

The Head AND ITS NATURAL TENDENCY TO BECOME BALD.

What Chemistry Has Done.—The Roots Do Not Come Out When the Hair Leaves the Skin.

It has always been supposed that after the hair became bald and shiny it was hopeless to expect any hair. We have demonstrated that this is erroneous by having grown hair in hundreds of heads regarded as bald.

It will be readily seen by this cut that though the hair is gone from the surface it is still alive and healthy beneath the scalp, and is only prevented from growing by the contraction of the follicle in which it should grow.

HOW THE HAIR GROWS ON THE BALD HEAD.—The head is most frequently young in becoming bald. In this time the epidermis becomes hard and smooth and the follicles effectually closed.

CHEMISTRY.—This analysis of the hair into its elements first brought the matter to the attention, and the possibility of securing these elements in the vegetable kingdom, and compounding them into a form that would give the weakened hair just the necessary nourishment, damped upon the hair.

THESE FACTS.—In reference to the hair are not generally known except to those who have made the tissues of the skin a study. Were they known, the prevailing skepticism in reference to the possibility of a growth of new hair would not be so great, nor would our Hair Grower meet the continued disbelief of its power.

LADIES AND THE LOSS OF THE HAIR.—It is much easier to prevent the hair falling out than it is to renew it, and we guarantee to stop the worst cases of falling hair in ten days by the use of BENTON'S HAIR GROWER alone.

DOES IT EVER FAIL?—We are frequently asked by persons consulting us, "Can you grow hair on their heads?" Our answer invariably is, we can grow hair on eighty or ninety per cent. of all cases and are doing so constantly; but there are cases where the follicle has been destroyed by skin diseases and the use of poisonous preparations.

PARTIAL BALDNESS.—Baldness naturally commences on the crown of the head, if you will use the Hair Grower in time, there is no need of your becoming bald.

PREVENTION IS BETTER THAN CURE.—We wish we could impress every eye with the fact that it is much easier to prevent baldness than to cure it. Very few become bald suddenly, falling hair is an ordinary symptom of baldness, and BENTON'S HAIR GROWER will most assuredly stop the hair falling.

Price, Single Strength, \$1.00; Double Strength, \$2.00; Triple Strength, \$3.00. If your druggists have not got it, we will send it prepaid on receipt of price.

From Photographs Taken Before and After Using.

I have used Benton's Hair Grower six months, and these cuts represent the true condition of my head before and after using it. I am fifty-eight years of age and the greater portion of my head had been bald for years.

From Photographs Taken Before and After Using. I picked out three of your references and wrote to them. In all three cases I received replies and assurances that the Grower had acted like magic on their heads.

I have used Benton's Hair Grower for nearly one year, and it has produced a good growth of hair which nearly covers the scalp.

Get it—About two years since my hair became dead and fell out, and I was advised to get a wig.

Every BUYER OF BENTON'S HAIR GROWER was a skeptic when buying it, but before using all of the first bottle, he knew that it was the best hair growing agent ever discovered.

Ladies SELDOM RETAIN THE ABUNDANCE OF THEIR HAIR TO OLD AGE.

From Photo-microscopic view of the Diseased Hair. ALOPECIA-Diseased Hair. This disease is caused by a vegetable parasite of fungoid growth and is generally divided into several varieties.

From Photo-microscopic view of the Healthy Hair. WHO SHOULD USE BENTON'S HAIR GROWER. All who are Bald, all who are becoming Bald, all who do not want to be Bald, all who are troubled with Dandruff, or Itching, or the scalp itching, or the hair falling out, or the hair turning gray, or the hair becoming thin, or the hair becoming brittle, or the hair becoming dry, or the hair becoming lusterless, or the hair becoming lifeless, or the hair becoming dead, or the hair becoming falling out, or the hair becoming bald.

WHO SHOULD USE BENTON'S HAIR GROWER.

All who are Bald, all who are becoming Bald, all who do not want to be Bald, all who are troubled with Dandruff, or Itching, or the scalp itching, or the hair falling out, or the hair turning gray, or the hair becoming thin, or the hair becoming brittle, or the hair becoming dry, or the hair becoming lusterless, or the hair becoming lifeless, or the hair becoming dead, or the hair becoming falling out, or the hair becoming bald.

