GENERAL FOREIGN NEWS. THE FRENCH POLICY.

Paris, October 31.—In the Chamber of Deputies, to-day, Clemenceau, Radical, resumed debate upon the interpellation of the Government's Tonquin policy. He said the opponents of the Tonquin expedition renounced opposition threats after the death of Captain Reveire. He charged the government with publishing incomplete documents, and severely criticized the Government for stating, July last, that the French force at Tonquin was sufficient to meet the exigencies, when the contrary was now admitted. He said at first the question was the establishment of a protectorate over Tonquin, now it was the question of a protectorate over Anam. The French forces and finances at Hue, he said, had consultation by the government with the Chambers. Prime Minister Ferry declared be would really clared he would reply.

Premier Ferry, in reply to M. Clemenceau, admitted that the interests of the Cabinet were a secondary matter, com-pared with the interests of the country. The government, he said, had not failed in their engagements. They had carried the practice of moderation and prudence to its farthest limits. There existed no grounds of comparison between the Tonquin and Tunisian questions. The day was not far distant when French statesmen would cease to be violently condemned for increasing their country's dominions on the Mediterranean. The Tonquin question was not a personal affair. France, as the second maritime

power of the world, had special duties to perform. It was the duty of the government to prepare fresh ground for the activity of future generations. All working nations were marking out for themselves a part of the unexplored regions of the world. Why should not France draw near to China, which continued the presence in London of any of O'Donovan Rossa's dynamiters. However, all Irish rendezvous are closely watched. tains 400,000,000 consumers? The Premier said the military operations in Tonate over Anam and Tonquin. THE INVESTIGATION. LONDON, October 31.-The investigation made by the scientific advisers to the War Department, led to the conclu-sion that nitro glycerine, in some form, was the agent used in the underground railway enplosions. Later inquiries confirms the early statement that a large number of people were injured. In addition to over 30 treated at the hospital, a large number were attended by private surgeons. Dissatisfied Sisters. CLEVELAND, October 31,-Referring to to take the life of their fellowmen. Our the sensational story in this morning's Leader, that three nuns have decamped with \$60,090, Bishop Gilmour says: "Three sisters have left St. Joseph's hospital and returned to their families. They have done so after years of dissatisfac-tion at the duties and responsibilities they assumed at their own request. They have simply severed connection with the sisterhood. They are not excommunicated. There is not one word of truth in the assertion, that when they left, and took money or anything else of value belong to the church or corporate society."

## SCROFULA

tributed among our whole population as Scrofuls.

Almost every individual has this latent poison coursing his veins. The terrible sufferings endured by

pratitude when they find a remedy that cures them, asionishes a well person. We refer by permission to Miss Hood'S Sarsaparilla (Whittier, of Warner, N. H., who was cured by Hood's Sarsaparilla of 13 Scrottha Sores the severity of which confined her to the house for two years. Six mounts previous to taking Hood's Sarsaparilla she could not get about her room without crutches. Her friend says: "I did not think it possible for her to live many months; she was reduced to a mere akeleton. Her cure is hardly less than a miracle." More wonderful cures than this have been effected by this medicine. There is no doubt that in Hood's Sarsaparilla we have the most remarkable medicine that has ever been produced, and a positive cure for Scrotula in its numerous forms. Price \$1.00, six for \$5.50.
