

Thousands Hastened to their Graves. Relying on testimonials written in glowing language of some miraculous cures made by some largely puffed up doctor or patent medicine has hastened thousands to their graves; believing in their almost insane faith that the same miracle will be performed on them, and that these testimonials make the cures, while the so-called medicine is all the time hastening them to their graves. We have avoided publishing testimonials, as they do not make the cures, although we have

THOUSANDS UPON THOUSANDS of them, of the most wonderful cures, voluntarily sent us. It is our medicine, Hop Bitters, that makes the cures. It has never failed and never can. We will give reference to any one for any disease similar to their own if desired, or will refer to any neighbor, as there is not a neighborhood in the known world but can show its cures by Hop Bitters.

A prominent physician of Pittsburg said to a lady patient who was complaining of her continued ill health, and of her inability to cure her, jokingly said: "Try Hop Bitters." The lady took it in earnest and used the Bitters, from which she obtained permanent health. She now laughs at the doctor for his joke, but he is not so well pleased with it, as they do not make a good patient.

A LADY'S WISH. "Oh, how I wish my skin was as clear and soft as yours," said a lady to her friend. "You can easily make it so," answered the friend. "How?" inquired the lady. "By taking Hop Bitters," said the friend. "It will give you a clear and blooming health. It did it for me as you observe."

GIVEN UP BY THE DOCTORS. "Is it possible that Mr. Godfrey is up and at work, and cured by so simple a remedy?" "I assure you it is true that he is entirely cured, and with nothing but Hop Bitters, and only ten days ago his doctors gave him up and said he must die, from Kidney and Liver troubles!"

The kidneys send a purifier of the blood and when their flow is interrupted, they cause the most painful and dangerous of all diseases. Hop Bitters, when taken with a glass of water, restores the kidneys to their natural state and the blood to its natural purity. It is a most valuable medicine for all kinds of kidney and liver troubles. It is sold by all druggists. Price 25 cents a bottle. Wm. W. Wood, Proprietor, 109 Fulton St., New York.

It was announced in Sunday's issue of the Kansas City Journal that A. J. Bleshen, for four years past general manager of that paper, will retire, having sold his interest, slightly less than one-third of the company for \$50,000. J. B. Lawrence assumes the duties of managing editor and J. E. Mann that of business manager. Mr. Bleshen is also president of the Kansas and Missouri associated press, from which position he will also retire. The relations of all parties are altogether cordial.

The residence of James Powers, superintendent of Powers, Burns & Co. coal mine, at Reynoldsville, Pa., burned Saturday morning, the inmates barely escaping with their lives. Loss, \$10,000, on which was an insurance of \$3,000. Anonymous letters have been received by Mr. Powers for some weeks warning him to leave, that his property would be in danger. The company employs about 300 miners, a number of whom were black-lifted after the strike last fall. The fire is the work of an incendiary without doubt.

Bad Blood is inclined to come to the surface in the Spring because of the effort made by good old mother nature to throw it off. If nature does not have help at his time, the poison may go to the system and produce all manner of ill; but by the aid of Swift's Specific the bad blood is all driven out through the pores of the skin, and permanently relieves the trouble.

This remedy is a purely vegetable and harmless preparation, but so powerful an antidote to blood poison, that it has cured more than 100,000 cases of skin and blood diseases in 1879. I have cured permanently Blood Taint in the third generation by the use of Swift's Specific, after I had met signally failed with Mercury and Potash.

F. A. TOOLEY, M. D., Perry, Ga. Treatise on Blood and Skin Diseases mailed free. THE SWIFT SPECIFIC CO., Drawer 3, Atlanta, Ga. Salmon Canning.

San Francisco Chronicle. The salmon season on the Columbia river, opened on the 1st inst. and will close on July 31st. It is reported that 1,500 boats, manned by 3,000 fishermen, were ready to engage in the capture of the fish on Tuesday last week. The pursuit of the salmon has become more profitable to the fishermen from year to year, while the canners have been compelled to work on a steadily decreasing margin. In 1863, the first year in which the canning of salmon became a recognized industry, the cost of fish was 15 cents each, while a case of canned salmon brought \$15. From that year on there was a steady increase in the price of the fish, and just as steadily a decrease in the market price of the canned product until 1879, when fish on the river were quoted at 60 cents each, while a case of salmon in first hand cost \$40. Since then the rate for canned salmon has risen to \$5 a case, while the price of fish has gone up to 90 cents each, that being the figure paid last year. The canners claim that the business becomes unprofitable when the fish cost more than 70 cents, for it requires four good sized fellows to fill two dozen heavy pound cans. Accordingly, they have always been trying to bear the market, for the raw product, generally with ill success, and mainly because the number of canneries has increased from year to year. It is yet too early to tell whether there will be any change in the state of affairs during the present season. Last year 1700 boats were engaged in salmon catching on the Columbia river and it is doubtful whether that number will be exceeded this year.
