An Old Scal Follows Her Captive Off-Spring Eighty Miles.

Santa Barbara Press.

An interesting incident, illustrating the maternal affection of the animal for its young, was brought to notice during the visit of an excursion party to Anaca pa Island. A young seal pup, only a few months old, was brought way from the island by little Ernest Whitehead, who desired to take it home for a pet. The little animal was secured by a rope around one of its fins, and tied within a small yawl belonging to the sloop. Shortly before sailing a large seal was noticed swimming around the stoop anchored off the cove where the capture was made, uitering leud barks and at times howling piteously. No particular attention was ittle captive, which at times barked in esponse to the old dam's plaints. The boat sailed away, making for Ventura shore. When off San Buenaventura a calm in the wind decreased the speed of the boat, when a large seal was noticed near by.

On reaching the wharf at Santa Barbara at 2 o'clock next morning a seal was again discovered swimming about the boat. It was not supposed that this was the mother of the captive, or out of pity for its misery the pup would have been thrown overboard. To better secure the pup until daylight, the rope was taken from its fin and it was tied up in a jute-sack and let loose on the deck. Soon after coming to another, the seal re-sponded to its mother's invitation by casting itself overboard, all tied up as was within a sack. It is asserted by the man on deck that the mother seized sack, and, with her sharp teeth, tore open the prison of her offspring. This, however, is a mere conjecture. If it did, the little pup was saved; otherwise it would drown tied up in the sack. The ncident was the more interesting from the fact that the old seal had to follow the sloop at least eighty miles over the ocean in a hopeful endeavor to rescue its

EXPRESSMEN LIABLE. Mr. A. S. Merrill, the popular expressman of Bruns

wick, Me., writes us on May 15, 1883, as follows: 'Having been severely afflicted for about two years with inflamation of the kidneys and bladder, so called by my physicians, I suffered with distressing pains in my back and retention of urine, caused by a stoppag of the neck of the bladder, and a complication of other iscases. I was hardly able to attend to my busines and at times would be completely prostrated. I was also affected with incontinence of urine to an alarm ing degree; indeed, it demanded my attention fifteer or twenty times per night, and at times it would seen impossible for me to ride down to the depot on my wagon, for every jar from the wagon would almost seem to take my life. Having falled to obtain relie rom my doctor, I finally consulted our druggist, Dr. Merryman, of Brunsweik, and requested him to fur ish me with the most reliable and speedy cure fo such sickness, for I was suffering too much for human nature to endure long. The doctor recom mended me to use Hunt's Remedy, as it had been used with remarkable success in good many cases in Brunswick and vicinity. I purchased a bottle, and received such great relief that I continued, and had not used two bottles before began to improve beyond my expec tations. The pains in my kidneys and loins disap peared. I gained strength, and my water began to pass naturally, and I was able to sleep soundly, and obtain the greatly needed rest which for a long time I could not. I am fully restored to health, and car attend to my business. Thanks to Hunt's Remedy

COULD NOT LIFT A POUND. The above are the words of Mrs. Harriet Bailey, o Putnam, Conn. She writes May 3, 1883: "I have been troubled with kidney and bladder disease for two years. I suffered severely in the back and loins trial, I began to improve, and can now truly say i was a 'Godsend to me,' and I am now able to do my household work and enjoy the best of health. I have recommended Hunt's Remedy to two of my neigh-J. D. Hadley, the New York agent of the bors, who have been greatly benefitted by it.
