

THE DAILY BEE.

OMAHA.

Tuesday Morning, Jan. 28.

The Weather.

For the Missouri valley: Generally fair weather, variable winds, falling barometer preceded in the northern portion by a slight rise, colder followed by warmer weather.

LOCAL BREVITIES.

The Chautauqua literary and scientific circles will meet this (Tuesday) evening, at the residence of Mrs. R. D. Hills, 2018 California street.

In police court yesterday there were four cases for disturbance of the peace. One was discharged, one paid a fine of \$5 and the other two were sentenced to three days each in the county jail.

Train No. 1, of the U. P. railroad, went westward from Omaha yesterday with each coach well filled with passengers, most of whom were bound through to San Francisco.

Two celestials engaged in a home quarrel Sunday night on Tenth street, over a division of their wash earnings for the past week. No disastrous results. Fig-tallies also same.

County Clerk Leavitt has made numerous changes in his office. Old tables have been superceded by desks and the vault has been overhauled and placed in proper shape. The effect is good.

A gentleman from the Pacific coast, who has not been in Omaha since 1877, remarked to us his astonishment yesterday at the rapid growth of the city, both in business and dwelling houses, during his absence.

Yesterday was very pleasant for the pedestrian, and those generally whose business called them upon the streets. Pavements were in a slushy condition, and the atmosphere overhead damp and chilly.

A series of meetings will be held at the Tenth street mission beginning this (Tuesday) evening. On Thursday evening a gospel temperance meeting will be held. Every body is invited to attend these meetings.

Ice cutting on the river still continues, but we are informed by one of the teamsters hauling ice therefrom that on account of the slushy condition upon the surface it is considered dangerous to further continue, unless a cold snap sets in to again strengthen the ice bed.

A programme, accompanied by an invitation, has been received by us from Fort Omaha, stating that a dramatic entertainment will be given there on Tuesday evening, 29th inst. No doubt it will be a pleasant affair, and we hope our citizens, such as can do so, will attend, and thus help "the boys" along.

The electric light was not in operation last night, owing to the fact that the company is putting in a new shaft, and also a new dynamo, for the incandescent light which many of our citizens have ordered. Some of our business houses were not notified of the suspension of the electric light for the evening, and were annoyed until the cause was ascertained.

On Saturday evening J. Barnes gave a very pleasant party at his home, corner of Thirtieth and Jackson streets. It was the occasion of his twenty-third birthday, and his friends gathered to wish him many happy returns of the day. An elegant supper was served, and many friends left some very fine presents as testimonials of the esteem and regard in which Mr. Barnes is held.

A runaway of a double team of horses occurred last evening from the corner of Fourteenth and Howard streets. They traced their way on a gentle gallop until they reached Tenth street when they turned northward at which point they met a good common sense driver of some heavily laden team wagon who, seeing the runaway approaching, immediately broadened his outfit and averted their further progress.

We are ignorant as to the number of goats there are in Omaha, and also as to whether those here are "pet Williams" or otherwise, but in passing the corner of Eighteenth and Iard streets yesterday morning, we noticed one of them busily engaged in pulling down and eating from off a bill board one of the Boston-Sunday show posters, which reminded us of the fact that:

The william goat belongs To the goat grass hills, And that is the reason why He eats the bills of the circus.

Sheriff Cannon, on Sunday received the requisition papers for the two quack doctors from Tennessee, and immediately left for Lincoln. A telegram was received from him yesterday stating that he had run against a snag at LaCrosse. Gen. Cowin had been to see the governor and requested him not to issue requisition papers until he (Cowan) had been heard from. Gen. Cowin went to Lincoln to-day and will give his reasons for not wanting the papers issued. There is a gentleman in this city who knew the "quacks" in Indianapolis, Indiana, and they were then operating as they have been in the south. Take them away, Sheriff Cannon, Omaha has no use for them.

A Florence Backet. The usual quiet of the little town of Florence, some six miles north of Omaha, on the Chicago, Minneapolis, St. Paul & Omaha railway, was somewhat disturbed upon Sunday last, by a number of employees of that road getting upon a spree. There are quite a number of Scandinavians employed in grading and other work on what is known as the cut-off, some three miles from Florence. Saturday last was their monthly pay-day, and, as is customary for them they came to where they could find a "wet grogery" kept by one of their own country men. Such they found in the above named town. Often did they imbibe during the night, and to such an extent as to become quarrelsome one with another. At last, however, the single row ceased and a general melee ensued. We learn that some half dozen or more were badly used up, and that one of their number had an eye cut out by a knife in the hands of one of his fellows. Our informant says that all of them passed out to their work again on Monday morning. They are in the employ of Mr. Vincent, who is the contractor for the work upon which they are engaged.

