

THE DAILY BEE. COUNCIL BLUFFS.

Wednesday Morning, Dec. 5.

SUBSCRIPTION RATES: By Carrier 30 cents per week; By Mail \$10.00 per Year.

OFFICE: No. 7 Pearl Street, Near Broadway.

MINOR MENTION.

See Joseph Reiter's fall goods. Additional local on seventh page. Cheap Railroad Tickets at Bushnell's. Work on Bryant street is now going on pretty well.

The Round Table meets to-morrow evening at the residence of Dr. Montgomery. Those hand painted tidies in the show windows of Harkness Bros., are making the ladies all say, "Oh, my!"

The nuptials of Alphonse Medgar, the new partner of A. Louie, to Miss Marie Campardon, are now announced.

Marriage permits were yesterday given to Fred Brunow, of Boone township, and Martha C. Brunow, of this city.

Three new members have been added to the family at the Home of the Friendless, one a widow and the other two orphans.

The funeral services of Mrs. Willard, sister-in-law of Mr. George Marshall, were held yesterday, Rev. A. K. Bates officiating.

E. W. Jackson has bid \$113 for the present city building and the old barn back of it, and the council has promptly rejected it.

Mrs. M. Carroll, fashionable dress-making. Cutting and fitting a specialty. Apprentices wanted. No. 826 First avenue, up stairs.

Wickham Bros. have done about \$10 worth of mason work for the Home of the Friendless, and generously refused the proffered cash and donated their services.

Charles Nicholson has so far recovered from his fall through a laceration in Foster Bros' store as to be sent and about again, but he has a pitiable sort of a limp.

There seems to have arisen some misunderstanding about the date of the next Royal Arcanum social. It is to be Friday, December 14th, one week from next Friday night.

A little babe, nine months old, daughter of Jack Hurly, the night yardmaster of the Union Pacific, last evening got hold of a can of lye and got some of the terrible caustic in her mouth, causing severe injuries.

Two new safes have been put into the new city building—one weighing about 7,000 pounds in the clerk's office, and the other about 4,500 pounds for the auditor's case. A vault is also to be built for the old records.

The report that Theodore Lund had died in his place of business proved to have been started from the fact that he fainted away, having been suffering some from illness. He lives to smile as usual.

Capt. Hayes, of the police force, is on duty again after a week's lay off on account of a badly sprained foot resulting from too much of a struggle in landing a drunken man inside the calaboose.

Rev. T. J. Mackay is to lecture in the Glenwood opera house Friday evening. If Glenwood people only knew him as well as Council Bluffs audiences do, the house would surely be packed. He is, indeed, a most popular and very taking speaker.

In the district court yesterday, there were a number of default cases, and various motions entertained, and then the case of Richards & Son, of Mobile, Ala., against John T. Stewart, was put on trial, and will probably take most of today. It is a case in which damages are claimed in some shipment of pork.

There was a large masquerade party Thanksgiving night in Boone township, and some of the guests forgot to take away all their things. L. Tenson, the stock dealer there, finds himself provided with an overcoat, a buffalo robe, a hat and a quilt, for which he has found no owners yet.

The city's finances are now in such shape that there is no cash in the police fund for the payment of police officers, and they were yesterday given orders on the general fund. The council is using the cash of the police fund to pay other bills with, and the men who help greatly to bring in the cash, must be content with discounting their orders.

Ed. Grimes, who was arrested for assaulting Kaeller, another C. B. & Q. employe, with an iron poker, had his trial before Justice Schurz yesterday, and was discharged. The evidence showed that Kaeller was intoxicated and came for Grimes, threatening to demolish him, and Grimes in turn drew a poker on him and hit him over the head.

By one of those provoking freaks of the type occurring in the best regulated printing office, THE BEE yesterday stated that the next lecture of the series being delivered by Rev. J. G. Lemon would be next Friday evening. Not so. Of course not. Sunday night is the time. A Sunday evening lecture on Friday night is hardly consistent. The lecture next Sunday evening is to be on the "Absurdities of Science."

The wire for the electric lights is quite low at the corner of Main and Broadway, and Ald. Eicker, chairman of the committee on streets and alleys, has notified the company that it must be put up higher. When that wire is raised, the telephone wire should be raised too, and the fire alarm wires. All the wires in the city are too low, and ought to be raised.

Hans Peter Jensen seems to have got into deep trouble. A. A. Smith, of Boone township, claims that Jensen sold him a mower which he found afterwards was mortgaged to George Feuer-

baker, L. Jensen, a stock dealer, also of Boone township, complains of Hans Peter for selling him a wagon also mortgaged to the same party. The accused has been arrested and is to have a hearing before Justice Vaughan on the 12th inst.

The newspaper men whose duty it is to sit evening after evening during the dreary draggings of the city council proceedings have tired of sitting around on the window-sills and leaning against the railing, and have modestly joined in a request for the city council to provide a reporter's table and chairs for their accommodation. The council will doubtless grant the request, as it has doubtless been a mere oversight on its part.

