One drunken man, who was thrust into the cold chunk of stench called a city jail, after being nearly frozen sober, sung out through the grating asking for a chance to get warm. He said if he had killed a man he would have been given comfortable quarters, but just because he took a drop too much he must be treated like a hog. There was so much sense in his remark as to show that he was not drunk enough to be kept in, and he was allowed to seek a warmer and cleaner place.

The new city building was occupied vesterday for the first time. There were no dedicatory speeches or knocking off the necks of champaign bottles. The building is hardly that much of an improvement. Still the police court opened up with six cases, one being a drunk, two being vagrants and two free lodgers. The court room is clean, the old furniture has been revarnished, new matting laid down, and other sanitary improvements made. SHENANDOAH, Ia., December 21.-The agents of the Shenandoah colony have returned and report unfavorably as to locating the colony in Nebraska on government land. Enthusiasm Over the Electric Light.

Council Bluffs was brilliantly illuminated last evening by the Thomson-Houston light. This system has been introduced by the Pilcher Improved Electric Light Construction company into our city and is at present under the superintendence of Mr. E. A. been at the head and front in getting the electric light started in Council Bluffs, was the recipient of the following invitation, which is self explanatory:

Council Bluffs, Ia. December 21, 1883.

Hon. W. R. Vaughan, City:

Dear Sir—Recognizing your indomitable push and energy, as all worthy citizens must concede, and fully appreciating what you did for our city while mayor, and believing that a few more men like yourself is needed here to make us a great city, I desire to express my appreciation of your last boom of Council Bluffs in the establishing of a beautiful and sun-like light for us, and do hereby most cordially invite you, and through you, the press of the city, to a banquet at the New European hotel, given in honor of yourself and the electric light and would name 6 p. m., this December 21, 1883, as the hour.

P. Becheffel. P. BRCHETEL.

In response thereto the guests gathered about as tempting a spread as could be wished for. Bechtele's table is on every day all sufficient and very tempting, but on this occasion it surpassed itself. A very enjoyable feast of good things was had, after which some remarks were made. Mr. Vaughan himself gave some very sensible well chosen words on the relations of Council Bluffs with Omaha, and urged that time and energies should not be wasted in envyings or rivalry, but that growth, enterprise, and especially a building up of manufacturing interests was what merited attention and effort. . Colonel J. S. Tam, of Avoca, who was present, offered the following by request o' the patrons of the electric light:

Resolved, That we, the citizens of Council Bluffs, do most cordially endorse the present electric light, known as the Thomson-Houston system, now estab-lished in Council Bluffs by Pilcher, Bowen and Vaughan, and we pronounce it one of the most perfect, steady, unflickering, mellow and sun-like lights that we have ever witnessed, and as their patrons and friends, representing all branches of bus-iness, we do most cheerfully predict for the light great success; and be it fur-

Resolved, That a vote of appreciation of the energy and push of our worthy ex-mayor, Mr. W. R. Vaughan, be here adopted. May he live long and continue to aid our city in the future as he surely has in the past.