A weak stomach or enfeebled circulation is like a rope about one's neck. We are strong and healthy alternately all winter because we use Dr. Williams' Pink Pills for Pale People.

THE TELEGRAPHERS.

Their Regular Annual Ball in Crouse's Hall Last Night.

A Beautiful Hall, a Beautiful Company, and an Elegant Party Throughout.

The annual ball of the telegraphers had been looked forward to for weeks by the lovers of the terpsichorean art, and none had anticipated too much, and, in fact, not half enough, for a finer party was hardly ever given in Omaha than that of last night.

By half-past eight the carriages began to roll up in front of Crouse's block with their loads of human freight, and by half-past nine the entire party had assembled. As one entered the room a beautiful sight presented itself. There were fully one hundred and twenty-five couples, many of whom were from the first families of this city. The ladies were all beautifully and tastefully dressed, and many of them wore elegant toilets. The gentlemen, most of whom were attired in the conventional black dress suit, never looked better.

The hall was beautifully decorated. From every corner to every corner and in every direction were festoons of evergreens, while upon every hand was to be seen the stars and stripes. At the north end of the hall, in large letters of evergreen, was the word "Welcome," and at the south end "Omaha Telegraphers." Underneath these words was suspended a large gilt shield upon which was the figures "73" in evergreen. There were numerous ornaments, such as stars, horseshoes, etc., suspended in various parts of the hall. Banners were suspended at a uniform distance from each other the entire distance around the ball, upon which were the initials of the various roads leading into this city and Council Bluffs. Upon the whole the effect was very beautiful, and many remarked that it was the most perfectly decorated room ever seen in this city.

The programme of dances contained the following figures, which was faithfully adhered to:

- 1. Grand March.....Weingarten
- 2. Lanciers.....Schlegel
- 3. Waltz.....Lanotte

Irvine's orchestra furnished the music which was superb. After the close of the seventh dance the following telegrams from operators in foreign cities were read:

ST. PAUL, MINN., January 28. OMAHA TELEGRAPHERS, CROUSE'S HALL: Business prevents my attending to-night, which fact I regret exceedingly. I trust, however, you will all enjoy yourselves hugely, and drink to the health of the absent ones. H. C. HOPKINS, Supt. St. Paul & Omaha Tel. System.

ODEN, January 28, 1884. THE OPERATORS ANNUAL BALL: Mornington contributes its quota of felicitations on this auspicious occasion, and hopes that the terpsichorean revelers may enjoy themselves in the fullest sense. W. D. WILLIAMS, P. KRAMRY.

Between the twelfth and thirteenth numbers paper was served in the Masonic hall. Four tables were placed the entire length of the hall and 250 persons could be seated at one time. The room was prettily decorated with evergreens and flags. Mr. Thos. Callan had charge of the supper and it reflected great credit upon him and his estimable lady.

After supper the party again repaired to the dancing hall where they made merry until an early hour this mornng. The telegraphers ball of 1884 will long be remembered by those in attendance. The gentlemen who had the affair in charge did not fail in any particular to make it a most pleasant and successful party.

The committees were composed of the following gentlemen:

J. G. Boyd, chairman; C. K. Oralle, H. E. Jenkinson, H. D. Gibson, R. J. Clute, W. O. Tremaine, J. H. McGuire, G. S. Soule, G. F. King, T. B. Seelye, W. A. McElroy.

THE LINCOLN TEACHERS.

They Visit Omaha and Its Schools in a Body Yesterday.

Comparison Between the Schools of Omaha and Lincoln.

The male and female teachers of Lincoln, with the exception of two, made an excursion to this city yesterday, arriving here on the 9:30 a. m. train. They were met at the depot by Superintendent James, of the Omaha schools, by whom they were welcomed to the metropolis.

