Durham is historic. It was neutral ground during the armistice between Sherman and Johnson. Soldiers of both armies filled their pouches with the tobacco stored there, and, after the surrender, marched homeward. Soon orders came from East, West, Northand South, for "more of that elegant tobacco." Then, ten men ran an unknown factory. Now it employs 80 men, uses the pink and pick of the Golden Belt, and the Durham Bull is the trade-mark of this, the best tobacco in the world. Its Good and Bad Members-The Remarkable Experiences of a Close Observer of its Workings During a Long Residence at Washington.

(Correspondence of Rochester Democrat.)
No city upon the American continent has a larger floating population than Washington. It is estimated that during the sessions of congress twenty-live thousand people, whose homes are in various parts of this and other countries, make this city their place of residence. Some come here, attracted by the advantages the city offers for making the acquaintance of public men; others have various pasintance of public men; others have various claims which they wish to present, while the s 50 00 s 50 0 corporations or private emerprises may ring. While walking down Pennsylvania avenue

While walking down Ponnsyvania avenue the other day I met Mr. William M. Ashley, formerly of your city, whose long residence here has made him ususually well acquainted with the operations of the lobby.

Having made my wants in this particular direction known, in answer to an interrogative, Mr. Ashley said:

Yee, Mr. Ashley said:
Yee, during my resistence here I have become well acquainted with the workings of the 'Third House,' as it is termed, and could tell you of numerous jobs, which, like the 'Heathen Chinee,' are peculiar."

"You do not regard the lobby, as a body, victous, do you;"
"Not necessarily so, there are good and bad men comprising that body; yet there have been times when it must be admitted that the combined power of the 'Third House' has overridden the will of the people. The bad influence of the lobby can be seen in the numerous blood bills that are introduced at ery session.

"But how can these be discovered?"

"Easily enough to the person who has made the thing a study. I can detect them at
