THE DAY IN CHICAGO.

* Asked.

Special Dispatch to THE BEE. CHICAGO, February 6 .- The board of trade was very active to-day, and at times intensely excited. Speculation shifted into wheat, after several days absence, and, as it grew in volume, included all the local crowd and induced a flock of outside orders. Trading began at 98%c, and for a time lagged until a line of shorts of 200,000 bushels was covered, when a general buying movement began, which carried prices upward 2c, when 101 was reached. There was a jump made by the longs to realize, and some selling by the bears, which hammered down prices about 2c. A good many lines of long wheat were bought. The temper of the crowd was unmistakeably bullish, and all advices to customers were in the same tenor, February and March are always bull months. The demand is excellent. The manipulators of provisions passed a quiet day, and made no attempt to bulge prices. A slight advance was marked, which was afterwards lost, and on the whole pork and lard were quiet, and not extensively tradedin. Prices are pointed to \$20 a barrel, and there appears little doubt that most of this at least will be realized. The clique have the market thoroughly under control, and

the market thoroughly under control, and among the local traders there is a disposition to avoid heavy trading either way, the gen-eral theory being that prices are likely to ad-vance, it is to late to buy and not time to sell. GRAIN AND PROVISIONS.

SAFE INVESTMENTS

Omaha Real Estate is a safe investment for both local and foreign capital, and there is no property, in or around the city, but what will bring purchasers good returns in the near future. We have property for sale in all parts f the city, and also

ACRE PROPERTY

Surrounding the city, all of which we gladly show to parties who feel interested.

We are often asked which is the best part of the city for an investment? We always advise patrons to buy what is called

Inside Property.

By this is meant property not more than one and a half miles from the Postoffice, and the nearer the center the better the investment. While outside property will steadily advance in price, inside property will advance much greater in proportion. The new addition to the city known as

s located one mile from the postoffice, west, only nine blocks from the High School, and these lots are being sold at less than half the price asked for lots same distance in any other direction, and

NOW IS THE TIME TOBUY,

As these lots will, in a short time, be advanced to correspond to prices of

lots surrounding Hawthorne. The contract has been let for grading Davenport street through this addition. Work has been commenced and will be finished early in the summer. Purchasers of lots in Hawthorne will not have to bear any expense for the grading. This is a decided advantage. Prices for regular size lots

\$350 TO \$575

We have also some double lots in this addition at from \$600 to \$650. This part of the city is being built up with the best class of residences. Near business, near High School, and desirable in every particular.

KIRKWOOD.

We have a lew lots left in this addition, which we will sell at lower prices than can be had in surrounding additions. The lots are beautifully located and larger than then those in adjoining additions, and will be

sold on terms to suit purchasers.

IN ALL PARTS OF THE CITY. RMSI

In Douglas County and all parts of the State.

SUBURBAN! A fine tract of land three and one-half miles from Omaha at \$10 per acre. Also a tract four miles from the bity at \$30 per acre.

Kirkwood.

cash and 5 per cent, per month. HAWTHORNE

Of all the lots we have for sale, we think this is the most desirable either for a home or for investment, as it is near business nicely located and at present prices is the cheapest property in the market, and first
