FINANCIAL

NEW YORK, September 10. Money-Easy at 2@21 per cent. Prime Paper-51@61 per cent, Exchange bills, \$4.812; demand, \$4.854. Governments-Steady.

Stocks-Stock market opened weak and depressed. On reports of corn crop being seriously damaged, declined 1@13 in first 15 minutes; the temper of speculation turned and much stronger feeling prevailed; the change was due to advices that reports of damages have been exaggerated and the loss is confined to sections where annual production was comparatively light; prices rose 1@21; whole list participated in the advance. After 2:00 prices receded 1@7; in last half hour, however, marked movet up to best figures of the day, which were 1@31 above lowest; in final sales there a reaction of 1@1 as compared with closing prices, which are 1@14 higher. TRUE Temperance

Is not signing a pledge or taking a solemn oath that cannot be kept, because of the non-removal of the cause -liquor. The way to make a man temperate is to kill the desire for those dreadful artificial stimulants that carry so many bright intellects to premature graves, and desolation, strife and unhappiness into so many families.

> Itisafact! Brown's Iron BITTERS, a true non-alcohol ic tonic, made in Baltimore, Md., by the Brown Chemical Company, who are old drug-gists and in every particu-lar reliable, will, by removing the craving appetite of the drunkard, and by curing the nervousness, weakness, and general ill health result ing from intemperance, do more to promote temperance. in the strictest sense than any other means now known

It is a well authenticated fact that many medicines. especially bitters, are nothing but cheap whiskey vilely concocted for use in local option countries. Such is not the case with Brown's IRON BITTERS. It is a medicine, a cure for weakness and decay in the nervous, muscular, and digestive organs of the body, produc-ing good, rich blood, health and strength. Try one bottle. Price \$1.00.

FOR THE SPECIALIST.

Has long been acknowledged and more so at this day than any other. The vast field of medical science is ever increasing, and its numerous branches are brought nearer and nearer to perfection, and no one man can any longer grasp them all Hence the necessity for dividing the labor. And it is true beyond all doubt that disease, affecting the genito-urinary organs need special study more than anything else, if we would understand and knew how to treat them properly.

thing else, if we would understand and knew how to treat them properly.

DR. H. WAGNER is fully aware that there are many physicians, and some sensible people, who will condemn him for making this class of diseases a specialty, but he is happy to know that with most persons of refinement and intelligence a mere enlightened view is taken of the subject, and that the physician who devotes himself to relieving the afflicted and saving them from worse than death, is no less a philanthropist and benefactor to his race than the surgeon or physician who by close application excels in any other branch of his profession. And fortunately for humanity, the day is davning when the false philanthrophy that condemned the victims of folly or crime, like the lepers under the Jewish law, to die uncared for has passed away.

A Few Reasons

Why you should try the celebrated Dr. H. Wagner's methods of cure:

1. "Dr. H. Wagner is a natural physician."

To-day the physician is of a different opinion; he is aware that it is his duty—disagreeable though it may be—to handle this matter without gloves and speak plainly about it; and intelligent perents and guardians will thank him for doing so.

The results attending this destructive vice were formerly not understood, or not properly estimated; and no importance being attached to a subject which by its nature does not invite close investigation, it was willingly ignored

Middle Aged Men.

There are [many at the age of 30 to 60] who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of this milkish hue, again changing to a dark and torpid appearance. There are many meny men who die of this difficulty, ignorant of the cause, which is the second stage of seminal-weakness. In.
