, and gave the stock to the agricultural and mechanical college of Louisiana.

The Telephone Monopoly.

BOSTON, August 8.—The Advertiser will say a powerful New York and Boston syndicate has been formed to control the Drawbaugh telephone rights, in view of the anticipated result of the litigation

THE IRON WORKERS.

Important Questions Under Consideration by the Amalgamated Association.

A BUCKING BOVINE.

A Kearney Judge Entangled in a Lariat—Normal Institute.

Special Dispatch to the Bee.

KEARNEY, Neb., August 8.—This morning County Judge Whittier received a broken rib and severe internal injuries from a cow which became enraged as he was attempting to lariat it, entangling him in the rope which, owing to an ankle recently sprained, he was unable to extricate himself.

RAILROAD MATTERS.

THE ILLINOIS MIDLAND IN COURT. BOSTON, August 8.—The suit of the Union Trust company against the Illinois Midland railroad company and others, came up for hearing before Justice Harlan. The case was introduced in the courts of Chicago, but owing to the presence of the judge in this state, counsel came here to try it. The case is a suit in chancery to foreclose three securities given to the company by a general mortgage on the consolidated road, made up of three sections, known as the Illinois Midland railroad. The contest is over the claims of different bondholders as to the legality of \$150,000 worth of receiver's certificates and the priority of their lien over the rights of bondholders; also, as to priority of claims of certain judgment creditors and as to the priority of the lien of about \$300,000 floating indebtedness.

THE COMING OPENING OF THE N. P.

NEW YORK, August 8.—The Northern Pacific railroad will be connected about 60 miles west of Helena, Montana, on the 25th inst., but the formal opening will not take place till September 18th, next. On or after the 25th inst. the company will be ready to receive freight and from points on the Pacific northwest. The routes between St. Paul, Duluth and Portland will be the same as between Council Bluffs and San Francisco. Through tariffs to Portland and other Pacific coast points are now being prepared, and will be ready for distribution in a short time.

NO CUT ON RATES.

MILWAUKEE, August 8.—Minneapolis millers who met representatives of the Northwestern roads to arrange for lower rates to the east because of the ruinous terms by which they had returned home without accomplishing their purpose.

SOLICITORS ON THE BOARD.

CHICAGO, Aug. 8.—The Hoosier tunnel line put solicitors on the board of trade to-day. The Chicago & Atlantic refused to withdraw their man. At the head quarters of the east bound freight committee it was believed all roads will be represented on the board within a few days.

THE WESTERN ASSOCIATION.

of general passenger and ticket agents met to-day for the supposed purpose of discussing questions involved in the passenger war between Chicago and St. Louis, but adjourned after having prescribed 250 pounds as the maximum theatrical baggage and making a rule that donkeys and dogs belonging to traveling troupes be not received as baggage, but turned over to the express companies.

ANOTHER CUT.

Scalpers to-day sold Illinois Central tickets, Chicago to St. Louis, at \$6, a cut of 50 cents below the last cut rate. Thus far the Wabash and Chicago and Alton tickets have been going at \$6.50. To-night the Chicago & Alton issued the following notice: "For the last two or three days the Illinois Central brokers in St. Louis have been selling at \$6 to Chicago, in consequence of which action on the part of that line we make rate in all our offices on and from to-morrow, the 9th inst., of \$6 between Chicago and St. Louis." Further reduction is anticipated.

ST. LOUIS TO KANSAS CITY.

ST. LOUIS, August 8.—It now transpires that General Devereaux, Mr. Tilghast and other gentlemen representing the Bee line and Vanderbilt interest, did not leave for Kansas City last night as announced, but had a conference with gentlemen here connected with the project to build a belt railroad around St. Louis, to see on what terms they could obtain the charter and franchises of the Belt road company in order thereby to secure easy entrance into St. Louis and access to union depot for their contemplated new road between here and Kansas City. It stated on pretty reliable authority this road is sure to be built and our operations will be begun as soon as General Devereaux and party return to New York and have a consultation with other parties concerned.

Col. W. J. Paramore, president of the Texas & St. Louis Narrow Gauge, who is also vice-president of the Belt road company, and who was one of the conferring parties last night, was seen this evening, but declined to talk about it, saying it was not yet in proper shape for publicity. General Devereaux and party left for Kansas City to-day and will return east via Chicago.

Brutal Assault.

St. Louis, August 8.—Wm. Lannihill, 18 years old, working for Hubert Hartman, a farmer living four miles south of Belleville, Ill., took advantage of the absence of the family last evening and enticed Minnie Hartman, 12 years old, niece of the farmer, to an out-house, where he brutally assaulted her and then fled. The girl was found terribly bruised and suffered all night from convulsions. There is little hope of her recovery. The citizens are hunting for Lannihill.

A Fatal Mistake.

DETROIT, August 8.—At Grand Rapids, the conductor of the Grand Rapids & Indiana railroad, having received a visit by burglars at his house on Monday night, last night was prepared for a second visit, and awaited them in the kitchen. His wife, awakened by the street noise, arose and passed through the room. The husband, mistaking her for a burglar, fired. The ball took effect in her forehead, coming out near the right ear. There are slight hopes of her recovery.

THE WAR ON WIRES.

A Multitude of Deficiencies Covered by the Cry of Cut Wires.

The Telegraphers' Strike in New York—A Decision in the Fuller Suits in Philadelphia.

THE FORESTRY CONGRESS.

An Important Assemblage of Timber Advocates at St. Paul.

The Treeless Condition of the Country Shown by the President's Address—Northern Forests Rapidly Disappearing.

ST. PAUL, August 8.—The annual meeting of the American forestry congress assembled to-day, President Geo. B. Loring in the chair. President Loring, in his annual address, treated of state forestry in the United States. He stated that the clearings in the old settled parts of the country were being filled up with trees, so that in Ohio, Maine, New York and other states the acreage of forest is growing still greater. In other states where the subject of forestry gained some attention, there is also a gain. In states where "barbar day" has been established, the number of trees planted increases year by year. Further encouragement is needed in this enterprise. Concerning the extent of the forestry in the United States at present the president said the forest acreage is less than one-fourth of the total surface, a less proportion than in east, west and north Europe. The address treated of the decrease of pine timber, showing that the supply will be exhausted in the northern states in a few years at the present rate of cut, so we must depend on the future upon the United States at present the president said the forest acreage is less than one-fourth of the total surface, a less proportion than in east, west and north Europe. The address treated of the decrease of pine timber, showing that the supply will be exhausted in the northern states in a few years at the present rate of cut, so we must depend on the future upon the United States at present the president said the forest acreage is less than one-fourth of the total surface, a less proportion than in east, west and north Europe. The address treated of the decrease of pine timber, showing that the supply will be exhausted in the northern states in a few years at the present rate of cut, so we must depend on the future upon the United States at present the president said the forest acreage is less than one-fourth of the total surface, a less proportion than in east, west and north Europe.