What Kind of Bald Heads May be Sure of a Growth of Hair. Through sickness and fever the hair sometimes falls out in a short time, and though the person may have remained bald for years, there can be seen a fine growth of hair, which covers the scalp.

Benton's Hair Grower WILL GROW HAIR ON BALD HEADS! WILL PREVENT THE HAIR TURNING GRAY! WILL CURE DANDRUFF AND ITCHING SCALP! WILL STOP THE HAIR FALLING OUT! IS PERFECTLY HARMLESS!

LAND LITIGATION.

A Full Statement of the Famous Parker-Kuhn Estate Suit.

Two Thousand Five Hundred Acres Valued at One Hundred Thousand.

The suit of J. M. Parker vs. N. A. Kuhn, now on trial in the District Court, has excited considerable interest in the city. Mr. J. M. Kuhn bought in 1860, on judgment against the Florence Land Company, 2,500 acres around Priche Lake, valued now at \$100,000, on which there were then standing mortgages executed in 1857.

In this case the plaintiff first produced in court the patents from the government to the pre-emptors, deeds from the pre-emptors to the Florence Land Company, mortgages of the Land Company made in September, 1857, and also evidence of the suits of foreclosure, of 1859 and 1860, and purchase under the latter. His purchase was made under sale of Master James G. Chapman, in 1860. In addition to all this evidence, there were produced many other deeds, and the record books of the county, showing a perfect chain of title down to the present time, and proof of possession and residence of over twenty-three years in addition to costly and valuable improvements during that time.

The counter claim of Kuhn to all this in a judgment obtained against the Florence Land Company, the mortgages, during the foreclosure of the mortgages held by the firm of Cook, Sargent & Parker on a part of the lands in controversy on the dates before said judgment in 1860 was subject to said mortgages executed in 1857. J. M. Parker purchased at the Master's sale in April, 1860, and the sale was confirmed in July of the same year, and the Master's deed issued, Parker taking possession and maintaining it ever since.

Kuhn rested on the simple return of the sheriff, doing nothing in the matter for over twenty years. He finally came into court in January, 1880, asking the court without notice to annul the court sale of 1860. This was done by the said sale and a deed ordered to be made by the Sheriff, which was done and recorded. Thereupon Kuhn assigned this valuable property to his son, Norman A. Kuhn for the sum of fifty dollars.

The plaintiff claims that young Kuhn thereupon commenced to sell the lands under the Sheriff's deed, at nominal prices, ranging from two to three dollars per acre upon land worth \$15 to \$25 at the time, thereby embarrassing and greatly injuring the plaintiff's title and long possession.

From Springfield, Md., Mr. Chas. G. Addison, writes as follows: "I had a severe sprain in my right knee compelling me to use crutches for several weeks. I found no relief in other remedies and finally tried St. Jacobs Oil. In a short time I could bend my knee and before using a bottle I laid aside my crutches and was able to walk as well as ever."

PELSONAL.—A circular, issued by George H. Holdrege, assistant general manager of the B. & O. railroad in Nebraska, announces the resignation of Mr. J. M. Barr, purchasing agent, in order to accept a position elsewhere, and the appointment of Mr. C. M. Wood to fill the vacancy.

Mr. M. H. Bliss went to Papillion yesterday. Hon. E. M. Bartlett was a west bound passenger yesterday. Vic Harlow goes to Custer county yesterday to attend court.

E. P. Davis and family have returned from a visit to Chicago and Milwaukee. S. T. Smith, general superintendent of the Kansas division of the Union Pacific, is in the city. Miss Elizabeth Anderson, of Marietta, Ohio, is visiting Miss Butterfield at Mayor Chas. B.

Miss Hannah Smith left for Denver Friday evening to visit her brother. She will be absent a month. Bandhauer is the depot passenger agent of the Union Pacific, having held the title since May 1st.

THE BOARD BORED.

Manifest Annoyance at the Injunction Suit Brought Against Them

The Board of Education Reviling the Council in Its Entertainments.

At the special meeting of the Board of Education Friday, the first thing done was to employ Mr. Cowin to defend the Board in the injunction suit in the District court this morning. Petitions received from the principals of the East and South school for carpets in their offices were received and called for no action save a motion from Mr. Specht that the teachers try straw. Then came up the vexed question of employing home or foreign teachers and this led to an excited discussion upon the introduction of the "fancy branches." Mr. Copeland favored the employment of our HIGH SCHOOL GRADUATES.

