Boston, December 27 .-- By the will of matches are first placed in small paper George Oakes Clark his estate, valued at \$300,000, is left in trust for the benefit of his family and after their decease and all relatives, the estate is bequeathed to Harvard College.

A Stiff in the Boad. Sr. Louis, December 27 .- The body of an unknown white man was discovered Monday on the McAllister road, near Mc-Kee Kings, Indian territory, stabbed in various places, and throat cut.

Archbishop Perche Dcad. New ORLEANS, Decomber 27.-Arch-bishop Perche died at 9:20 to-night. The funeral will take place January 2d. All archbishops of the province will be present.

heavy.

RICHMOND, Va., December 27 .- Peter is 10 feet long and 61 feet wide. In one K. Morgan, aged 98, a veteran of the corner is a tiny bath room, just large

A Texas Railroader.

Mr. Paul Bremond, the builder of the under the middle window a writing-desk, ror is set into the wall, The ceiling is of old gold embossed leather. The bed is upholstered in silver blue-tinted tapestry dotted with little roses, and this uphol-stering is carried around the walls and between the windows. The wood used in this room is satinwood. Nicolini's room is like Patti's, except that the wood is of amaranth and the upholstering is of dark, gold-threaded tapestry. Nicolini's valet has a room next to his, and Patti's two maids a room next to her room. At Nicolini's end of the car is a buffet, in which will be an ice chest, hot-water boiler, spirit stove, wine closet, silver, and table-linen. There are no arrangements for preparing any-thing more substantial than an egg or tea 641 and coffee. The manufacturer says the car is counterpart of one made by him some time ago for the czar of Kussia, to be used by the Grand Duke Michel.

phur matches per day. After the machi- a dog in the car. Finally the conductor TUTT'S nery has been set in motion the first step is to place a block in the splint machine. he soon located the obnoxious cur under With each movement of the knife twenty-five splints are cut, and at the same time stuck between two slats in the belt. They are then carried by the move-ment of the belt through the separator and thence over heated pipes to dry the timber sufficiently to allow the dipping shouts of laughter drove Mr. Conductor mixture to penetrate. About fifty feet from the starting point, the belt passes "Another time when in Philadelphia a The diseases of the human rate. These of symptoms indicate their rates. To see of Appetite, Nowels construction of Loss of a construction of body of exercise of body of the second second of food, Irrital 2378 with some dury star sees, File and ref the Beart, Now a sore the cy sa Mighly col-ored UR. CONSTIPATION, and do-mand the use of a remedy that acts directly on the Liver. As a Liver medicine TUTT'S PHLLS have no equal. Their action on the Kidneys and Skin is also prompt; removing all impurities through these three "scav-engers of the system," producing appe-tite, sound digestion, regular stools, a dear skin and a vigorous body. TUTT'S PHLLS mass no nausea or gripping not interfers with daily work and are a perfect ANTIDOTE TO MALARIA.

from the starting point, the belt passes "Another time when in Philadelphia a under a couple of rollers, which pressed servant girl at the hotel came into my it just enough to bring the ends of the splints in contact with the melted sul-of the door ahead of her, and just as she phur, which is contained in a pan or vat and kept in a liquid state by the heat from a small furnace sunk in the floor inary voice, in piercing tones. The girl underneath. A little further on the belt looked startled, opened the door again, is again depressed, and the tips of the splints are drawn through a black mix-ture, which gives them the finishing coat. From this point the matches (they have by this time attained that dign ty) pass down the hall, still travelling, as hith-erto, at the height of about a foot and a

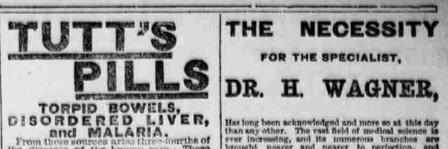

erto, at the height of about a foot and a half from the floor. At a distance of two hundred feet from the starting point the belt takes an upward turn, and after ascending four or five feet the matches begin their return trip. Passing with the belt over the top of the iron frame-work, at an elevation of about seven feet, they come hack over the top of nabout to find her child neacefully alconing. TUTT'S HAIR DYE. ANTIDOTE TO MALARIA.