A visit to the building where it is located the power for the electric light, reveals a scene of busy business. The dynamo is already in place, and the lamps are being adjusted ready to put up and let blaze. The only cause of delay now is the doubt as to the engine being of sufficient power to drive the dynamo machine. If it does not prove strong enough another engine will have to be provided. Despite this, there is every reason to believe that Council Bluffs will, within a few days, have the light in active operation.

Chief Fielder arrested a man who seemed crazy drunk and who was driving at so wild a gallop along Pierce street that he would have run off a precipice and been dashed to death had not a dirt wagon stopped him. The fellow was taken to the calaboose and saved from further endangering his life. It seems strange that while a drunken man was saved from driving recklessly into the jaws of death, a good, sober, hard-working boy should be crushed to death by a falling bank.

Late revelations show that one theory concerning the robbery of Judge James' house will not stand. It was supposed that the man who on the day previous, called at the house under the pretense of fixing the pump, was the same one who burglarized the house, and that the pump excuse was merely to give him a chance to see the interior of the house. It now appears that the man who called at the house to fix the pump was an honest employe of J. C. Bixby, and that being sent out to fix a pump, made a mistake and got into the wrong house, and his visit had no connection with the robbery in any way.

Among the bills presented at the last city council, was one of Wright & Baldwin for \$30, for drawing up a city ordinance. The council has also retained Sapp & Lyman to look after all the city's cases in court. It seems as if there was little or no use in having a city attorney under salary all the year round, if the city has to get some one else to draw ordinances and attend to suits. There are cases in which any city attorney may need help, but it is generally supposed that a city attorney can draw an ordinance, and attend to some of the city's suits.

The officer in Bayliss park has been relieved for the season, there being no grass to clip, and but little to watch except a few fallen leaves. The park policeman in Fairmont park is to be retained a while, it being thought that it will pay to keep a man at \$40 a month to watch the trespassers and prevent them making the trees into cord wood. The worst loss the park ever suffered in this respect was from the acts of a park policeman, who being ordered to thin out the trees, cut down a number of the largest and best ones. If a reward was offered for the detection and conviction of any one cutting trees there, it would probably serve the same purpose in the winter as a \$40 a month man, and be much cheaper.

THE NEW DYEWORKS. F. H. Hurlbert has opened, at No. 34 Pearl street, a steam dyeing and French dry cleaning works. Plumes and tips, work, silks, satins, gents' clothing, merchant's shelf worn goods, all made as good as new.

Paving Oakland Avenue. There is considerable talk and some planning in regard to paving Oakland Avenue. Some of the property owners on that beautiful residence street, are very desirous of having it paved as well as graded. City Engineer T. Stevin was at Omaha the other day in their interest, talking over the matter with Mr. Grant, who is doing macadamizing there. He has reported to the property owners very favorably, and one of the difficulties being that the expenditure would be heavy, it was found that it could be arranged so as to give a series of years in which to pay for the work. It would be a big thing for Oakland Avenue if this improvement could be carried through, and would not only reflect great credit upon the enterprising and thrifty residents, but would doubtless rapidly increase the value of their property there, beyond the cost of grading and paving. It is encouraging anyway to see the citizens waking up, and eager for better things.

Do not fail to see Santa Claus on Saturday evening, Dec. 8th, at Crookwell's opening, at 316 Broadway. Santa Claus will, in person, present each visitor with a souvenir.

For thirty years Dr. Jeffries, of this city, has practiced successfully the science of curing disease by mesmeric psychic, odic, spirit or soul force, thereby making the blind see, the lame walk, etc.

ANOTHER VICTIM.

Charles Clark, a Boy, Killed by a Carving Bank.

Almost Time for Some Precaution in Digging.

Yesterday afternoon another of those fatal accidents occurred, which have made the digging away of the bluffs, a work of terror to many. This time the victim was a boy named Chester Clark, aged about sixteen, a son of Daniel L. Clark. The boy was at work with his father and others at a bank in the rear of the Ogden house. The boy was driving a wagon, and as it was brought up by the bank to be loaded, one of the men warned him to back out, lest the bank should fall. The boy replied that he thought it would not tumble before he could get his load, and remarked that next time he would not drive so close. He spoke only too truly about his "next time". To him there will be no next time, for even as he spoke a large quantity of dirt came tumbling down upon him, burying him alive, and covering partially the wagon and horses. As soon as possible the poor fellow was dragged out, but it was too late. Life had fled. The body was taken to Connell's undertaking establishment, and a coroner's jury impaneled, consisting of C. W. Mitchell, C. F. Adam and F. B. Fulton, a few witnesses were examined, and the simple verdict returned that "he came to his death by being smothered by the falling of a bank while excavating dirt in the rear of the Ogden hotel."

The body was then removed to the home so suddenly saddened, and which is located near the Wabash depot. It seems as if these frequent fatalities would prove sufficient warning, not only to those employed in this kind of work, but to the contractors and the city authorities. More lives have been thus lost here than by almost any accidental cause, and yet the work is pursued in the same old way. It seems as if appliances and machinery might be set at work, which would do away with the necessity of men thus risking their lives.
