### THE DAILY BEE ... OMAHA, THURSDAY, FEBRUARY 14, 1884.

THE MORAL OF IT. We may moralize as much as we please about pain; but the fact is, that we don't like it while it lasts, and that we want to get rid of it as soon as we can. Whether caused by rheumatism, gout, disordered liver. weak nerves, irregular kidneys, bad blood, or anything else that is just the reverse of what it should be, the They Defiantly Face an Oversooner it is out of the system the happier we are. Whether pain is the result of imprudence or of accident, or is sent as a punishment for our sins, may be a nice question for the philosophers to argue; but people who are suffering want first to be rid of the pain, after which those who are fond of argument may argue the matter to their hearts' content.

Above all theory, argument, and philosophy, comes the delightful fact that BROWN'S IRON BITTERS drives pain away. Sufferers run no risk in trying this medicine, the only compound containing iron which carries no mischief with it. Those who have used it will tell you so; and you can try for yourself by buying a bottle of the nearest druggist. 7
