SOMETHING **EVERY LADY** OUGHT TO KNOW.

There exists a means of securing a soft and brilliant Complexion, no matter how poor it may naturally be. Hagan's Magnolia Balm is a delicate and harmless article, which instantly removes Freckles, Tan, Redness, Roughness, Eruptions, Vulgar Flushings, etc., etc. So delicate and natural are its effects that its use is not effects that its use is not

suspected by anybody.

No lady has the right to present a disfigured face in society when the Magnolia Balm is sold by all druggists for 75 cents.

At this season of the year everybody has a cold and some very bad ones. By frequent exposures the membranes of the nose become very sensitive, and cutarrh and influenzas are epid-mic. Relief may be obtained by the use of Hood's Sarsaparilla.

For many years in succession, beginning so far back I don't remember when, I had the catarrh in my head. It consisted of a continual flow from my page.

Jerome Brownell merchant and extensive miller at Victors, Ontario county, N. Y., writes: "I have used Hood's Sarsaparilla for my Catarrh, and it has helped me. I consider Hood's Sarsaparilla one of the best remedies for blood disease to be obtained,

"I have been troubled with that distressing com-plaint, catarrh, and have been using Hood's Sarsa-parilla, and find it one of the best remedies I have ever taken. My trouble has lasted ten years, and never could get any relief until I commenced to use Hood's Sarsaparilla."—Martin Shield, Chicago, III.

Danger from Catarrh

Depends upon the amount and extent of the Scrofu-lous infection. Unquestionably many deaths from consumption can be traced to neglected catarrh. There is a violent distrest, prostrated and coughing spoils, the ey sweep, the ness discharges copiously, and the head seems to split.

In such cases Hood's Sarsaparilla corrects the ca-tarrh by its direct action in discharging the poison from the blood through nature's great outlets, so that healthy, sound blood reaches the membranes and is wholesome.

RAILROAD MATTERS.

THE OVERLAND POOL. Chicago, November 9.—A private dis-patch was received here to-day from St. Paul from John Muir, general traffic manager of the Northern Pacific, in which he says: "Taking effect yesterday we withdraw from California business and the southern lines withdraw from all business north of San Francisco." No explanation of the reasons for this action were given, but it is supposed to be the result of the secret conference among passenger representatives of the roads in the Transcontinental association at To peka during the past three days, they having failed to reach an agreement as to a division of competitve territory at the late Chicago meeting. Heretofore the Northern Pacific have claimed the right to land passengers at San Francisco via Portland at the same rate the other Pacific roads charged by direct route, and the other Pacific roads in turn claimed the right to land eastern passengers in Portland via San Francisco at the same rate as charged by the Northern Pacific. The new arrangement takes both Portland and San Francisco out of competition and leaves the trip between the two points by the the trip between the two points by the Oregon Steamship and Navigation line to be paid for at local rates. The arrangement applies to freight traffic also. The Northern Pacific under the new arrangement will carry all freight for Portland and all points in the nerthwest, and the other Pacific coast lines will carry to San Francisco and adjacent territory. When-ever a shipper chooses to send freight to San Francisco via Portland, or to Port land via San Francisco, local rates between those points must be prepaid. Freight now in transit is excepted from

THE INDEPENDENCE TRACEDY.

KANSAS CITY, November 9 .- A rement has decided not to adopt the new standard time scone to go into effect, but is getting out new time schedules based on Chicago time. The reason given for this is that the numerous suburban trains must necessarily be run on Chicago time and to run its other trains upon different entances the danger of accident and collisions between trains running by different schedules. If the city of Chicago the correspondant date and adopt the standard time the road will do likewise.

At a meeting of representatives of the Central News and incomplete the subject of much comment. The schedules would make the subject of much comment. The Effect of the Sun Spots on the Newspaper World.

Between the storms and upheavals of the earth caused by the sun spots this year, there has been considerable agitation of things and the ripples have extended even to as insignificant circles as

A few weeks ago Mr. W. E. Annin. associate editor of THE BER, decided to associate editor of THE BEE, decided to make a change and retire to the privacy of frontier life. This was the signal for a general broadside of changes. Mr. Al. Sorenson, city editor of The Republican, takes Mr. Annin's place, Mr. Jackman, of The Herald, comes to THE BEE as news editor, Mr. Kent, of THE BEE, goes to The Republican as city editor, Messrs. Cornish and Cole go on the city page of THE BEE, and numerous other changes are made.

Whatever changes might occur in city affairs, the authorities must submit to the genius of time by becoming in accord with the spirit of the age, for it was enly by approving itself to the high intelligence of a great people that any institution could flourish.

The Lord Mayor's banquet this evening was attended by many distinguished persons. Waddington, French ambassador, replying to a toast in honor of foreign ministers, said there was no greater guarantee of the peace of the world than the hearty, cordial, loyal

ordinary antics, but is a genuine company of a high class. Looking for Board. "Yes," said the landlady, "my board-

Is a carefully prepared extract of the best remedies of the vegetable kingdom known to medical science as Alteratives, Blood Purifiers, Dinretics and Tonics, such as Sarsaparilla, Yellow Dock, Sullingta, Dandellon, Juniper Berries, Mandrake, Wild Cherry Bark and other selected roots, barks and herbs. A medicine, like anything eise, can be fairly judged only by its results. We point with satisfaction to the glorious record Hood's Sarsaparilla has entered for itself upon the hearts of thousands of people in New England who have personally or indirectly been relieved of terrible suffering which all other remedies failed to reach.
