GENERAL SHERMAN AT NEW YORK.

The Grand Army of the Republic Gives the Veteran a Grand Gree ing.

General Sherman, since his retirement from the command of the army, has been spending a few days among his many friends in New York City, and scarcely a day passes since his arrival without some demonstration of the good will in which his countrymen hold this veteran comnoy diseasos.

At the Germania Assembly rooms last Friday night a thousand men in the uniform of the Grand Army of the Republic crowded the hall and passageways leading to it, and in their midst stood their guest

of the evening. General Barnum, in the name of the Frand Army, introduced General Sherman, and after an outburst of huzzahs which nearly shook the building General Sherman said:

"I am always glad to meet soldiers. In other days I commanded you, but now you command me. Since those days when we fought together I have traveled ver many parts of this country, and over many parts of this country, and have seen its growing greatness. I have seen towns where but a few years ago there was only an adobe hut or a barren waste, which now have their electric lights and their Grand Army posts. And in those places 1 have found that the Grand Army men were the Judges, the prominent men and the successful men of business. The Grand Army has done a great work, and I believe since the war closed -since those old days of marching

Was treated by many of the bestphysicians; took quantities of mercury, potash and arsenic, which, instead of curing the tetter, crippled me up with mineral poison and rheumatism. The Tetter continued to grow worse, and the itching almost made me crazy. In this condition I was in-duced to take Swift's Specific, and the result was as astonishing as it was gratifying. In a few months the Tetter was entirely well, the Mercurial Poisoning all out of my system and I was a well man—and due only to piwfit's Specific. All like sufferers should take it.
