LEAKS OF THE LAW.

Eisenhauer Wiggles Into Freedom With Only One Hundred Dollars Bail.

The case of the Denison clerk, Eisenhauer, who while in the employ of Mr. homans there, stole goods at various times from the store, has attracted much attention. Eisenbauer was prominent in church and social circles, and the discovery of the systematic pilfering which he had been doing through a course of years mother. Kohl is charged with its pater caused a great sensation. It is estimated that the total amount of the plunder eldest daughter. It is alleged that he tried to outrage his eldest daughter last summer. would reach \$3,000 to \$4,000. Eisenh wer confessed his guilt, but the court hold that the various thefts could not be of petit larceny, and has just served his thirty days in jail. It was the declared intention of the prosecution to crowd the other cases one by one, and if he could not be punished for grand larceny he could be given a series of

making a grand larceny offense. The ex-amination was quite a sensational one. Eisenhauer has a wife, a worthy woman, for whom much sympathy is felt. She fainted on the witness stand with her the trial aroused pity. The justice bound the prisoner over to the district court, and fixed the bail at the low amount of \$100, which Eisenhouer gave. It is now a question in the minds of many whether with only \$100 bail he will appear for trial.

Unanimous Approval of Medical Staff. Dr. T. G. Comstock, Physician at Good Samaritan Hospital, St. Louis, Mo., says: "For years we have used it in this hospital, in dyspepsia and nervous dis-eases, and as a drink during the decline and in the convalescence of lingering fevers. It has the unanimous approval of our medical staff,'

## A Russian Bastile,

Recently the party of the nihilistic paper, Narodnaja Volnia, has spread among the Russian people a pamphlet which creates much excitement all over Europe. It gives an illustration of the dreadful fate which the prisoners in one section of the Peter-Paul fortress of St. Petersburg have to endure. In this section, which is called Trubletskoi-Ravelin, each prisoner in condemned to solitary contine-ment. Revolutionists sentenced to hard labor, and also persons still awaiting their trial have to suffer here. Most of the orisoners have some education and belong to the better class. The cells are musty, wet, filled with bad odor, and poorly furnished with light. The nourishment is day for day the same, and only for a limited time to a superstance of the property of limited time the prisoners can breathe fresh air. But by the slightest fault against the rules of the prison, the wretched creatures are deprived of this privilege. Most of the prisoners suffer from dysentery, scurvy, feebleness and inflammation of the eyes. Under such circumstances there is much mortality among the occupants of the cells. No care is taken of the sick prisoners. Helplessly they lie on unclean straw mattrasses, until a keeper takes pity and The imprisoned women, also, are un-

der charge of gendarmes and jailors, and they are personally searched by them like men. It is said that a female named Terontjews was outraged and afterward poisoned. By another rumor she received the poison instead of medicine. This is so much the more credible, as the It is rarely the case that Iowa farmers plow in December, but many did last prisoners' physician is is an old man of 80 years who can hardly walk. The old doctor's assistant is only allowed to speak to the prisoners in the presence of the gendarmes and keepers, and is not of much account. His prescriptions are, as a rule, not attended to. Upon women a rule, not attended to. Upon women affected with hysterial fits cold water is poured and they are gagged. Issajeff, the companion of Gratschewskij and Tuchanoff, went into frenzy. The men's heads were closely shaved. Books are not permitted, not even the bible. Some of the prisoners had to serve in this "modern bastile" the fourth part of their long penalty. More terrible still is the fate of those who are imprisoned in the vaults of the fortress section, Trublet-skoi-Ravelin. Not a sun ray brightens these moldy caverns, where rats and vermin add to the agonies of the unfortunate.

The same terrible treatment of prison-D. W. Blackburn, treasurer of the Keckuk board of supervisors, has been found short in his accounts to the amount

professor is well acquainted with the prosecution of the nihilists. Prof. Thun, writing about the Peter-Paul fortress, says: "This citadel is for political pris-oners a place of horror. The cells in oners a place of horror. The cells in which the condemned are confined are dark, cold and damp, like a grave, the painted windows admit so little light that the lamps can only be extinguished during a couple of hours in the day. The food consists of cabbage, soup and grit for dinner, and a piece of bread for breakfast and supper. Despite the intense cold of a Russian winter the stoves are only heated every third day, and freare only heated every third day, and frequently less. Consequently, the walls A. B. Dowell, administrator, brings are damp and the floors are literally coveraction for the value of a brakeman's life, against the Burlington, Cedar Rapids & only! their undergarments and a prison cloak. All the exercise they are permittifted track of which the brakeman's life, and the exercise they are permit-

I have been using for a month or two in my household, Swift's Specific (S. S. S.) the greater portion of of it having been consumed by the female portion of my family, and with the happlest results. It acted like a charm on my wife, who had been in had health for a long time, and for whom I have paid hundreds of dollars for doctors and medicines. It seems to build her up from the first dose. Another female member of my family took it with equally satisfactory results. It is certainly the best tonic for delicate ladies that I have ever used, and I have tried them all. I have no doubt that want of exercise, close confinement in poorly ventilated houses, sewer gas poison and malarial poison often produces sickness among our wives, daughters and sisters, and I believe Swift's Specific is the remedy for all this sort of blood poisoning.

F. L. JONES, J. P. Quitman, Ga.

Treatment of Cancer. For twenty years I have suffered from a cancer or the side of my neck near the shoulder and exhausted the whole catalogue of remedies without any relief. The cancer growing worse all the time, the whole upper part of my body became stiff and full of pain. I had virtually lost the use of both arms, my general health had broken down and I saw it was only a quest in of time when life itself would be destroyed. In this condition I commenced the use of Swift's Specific. The first bottle relieved me of the stiffness in the neck, the second gave me perfect use of my arms, and I feel strong and well in every way. I am a poor man but I would not take \$5,000 for the good I have experienced with Swift's Specific. I believe it will force out all the poison and cure me.
