The Democratic Programme Regarding the Appropriations.

Lizzie Nutt's Touching Letter to the President.

# FROM WASHINGTON.

RANDALL PROCRASTINATES. Special Dispatch to Tue Bee.

WASHINGTON, March 2 .- While the revenue reform members of the ways and revenue reform members of the ways and ure, Morrison says, it will be means committee seem more hopeful of granted. The republican members of the passage of their bill by the house than they did a week ago, and while they sneer at prophesies of a democratic bolt in the house they manifest anxiety on the committee contemplate preparing a minority report. They say such a report can be prepared within two or three days after the meeting Tuesday, when they will be authoratively notified of the account of Randall's programme of delay. Practically nothing has been done by the house in regard to the great supply bills. It will be possible for Randall to mass the appropriation bills from this time so that if congress is to adjourn before the meeting of the democratic national convention there will practically be little opportunity to transact any other business than the passage of the appropriation bills. The general programme now is to have congress adjourn July first. The situation of the democrats in the house is a perplexing one, not only on account of Randali's procrastination, but also because of the determination of Converse and a knet of democrats to push the bill to restore duties on wool. Converse has again promised that Monday next, when motions to suspend the rules and pass bills will be in order, that he will demand a vote on that measure. The speaker has promised to recognize him. If Converse shall do this and the republicans sustain him the bill will not receive a two-thirds vote, but the vote will be something of a test of the strength of the revenue reformers in the house.

A TOUCHING APPEAL. The president received a touching letter from Lizzie Nutt, of Uniontown, Pa., the girl, as everybody knows, whose father lost his life in defending her sianderer. She asked to be appointed written with most delicate taste and she describes her situation with modesty and dignity. The penmanship would pass muster before the civil service commission and the form in which the letter appears is quite business like She says was on top of Rande and had the life that being aware that there is a vacancy nearly choked out of Rande when Garvin in the postoffice, she has been advised by friends to apply for the appointment and believes herself to be possessed of the necessary qualifications. The terrible troubles which her family have recently further allusion to the recent tragedy, but asks that if the president finds, upon investigation, that she is qualified to perform the duties of postmaster that he will give her the appointment. The president is kindly disposed toward the girl and will probably make the appoint-

The reduction in the public debt for February is \$2,582,586, and for the eight menths just closed \$67,590,074, against \$7,630,678 and \$102,638,346 respectively for the two corresponding periods of the preceding fiscal year. The average monthly reduction for the current year has been \$8,572,759, and for the same period last year \$12,829,793. The difference in the aggregate of reduction for the two periods named is entirely due to the falling off in revenue receipts, which falling off is the result of the operation of the tariff act of March last.

THE NORTHERN PACIFIC GRANT. Payson, of Illinois, who has been a leader in the fight against the Northern Pacific land grant and has charge of the bill to torfeit everything west of Bismarck, was asked to-day if he had any idea that it would pass the house. He replied: "Yes, I am quite sure of it."

'But will it pass the senate?" "That is another matter. I don't be lieve it will. I have no idea that the senate, as now constituted, will agree to

a forfeiture of the land grant."

JUDGE M'CHARY'S SUCCESSOR. Senator Sabin was asked to-day if the president would appoint General Sanborn of Minnesota to succeed Judge McCrary "I think he will," replied the senator. "Every indication points that way. There is strong competition but no opposition, and Sanborn's indorsement is

much the strongest of any candidate. "McCoid is his principal oppenent?" "No. I think we have more to fear from Brewer, the Kansas candidate, or the Colorado man, who is being pressed by Secretary Teller, but I am very hope-

ful of Sanborn's appointment.' WOMAN SUPPRAGE.

The national woman's suffrage conven tion meets here next week, and delegates are commencing to come. Miss Anthony has been at Washington all winter doing missionary work among congressmen, and she thinks there is a growing sentiment in both branches of the national legislature favorable to universal suffrage. CRIME AND CRIMINALS. DESPERATE FIGHT WITH A CONVICT. JOLIET, Ill., March 2 .- A murderous assault was made upon Captain John McDonald, deputy warden of the penitentiary here. The assassin was a notorious desperado, named Frank Rande. Deputy McDonald, in going his rounds, entered the collar shop, where Rande works. stopped at the desk of Keeper Madden to receive his report. While the deputy was talking with the keeper, Rande snapped his finger at his keeper and raised his hand, giving the sign for a request to go to the closet. Madden nodded assent and resumed conversation with the deputy, whose back was turned toward Rande. The keeper also turned his back to Rande, to give an order to another convict. Instantly Rande (who was crossing the room) picked up a heavy iron poker, three feet long, and rushed upon Deputy McDonald, striking hin: on the head with all his force, smashing in his skull. Mc-Donald dropped senseless, Rande shouted, "I have killed the son at last," and drew a large precious repution and whose brother was knife. Keeper Madden rushed upon they were charged by cavalry. alive this evening and conscious, and hopes are entertained of his recovery.