A CONTRACTOR ELIMINATED.

Who, Not Long Ago, Played an Important Part in National Politics.

Has long been acknowledged and more so at this day than any other. The vast field of medical science is ever increasing, and its numerous branches are brought nearer and nearer to perfection, and no one man can any longer grasp them al Hence the necessity for dividing the labor. And is is true beyond all doubt that disease, affecting the gen-to-uthary organs need special study more than any-hing else, if we would understand and know how rest them property.

hing else, if we would understand and know how reat them property. DR, H. WAGNER is fully aware that there are many physicians, and some sensible people, who will condemn him for making this class of diseases a spe-cially, but hels happy to know that with most per-ons of refinement and intelligence a more emighten-d view is taken of the subject, and that the physic-an who devotes himself to relieving the afflicted and aving them from worse than death, is no less a phi-anthropist and benefactor to his race than the sur-geon or physician who hy close application excels in any other branch of his predession. And fortunately or humanity, the day is dawning whon the false phi-anthropy that condemned the victures of folly or crime, like the lepers under the Jewish law, to die uncared for has passed away.

A Few Reasons

Why you should try the celebrated Dr. H. Wagner's methods of cure: 1. "Dr. H. Wagner is a natural physician." O. S. Fownen, The Greatest Living Phrenologist. "Few can excel you as a doctor." Dr. J. Simms, The World's Greatest Physicomomist. . "You are wonderfully proficient in your knowl edge of disease and medicines." DR. J. MATTIRWS.

4. "The afflicted find ready policy in your knowl DR. J. MATTHEWR. D. J. MATTHEWR. D. J. SHAMS. A. "Dr. H. Wagner is a regular graduate from Bellevue Hospital, New York city; has had very ex-tensive hospital practice, and is thoroughly posted on all branches of his beloved science, especially on chronic diseases." History, in Brief, of James W. Bosler,

A Loss of \$60,000.

DETROIT, Mich., December 27 .-- A fire at Saranac, Ionia county, early this morning destroyed six business buildings.

Mass., were burned to-day. The loss is

war of 1812, is dead.

Texas Central railroad, was on the train with me yesterday and I had a long talk with him. Mr. Bremond, thirty-copper, nickel-plated wash basin, in a five years ago, had made and lost a for tune in merchandising in New York City. He emigrated to Texas, to go into the same line of business. His small stock of goods was shipwrecked and he found himself almost penniless. He persisted in his ef-forts until at the outbreak of the war he was wealthy. The war swept his property away as clean as the shipwreck. Then he went to railroading, and now he is a millionaire. He sold out of the Texas Central a year or two ago, and has since built a narrow gauge road from Houston to Nacogdoc Des. which is to be extended to Shreveport this winter, and then sixty miles further to connect with Parrymore's narrow gauge system out of Louis. Said Mr. Bremond: am convinced that a narrow gauge is better adapted for our country. The broad guage roads cannot be built to run short of fixed charges of \$1,500 to \$1,800 per mile. The narrow guage can

street side of Fulton market, last week, pushed Mrs. Bosler aside, and, being alcorner of the room, a beveled glass mir-ror is set into the wall. The ceiling is of at first appeared to be gold fish, swimready provided with a plan of the house, obtruded into the sacred presences at first appeared to be gold fish, swim-ming restlessly about in a large tank, op-posite the office of E. G.Blackford. Stop-ping to examine the fish it was found that they differ very materially from the common gold fish of the aquarium, and that in fact they had very little in com-mon with that species except the color, the more brilliant of word seized from a convenient grate. of wood seized from a convenient grate. The body was stunted and thick, hue. For this occurrence, for this muscular and the tails spread out behind and float-ed up toward the head in four apparent resistance of the power of the Brewster regime, Mr. Bosler was never called to divisions, which were much like the train of a lady's court dress, giving to the fish coount. Bosler left an excellent widow, a number of daughters who will inherit his wealth, and two brothers whom his a very majestic appearance as it moved through the water The fishes were resuccess has raised from dependence to ceived by Mr. Blackford from Japan, and luxury. they are what might properly be call-ed monstrosities of gold fish. They are They are