The visitors were as follows: H. S. Bowers, county superintendent of schools, and wife; E. T. Hartley, superintendent of the city schools of Lincoln; Teachers G. G. Bullock, G. H. McKinnon, S. P. Garrett and wife, Mrs. D. P. Tiffany, Miss K. Keckley, Miss Della Walsh, Miss Kuffin, Miss Tibbets, Miss O'Connor, Miss Smith, Miss Sweet, Mrs. Franklin, Miss Berne, Miss Coddling, Alice Coy, Miss Ryan, Miss Thompson, Miss Morsey, Miss Riley, J. M. Snell, and D. W. Hoff. Upon their arrival in the city they immediately proceeded to visit the different schools, each visiting the department with which they are similarly associated in Lincoln. The day was enjoyably spent by the visitors as well as the visited, and a general interchange of ideas upon scholastic matter was indulged in.

SAD FATALLY.

A Mother and Daughter Both Claimed by the Angel of Death.

They Both Died Within a Few Hours and Will be Laid Side by Side in One Grave.

RIDER-At her late residence in this city, 1209 Sumner street, at 2 o'clock Sunday morning, of pneumonia, Maria, wife of Wm. Rider, aged 68 years and 11 months.

CAS-In this city, of pneumonia, yesterday morning at 6 o'clock, Harriet Isabelle, wife of R. H. Lucas.

These two ladies were mother and daughter, and their sudden death brings a shade of deep sorrow over the hearts of a large and devoted circle of friends. On Wednesday last, which was a bitter cold day, the elder of the two ladies took a severe cold, while suffering from a slight attack of asthma, to which she was subject. She became quite ill, although her sickness was not considered dangerous. Mrs. Lucas, her daughter, went to her mother's bedside on Thursday, and remained there all night, during which time she also contracted a severe cold. She continued to remain with her mother, however, until Saturday noon, when she was obliged to retire to her home and take to her bed. Physicians were called and they at once pronounced it pneumonia, and feared for the worst.

After the departure of her daughter, Mrs. Rider speedily grew worse and notwithstanding the skill of physicians and the kind care of loving hands, on Sunday morning at 2 o'clock, she passed quietly away. Mrs. Lucas rapidly grew worse and long before he came it was evident that the angel of death would call for her. At 6 o'clock a. m. yesterday, Mrs. Lucas closed her eyes in death, and passed over the river to join her mother on the other side.

The remains of Mrs. Lucas were taken by undertakers Drexel & Maul from the late residence on Cumings street, where she died, and conveyed to the residence of her father on Saunders street, and laid in the same room with the body of Mrs. Rider.

On Wednesday morning at 10 o'clock, there will be a double funeral from the residence of Mr. William Rider, 1209 Saunders street, to which all the friends of the families are invited. Religious services will be held at the house, after which the bodies of mother and daughter will be laid side by side in one grave. Mrs. Lucas was the wife of Mr. R. H. Lucas, the Cumings street grocer.

Poisoned with Potash and Mercury. In the tale of a large percentage of sick people in the world; such a large number, in fact, that it is hard to tell whether there are not as many victims to the mineral poisoning as to diseases of blood and skin.

"I took potash," said one, "and while it partially dried up the eruption temporarily, it made me dry up my vitality for all time. It drove the disease in my system, only to break out again on some other part of my body."

To such Switt's Specific is the remedy which is worth more than all the world besides. It drives out the poison of the blood, and eliminates this mineral poison, and builds up the general health.

He sure to get the genuine, and send for Treatise on Blood and Skin Diseases, free. THE SWIFT SPECIFIC CO., Drawer 3, Atlanta, Ga.

A Lawyer's Opinion of Interest to All. J. H. Tawney, Esq., a leading attorney of Wisconsin, Minn., writes: "After using it for more than three years, I take great pleasure in stating that I regard Dr. King's New Discovery for Consumption, as the best remedy in the world for Coughs and Colds. It has never failed to cure the most severe colds I have had, and invariably relieves the pain in the chest."

Saratoga Literary and Debating Society. The weekly entertainment given by the above society, was well attended on Saturday last. Recitations by Misses Lawton, Hopkins, Greenleaf and Master Bancroft, were well received, as was also an "Apple Lecture" by Mr. McMillan. Following the literary programme, came the debate of the evening; Resolved, "That the pulpit is a better means for the development of oratory than the bar." Mr. F. Ivanhoe took the affirmative, with Mr. Galbraith on the negative side, being assisted by Messrs. McMillan and McKenzie, Sr., respectively.

On opening the debate Mr. Ivanhoe clearly defined the meaning of the word

The subject for the next debate is "Resolved: That present indications point towards the downfall of our nation." This will be discussed two weeks hence, when a number of city friends will attend. Postponement is necessitated by the society's concert taking place next Saturday. An excellent programme has been provided for the occasion.
