SOUTHERN NEBRASKA.

Farmers and Stock Men Declare Themselves Contented With the Much Watered Furnas County.

Spring is drawing near-the season in which, if we are to believe the most famous of English poets, young maidens "lightly turn to thoughts of love." But in this practical country, where usefulness is esteemed above other things, the 50 well-to-do mechanic, and the speculator with its practical sense of justice to all, make up their minds as to where and how is a pretty town. they shall invest their surplus earnings. It is for their benefit that the following place, we notice brief description of the best watered country in Nebraska is herewith given in proprietor, D. M. Tomblin; and the columns of the BEE:

In the Republicon valley, extending 24 miles from north to south, and 30 miles promptly answered. from east to west, is bounded on the north by Frontier and Gosper counties, on the east by Harlan, on the south by the state of Kausas, and on the west by Red Willow county. It contains 460,000 acres, of which 348,760 are capa-

Water courses abound; the Ropublican, Sappa and Beaver, with their business firm here is numerous tributaries, along the banks of which timber grows plentifully.

the bottom lands a blue stem grass is found, making good hay. Millett and mammoth grass yield immense quantities. These facts serve to explain why stock raising is the principal resort of the

to suppose that in Furnas county the farmer's occupation has given way to the stock raisers. On the contrary, here, as elsewhere, it has been proved that farming and stock raising go hand in hand. In nine-tenths of the county rye, millet, barley and oats are "a sure crop;" next comes wheat, and corn will in ordinary may see fit to try them. years give bountif 1 returns. The pe riod of the grasshopper is passed-and government land is yet to be had in the

A contented people dwells in this por-tion of the Republican valley. The old settlers point with pride at the many near towns and villages, with their mills, churches and school houses, and at the Plasters, without a single exception, are 266TH EDITION. PRICE \$1.00 settlers point with pride at the many filled corn bins, the herds of bellowing cattle and the broad acres, comparing in their mind the present plenty with the hardships of the past. Ben Burton, now resident of Arapahoe, can tell, if he wants-and he generally wants-of the three enemies of the pioneer: the chinch bug, the grasshopper and the Indian. He and those with him, who have suffered in days gone by, believe in the future of Furnas county. Next, if not equal to the great natural advantages of Furnas county, its future prosperity is due to the energetic men who have settled on the land. Such men as Crutcher, Phelps & Jones, of Beaver City; Child & Colvin, Tomblin, Bennet, Clute, Finch, Winslow, Clark, &c., of Arapahoe, and S. Dow, Van Buskirk and E. Pease, of Oxford, give strength and success to the the number of pretty girls and charming

right side of my father's upper lip. 1. started like a blood blister, and kept increasing in size. Its progress was slow until within three years, when it grew more rapidly and finally spread out upon his cheek and upon his lip both outside at prices from \$3.00 to \$10.00. Letters and inside, extending downward to the gums. It cracked open and split out like a seed wart. Several physicians were consulted, but they could afford no relief, and said that there was no hope of curing him-that the terrible cancer would spread until his face would be literally eaten off. You can imagine how such a horrible decision as this would effect a man's peace of mind. My father, who is now 67 years old, was a hardworking and industrious man, but about a year ago, so greatly had the prospect of death from a louthsome disease effected him, his mind began to fail, and we had to keep an almost constant watch upon him. He had become a burden to himself. The cancer emitted a most revolting stench, which permeated the entire house. "Well, this was about the condition of

> read in the Boston Herald an advertisement of Swift's Specific (S. S. S.), manufactured by the Swift Specific Co., of Atlanta. Ga. I saw that it was highly recommended for blood diseases, and I sent for two bottles. Father tried one and was not apparently much helped; but the second had a marked effect, as the cancer immediately began to heal, and a healthier look appeared about the edges. We persisted in the treatment with Swift's Specific (S. S. S.), and now, after using in all eight large bottles and four small ones, all that remains of the tion? Probably not very early or very cancer is a small "root" not so large as a often. But it does not cost the consumer pea, which is itself steadily appearing. Naturally, my father is greatly cheered by his improved condition. His general health is very good, and his mental troubles have been greatly alleviated. There is no doubt whatever that Swift's Specific (S. S. S.) Nails, etc. is entitled to every particle of the credit Crockery. for saving my father from a death most horrible to think of. Let There be Light! VALLEY, Neb., February 23, 1883.

To the Editor of Tug Ber: DEAR SIR-Some one has said: "There is no pleasure comparable to the stand. It is at this season when the pores open freely at ing upon the vantage ground of Truth."

