REASONS

"The World's Greatest Phrenologist. You are wonderfully proficient in your knowledge of disease and medicine." 3. "The afflicted find relief in your presence." 4. "Dr. H. Wagner is a regular graduate from Bellevue Hospital, New York City; has had very extensive hospital practice, and is thoroughly posted on all branches of his specialty, especially on chronic diseases." 5. "Thousands of invalids flock to see him." 6. "Dr. H. Wagner has immortalized himself by his wonderful discovery of specific remedies for private and sexual diseases." 7. "Thousands of invalids flock to see him." 8. "The Doctor's long experience as a specialist should render him very successful."

Plain Facts Plainly Spoken.

At one time a discussion of the secret vice was entirely avoided by the profession, and a few years ago would hardly mention it. Today the physician is of a different opinion; he is aware that it is the duty of a physician to be able to handle this matter without gloves and speak plainly about it, and intelligent parents and guardians will thank him for doing so. The results attending this destructive vice were formerly not understood, and it was not until the importance being attached to a subject which by its nature does not invite close investigation, it was willingly ignored. The habit is generally contracted by the young while attending school; other companions through their example, may be responsible for it, it may be acquired through accident. The excitement once experienced, the practice will be repeated again and again, until at last the habit becomes firm and completely enslaves the victim. Mental and nervous affections are usually the primary results of self-abuse. Among the injurious effects may be mentioned: lassitude, depression or irascibility of temper and general debility. The boy's school, and rarely joins in the sports of his companions. If he be a young man he will be little found in company with the other sex, and is troubled with exciting and annoying bashfulness in their presence. Lascivious dreams, emissions and eruptions of the skin, etc., are also prominent symptoms. If the practice is violently persisted in, more serious disturbances take place, such as inflammation of the heart, or epileptic convulsions, are experienced, and the sufferer may fall into a complete state of prostration, finally, death relieves him. To all those engaged in this dangerous practice, I would say, first of all, do not despair, if you have possible effort to do so; but if you find your nervous system is already too much exhausted, and consequently, your will power broken, do not attempt to add to your suffering. Having freed yourself from the habit, I would further counsel you to go through a regular course of treatment, which I mistake to suppose that any one may, for some time, get over every kind of self-abuse, but this is a dangerous excitement without suffering from its evil consequences at some future time. The number of young men who are now contracting this habit, and who are being ruined by it, is alarmingly large, and in most of such cases this unfortunate condition of things can be traced to the practice of self-abuse, which has been abandoned years ago. Indeed, a few months' practice of this habit is sufficient to induce spermatorrhea, later years, and I have met with such cases under treatment at the present day.

Young Men

Who may be suffering from the effects of youthful follies or indiscretions will do well to avail themselves of this, the greatest boon ever held at the altar of self-fulfilling humanity. Dr. Wagner will guarantee to refund \$100 for every case of seminal weakness or private disease of any kind, if it is not cured, which he undertakes to do and fails to cure.

Middle Aged Men.

There are many at the age of 30 to 40 who are troubled with the effects of youthful indiscretions, and often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient has not observed. The urine deposits aropy sediment which often has a peculiar smell, and sometimes small particles which appear, or the color will be of this milky hue, again changing to a dark and turbid appearance. There are many, many men who are in the habit of self-abuse, and who are the cause, which is the second stage of seminal weakness. Dr. W. will guarantee a perfect cure in all cases and a healthy restoration of the semi-ordinary organs. Consultation free. Thorough examination and advice. All communications should be addressed, Dr. Henry H. Wagner, P. O. Box 2289, Denver, Colo. The Young Man's Pocket Companion, by Dr. H. Wagner is worth its weight in gold to young men. Price \$1.25. Sent by mail to any address.

A FRIEND TO ALL.

One Who is Needed and Nobly Fills his Place.

Denver is more fortunate than she knows in the possession of the greatest medical talent that has ever been given to her. It is not merely the perfection of his skill as a practitioner of his profession, but his knowledge of the human mind, and his thorough understanding of the laws of nature and the means of gaining the greatest practical goods to mankind from the information thus acquired in the laboratory. This man is Dr. H. Wagner, who is located at 343 Larimer street. Dr. Wagner devoted many years to the acquisition of the knowledge of the semi-ordinary organs in a number of the leading medical schools of the most eminent and profound teachers, such names as Dr. Gross and Dr. Parsons appearing among his preceptors. For all his studies and here, he continues in the field of the practicing physician and in the experience of a man of extensive travel. He has visited every section of the United States paying special attention to the different characteristics of the various portions of the country, particularly with regard to their effects, climatic and otherwise upon health and the different forms of disease. With the combined powers of close study, extensive observation and almost unlimited practice, Dr. Wagner came to Denver three years ago equipped as few have the right to claim to be the best of mankind, the devoted student of his profession. In coming under the greatest good to society, Dr. Wagner decided to lay aside the general branches of practice and bring all his time and knowledge and power to bear upon the one foe which among the army of invidious death agents is the greatest. His wife accompanied him and after equipping himself as his trained judgment was so well able to advise him he commenced boldly and confidently his attack. It is estimating the results and success achieved, it is only necessary to know the doctor's position and standing to-day. While located in this city, his practice is by no means confined to its limits nor this section of country. He corresponds and gives home visits in black and white to his possession of a field of practice bounded only by the lines which bound the earth and breaths of the country, and which has placed him where a man of his skill and intellectual attainments deserves to be. He has reached the highest sphere of usefulness to suffering humanity—the plane of financial independence. Dr. Wagner has contributed to the press by the substantial improvement of Denver in the erection of a fine block on Larimer street, opposite his present office, No. 343. It will be ready for occupancy in a few weeks, and is an evidence that the doctor is to be a permanent and permanent resident of this city, and a solid citizen of the metropolis of the plains—Denver Tribune.

COUNCIL MEETING.

Regular Meeting of the City Council Last Night.

At the regular meeting of the city council last night a petition was presented asking the city to give the right of way to the Union Pacific company to run a track up Twelfth avenue.

The petition was signed by the officials of the Union Pacific and a number of citizens. The petition was accompanied by an ordinance, which was read and laid over under the rules.

A circular letter was read from the National River Improvement company asking the council to name a delegate to attend a convention in Washington, February 5.

Alderman James presented a resolution instructing the committee on streets to expend not to exceed \$200 on Third avenue, west from the bridge, hereafter.

An ordinance was presented creating the office of city jailor and fixing the salary. Referred to the committee.

The reports of the committees on the official tests of the water works were postponed.

Alderman Keating called attention to the failure of the Union Pacific company to comply with its agreement in regard to Union avenue and the running of its dummy trains, and moved that the judiciary committee take some action in regard to the matter.

The motion was carried and the committee was instructed to report at next meeting.

Council then adjourned until this afternoon at 2 o'clock.

Twenty-four Hours to Live.

From John King, Latayette, Ind., who announces that he is now in "perfect health," we have the following: "One year ago I was, to all appearances, the last stage of Consumptive. Our best physicians gave me up, and I finally got so low that our doctor said I could not live twenty-four hours. My friends then purchased a bottle of Dr. Wm. Hall's BALMS FOR THE LUNGS, which considerably benefited me. I continued until I had used no other medicine."