Mr. Specht wanted Jacob Hauck, the artist, to examine the drawing teacher. Mr. Long defended music in the school, and at the time a German was teaching it. Mr. Points showed that out of all the holders of certificates, there are only two who are not now employed. Mr. Gibbon said that twenty-five years ago in a frontier town in Wisconsin where he was employed they had music teachers in the schools. The outcome of all this was the election of a new EXAMINING COMMITTEE.

composed of Simeon Bloom and John Smith, with the addition in the place of Mrs. Dismore of Superintendent James, who receives no compensation besides his salary, \$4.00 a day being allowed to the other members.

The purchase of the 2,100 drawing plates was re-considered and to "promote harmony" it was decided not to buy them. It was complained that certain teachers discriminated in favor of certain lines of goods with certain bookkeepers and it was discovered that the specimen goods were the ones referred to, having been recommended by the drawing teacher. Nothing was done about it.

It was decided to submit to the voters at the coming election a proposition to allow the board to spend, without additional tax levy, \$50,000 for a school house at Thirtieth and Douglas streets; \$9,000 for a brick addition to the Hartman school; \$1,000 for a site for a school house near Hancock park, and \$1,500 for a site near Hancock park.

POLITICAL SUMMONS.

The Republican Primaries and the Workmen's Central Committee.

Pursuant to proceedings of the Republican Central committee of Douglas county, primaries to elect twelve delegates from the city of Omaha, being two from each ward, to the Republican District Judicial convention to be held in Omaha, October 11, 1883, are hereby called to be held in their respective wards, from 5 to 7 o'clock p. m., October 10, 1883, at the places following: First Ward—St. James hotel on Tenth street.

Second Ward—Henry's on Eighteenth street and St. Mary's avenue. Third Ward—At northwest corner of Twelfth and Huron streets. Fourth Ward—At the court house. Fifth Ward—J. Kaufman's wine parlors on Sixteenth street. Sixth Ward—Engine house. Dated October 4th, A. D. 1883.

SALATOGA CHIPS.

Social Movements in Omaha's Nearest Suburb. Mr. Edward Patrick is at home on his usual vacation, from the far west. Ed is a prime good fellow and his friends are glad to meet him.

E. P. Brewster is spending a few days in our burg preparatory to leaving for Grand Island, where he will attend school during the winter months. Mrs. J. A. Smith and children have returned to Blair after a pleasant visit at Grandmother Patrick's.

Rev. W. E. Copeland, of the Unitarian church, addressed the Union Sunday school on Sabbath evening, a good audience being in attendance, and it is with great pleasure that we are able to announce his return on next Sunday evening, October 7th, at 7 o'clock. The school will give an entertainment on next Wednesday evening for the benefit of its library, which will include a lunch of hot coffee and pumpkin pie, an art gallery, the traditional fishing pond, a postoffice and an abundance of flowers, including two handsome designs, which will be voted to the handsomest young lady and the most popular gentleman. A small admission fee will be charged. The city friends are cordially invited.

The tea party given by Mrs. F. M. Smith, in honor of her sister, Mrs. W. D. Blackburn, Wednesday afternoon, was a very pleasant affair. The lunch was indeed a banquet in extent and variety, including all the delicacies of the season. Among those present were: Mrs. James H. Kyner, Mrs. D. H. Smith, Lewis Littlefield, Mr. and Mrs. Avery, Mrs. and Mrs. Crowl, Mr. and Mrs. A. C. Smith, Miss Littlefield, Mrs. Conrad, Mrs. Neal and others. Mr. and Mrs. Smith and wife have returned from Fremont.

Willie Bentley is probably the best farmer boy of Nebraska. He raised 466 bushels of wheat from sixteen acres this year, as well as planting and cultivating sixty acres of corn that is as good as any man's corn in this section. The field is estimated to average fifty bushels per acre. Besides his corn and wheat he has raised a few potatoes, and the field hands, several hundred bushels of potatoes, and has done much garden produce. All this he has done himself, and has done all the more than any boy of his age, yet fifteen years of age.—(Shelton Clipper)