I believe this is so, and I also believe Baby Humors, Scrofulous Sores, Abso that the truth upon all questions affecting the public welfare is what a large are majority of the people want. John Sherman, a candidate for presi

dent, writes that the tariff is not to protect capital but to protect labor, Now, every candid, thinking man knows the exact opposite of this is the truth. Who ever heard of a tariff on labor! We have imported over 4,000,000 for-

eigners during the last ten years, who landed on our shores free of duty and free to compete with us for the benefits secrumg to a free people. All right: this is in accordance with the genius of our institutions.

But we tax imports 10, 20, 40 or 50 per cent, for what! To protect American capital-as everybody knows.

This tariff business, like religion, has been so mystified by the high (tariff) priests as to be well-nigh incomprehensi le to the average citizen, and it is with a view to simplifying it and rendering it easily perceptible that The Farmers' Review publishes the following:

"Suppose government should lay a direct tax of 40 per cent, upon every pound of nails, 55 per cent, on every dish, 35 per cent, on every yard of cotton cloth and 70 per cent. on every yard of wooler cloth bought by the people of the United States. Suppose government should keep a collector in every store to assess and collect the tax from every customer in such a way that the customer would know exactly what he was paying for the Rosolvent \$1: Soab, 25 eta. Porren Daug and Chem. goods and exactly what he was paying for tax, how long does any one think such a system could be tolerated! Suppose the bill should be made out so that the customer could see the cost of the goods and the amount of tax right before his eyes, how long would he submit to the exaction without protest? Sup affairs when, about four months ago, I pose the bill should run something like

of mds. of tax. \$4 00 5 50 Nails and other iron. **\$**10 00 Crockery. Cotton cloth... Woolen cloth... .\$40 00 820 00

If the customer saw and understood that he was compelled to pay \$20 taxes every time he bought \$40 worth of goods, how early and how often would he vote for the candidate for congress who advocated and upheld such a system of extorof goods one cent less for tax because the fact that he is paying the tax is adroitly concealed from him. The bill is made out as though it was all for merchandise and nothing for tax. Instead of appear ing as above, it runs something like this:

Woolen cloth....

The \$20 of tax is there all the same. although the customer doesn't see it. If he were to carry about with him a pocket edition of the tariff schedules he could, system manage to befog their victims. But it is not practicable for the average citizen to carry a tariff guide book around with him. He ought, however, to know that wheneverhe buys \$40 worth of goods falling within the above named schedules he must pay from \$14 to \$28 tax, according to the kind of goods he buys. If he once gets a firm grip on this fact, he will probably agree with Mr. Morrison that a considerable bearing down on these schedules would be very much to his in terest as a purchaser and consumer of

goods." The sooner the "sturdy veomanry" of our country see the thing as it is the bet Yours truly, ter for them.

An Embezzler in Convulsions, arrested and brought here to-day, charged with destroying manifests of coal, the duty on which was many thousand dollars, and keeping the money; also charged with embezzling \$4,000 government money. When brought here he was taken with convulsions, and lies in a

FURNAS COUNTY,

ble of cultivation.

"History of Nebraska" says: "Along the banks of the streams there is considerable natural timber. Though not of much value for building purposes it is sufficient to furnish an abundance of fuel." A part of this statement is hardly true. That Furnas county is not lacking in timber good for building purposes is clearly demonstrated to any one who visits Edward Anguish's saw mill at Arrapahoe. There may be seen at any time a number of logs of huge dimensions turned into good building material. Last year Mr. A. had sawed 500,000 feet. The fact is that for timber, fuel and abundance of pure running water Furnas county stands foremost in southern Nebraska. During ordinary winters the Buffalo grass makes fine grazing. On

country.

It would, however, be a great mistake

NARROW ESCAPE

Easton from a Horrible Death. A journalist whose meanderings in search of news led him into the thriving village of South Easton, yesterday, found the recent escape of Mr. Caleb S.

Lothrop of that place from death in one of its most horrible and repulsive forms to be a topic of general comment, In reply to all inquiries for details, the resee his son William, up here at the shoe

"Some ten years ago," said he, "a slight swelling manifested itself on the

D. R. Locke, Petroleum V. Nasby (Editor "Toledo Blade,") writes:

I had on a forefinger of my right hand one of those pleasant pets, a "ren-round." The finger became inflamed to a degree unbearable and swollen to nearly twice its natural size. A friend gave me "HENRY'S CARBOLIC SALVE, and in twenty minutes the pain had so much subsided as to give me a fair night's

TORPID BOWELS,

ANTIDOTE TO MALARIA

Cuticura Remedies are the greatest medicines on earth. Had the worst case Salt Rheum in the country. My motherhad it twenty years, and in fact died from it. I believe Cuticura would have saved her life. My arms, breast and head were covered for three years which nothing relieved or cured until I used the Cuticura Resolvent internally, and Cuticura
