New York World.

A World cable dispatch recently re-ferred to the high play at the various clubs in London and Paris and incidentally mentioned the fact that a Russian nobleman lost in one sitting £80,000. In an issue of a western paper some weeks ago the propriety of the country was startled by a detailed description of a gambling house engineered and patron-ized by females. Since then the exist-ence of such institutions in various other cities has been made known. The most prominent and noteworthy of them all,

It is is located in a cosy, quiet-looking old mansion of the stately and monu-mental type and within two blocks of the suspected. The proprietress of the house was originally the friend of the proprietor

The place was extensively advertised as a "Ladies' Clubhouse," and soon be came quite popular, the mere so as no men were admitted. Roulette and faro, whereas the youth smiled with a great noir, were at first dealt, but the gaming got into the car and sat down near the New Orleans, who lost over \$8,000 in money and jewels at a sitting, and so re-plenished the nearly empty coffers. For the past few months the "bank" is said to have enjoyed an unexampled run of luck scarcely ever losing.