Rande is likely to recover from the CONSTANT wounds received in the struggle. He is! still very defiant, and expresses regret at his failure to kill McDonald outright. The bullet in his head has not yet been extracted. He is evidently preparing to play the emotional insanity dodge in case McDonald dies, as he asked several times to-day whether he will be hanged in that event, adding that he should not be punished because he could not help it, being impelled by a higher power.

PREACHING AND STEALING. Springfuld, Ill., March 5.—Rev. GRAHAM'S BATTLE WITH DIGMA. pecial Dispatch to THE BEE.

LONDON, March 2 .- According to news which has been coming in to-day, General Graham has met Osman Digma's forces on almost the same ground as that upon which Baker Pasha's worthless command was slaughtered. Disciplined British troops were opposed to a horde of half armed Arab guerrilla's and the result was as usual, a rout and defeat of the latter with considerable loss. THE MARCH TO TOKAR. logular Press dispatches. SUAKIM, March 2 .- British troops entered Tokar at noon Saturday. A few shots were exchanged with the enemy when 4,000 rebels holding the town fled.

Osman Digma is encamped three miles distant from Suakim. A battle with him is expected when the British troops return to Suakim from Tokar. All reports commend the steadiness with which the British moved on Teb. The square in which they advanced to battle was never broken. The determination and bravery of the rebels was shown, in fact, when numbers of them threw themselves upon their backs on the ground and speared the horses of the troopers as they dashed

over them. The march to Tokar was accomplished in four hours from Teb. The Hussars scoured the country and kept up a desultory skirmishing with the enemy, who retired in a disorganized manner in the direction of Tamanieb. The Arabs lost 1.100 men dead on the field at Teb, besidesguns and other munitions. The whole camp, including 375 tents and many camels, was taken. The condition of the camp showed that the rebels relied send a part of the Tokar garrison to Tukala to destroy the fortifications. He will then march to Tamanieb, where he will convoke the sheikh, friendly tribes rangements to keep open the routes to Suakim and Berber.

After the battle Baker Pasha and Admiral Hewitt returned to Trinkitat. The soldiers cheered Baker Pasha, who is severely wounded. The enemy's trenches were found completely filled with

Vining ordered the reduction of Colorado rates against the advice and request of the Burlington and Alton, and his precipitate action has put a damper upon the Burlington negotiations, which were progressing favorably toward peace. from which it is doubtful if they will soon recover. Alton and Burlington, with their western connections, have music in the air. As soon as Vining and the members of his association learned that the Santa Fe had decided to stand by the Frisco line they proposed to Alton and Burlington to restore old rates. The latter, however, would not be persuaded. Vice President A. E. Touzalin, of the Santa Fe, arrived in Chicago yesterday morning, and in the afternoon and evening was in close consultation with the Burlington and Alton

officials. The conference terminated at 8 o'clock, and at 8:40 Touzalin left for trains were both wrecked, and one engine Topeka. The result of the conference has been the formation of an alliance between the Burlington, Alton, Santa Fe, St. Louis & San Francisco and Denver & Rio Grande as against the Western Trunk Line association. The alliance thus far is for the purpose of dealing with the Colorado complications, but that it will be continued is not improbable. Notwithstanding the repeated requests yesterday on the part of the Western Trunk Line association to consent to a restoration of rates, the lines in the new alliance flatly refused to do so. Whether further cuts will be made by either combination has not been announced, but the general impression is that a material cut will be made to-morrow by the new alliance. Should this be done the bars will be lowered for a general western war. Up to midnight no lives have been reported lost from the fact that it was Sunday and none ven-tured to leave their houses. Trains were delayed all day and all cuts have drifted full of snow so that it will be necessary to clean them out before trains can be resumed. Reports come from all parts of Dakota that the snow in some places was light but the wind terrific. The thermometer was five to ten degrees below zero and the blizzard reached this city this evening but had spent its force. To night all points north report clear weather and ten to fifteen degrees below zero.