a mother easist of goin insit. They are produced in Japan by breeding in ponds, on a method which has hitherto been kept secret in that country. They are known there as the King-Hi-O fish, and the lot just secured by Mr. Blackford is the second that has ever been brought in the second that the second that has ever been brought in the second that the se tion. the second that has ever been brought in safety to this country. About five years ago a pair of King-Hi-O's were brought to this city and sold to the New York aquarium, Mr. Coup paying \$600 for

them. The Brighton aquarium in England thing that if performed well never fails to please the audience. No matter how dull and uninteresting may be the pre-ceding "act," no scoper does the worked. sent to Japan some time ago for a lot, but ceding "act," no sooner does the ventril-oquist come forward with his parapher-nalia, consisting of trunk, table, automa-tons and dolls, than interest revives, and

After enjoying such a performance the lot at \$7,500, or \$100 a piece. Some of the larger of the fish have a

Some of the marger of the fish have a protuberance on the top of the head like the tuffed seal. Eight pair of them have eyes which protuce for about a quarter of an inch beyond the head, like miniature telescopes, and these are known as telescopes, and these are known as telescope fish. One pair, which are known as telescope fish. One pair, which are known as telescope fish. One pair, which are known as albinos, are of a beautiful pearly white instead of a gold color. The rest are of a brilliant golden hue. They are the King-Hi O's proper, and there are fifty-seven of them in the collection. The fish are of no use except as curiosities for aquariums. They live in Japan on a peculiar kind of biscuit, nuade of rice flour and eggs, and a quantity of this food was brought with them. It is hoped, how ever, that after they become acclimated they can be accustomed to eat the food given to the German carp in this count J. W. Bingham. He was found in the dressing room of the museum, just re-moving his stage togs and donning his "store" clothes. Seated on his trunk he

given to the German carp in this coun-try, which consists largely of vegetable matter, such as water plants. Mr. Black-ford will try to breed them, and, if he succeeds, they will probably becomequite common in this country. As it is now as fair as any child ford will try to breed them, and, it is succeeds, they will probably becomequite common in this country. As it is now, they are the most curious fish known to the waters of the globe. Nothing Like It.

His treatment for lost manhood is ure to win him a name that posterity will bless. Tem housand testimonials from all over the United States rom thoses he has cured, is proof positive that he does ure the worst cases of these discases. The afflicted rom chronic and sexual discases of every kind will ad him their best friend. Read his advertisementin all our city papers, and call on him for advice, as we know you will corroborate us in saying he is the suf-terer's true friend. — Rocky Mounrain News.

# Relief to the Afflicted.

STHE GREAT SKIN CURES In medicines, as in science, the specialists are the ones who always comes to the front and accomplish great results. This remark is especially applicable to to Dr. H. Wagner, of this city. He stands at the top on his profession, and the cures he performs for the unfortunate would seem wonderful if not properly viewed in the light of scientific acquirements. He is endorsed by the most cumont of the medical faculty. His office at 843 Laramir street, where he will speedi-ily effect a cure for the suffering of either sox, no mat-ter 'ow complicated their complaint.—Pomeroy, F scients.

> Jhronic Complaints Require Time for a Cure.

Persons at a distance who wish to be treated by Dr. Wagner need not feel backward because of inability to visit him. If they will w to the doctor he will send a list of questions w nables him to send never seea. He has p station in Coloratio States. See his ad ver Tribune.
